### PECB Certified ISO 45001 Lead Auditor Exam Sample Questions (Q21-Q26):

#### NEW QUESTION # 21

Worker's participations is a key factor for the success of OHSMS. Which three of the following ISO 45001 activities require workers' participation?

- A. Determining what needs to be communicated
- B. Managing internal audit programme
- C. Determining actions to eliminate hazards
- D. Determining competence requirements
- E. Establishing OHS policy
- F. Establishing OHS objectives

**Answer: C,E,F**

Explanation:

Worker participation is a fundamental principle of ISO 45001 (Clause 5.4). It ensures workers at all levels are involved in key activities to enhance the OH&S management system's effectiveness.

Analysis of Options:

A . Determining competence requirements:

Incorrect. Determining competence is primarily the responsibility of management, though workers may provide input.

B . Establishing OHS objectives:

Correct. Worker involvement ensures objectives are realistic and relevant to workplace conditions (Clause 6.2).

C . Managing internal audit programme:

Incorrect. Managing audits is typically a managerial responsibility, though workers may participate in audits.

D . Determining actions to eliminate hazards:

Correct. Workers' insights are critical in identifying and implementing actions to eliminate hazards (Clause 8.1.2).

E . Determining what needs to be communicated:

Incorrect. While communication strategies impact workers, their participation in determining communication needs is not explicitly required.

F . Establishing OHS policy:

Correct. Workers should be involved in developing policies to ensure relevance and buy-in (Clause 5.2).

ISO Reference:

Clause 5.4: Worker participation.

Clause 6.2: OHS objectives.

Clause 8.1.2: Hierarchy of controls and hazard elimination.

**NEW QUESTION # 22**

Match the correct responsibility with each participant of a second-party audit:

Responsibility	Audit Participant
Prepares the audit report	
Prepares audit checklists for use during the audit	
Participates under the direction and guidance of an auditor	
Follows-up on audit findings within an agreed timeframe	
A person who accompanies the audit team but does not act as an auditor	
Escorts the auditors but does not participate in the audit	

To complete the table click on the blank section you want to complete so that it is highlighted in red, and then click on the applicable text from the options below. Alternatively, drag and drop each option to the appropriate blank section.

Auditor
Auditor in training
Audit Team Leader
Observer
Auditee
Guide

**Answer:**

**Explanation:**

Responsibility	Audit Participant
Prepares the audit report	Audit Team Leader
Prepares audit checklists for use during the audit	Auditor
Participates under the direction and guidance of an auditor	Auditor in training
Follows-up on audit findings within an agreed timeframe	Auditee
A person who accompanies the audit team but does not act as an auditor	Observer
Escorts the auditors but does not participate in the audit	Guide

To complete the table click on the blank section you want to complete so that it is highlighted in red, and then click on the applicable text from the options below. Alternatively, drag and drop each option to the appropriate blank section.

Auditor
Auditor in training
Audit Team Leader
Observer
Auditee
Guide

**Explanation:**

A screenshot of a computer Description automatically generated

Here is the correct matching of responsibilities with the audit participants:

Responsibility	Audit Participant
Prepares the audit report	Audit Team Leader
Prepares audit checklists for use during the audit	Auditor
Participates under the direction and guidance of an auditor	Auditor in Training
Follows up on audit findings within an agreed timeframe	Auditee
A person who accompanies the audit team but does not act as an auditor	Observer
Escorts the auditors but does not participate in the audit	Guide

**Explanation:**

- \* Prepares the audit report # Audit Team Leader: The Audit Team Leader is responsible for compiling and preparing the final audit report, summarizing findings and conclusions.
- \* Prepares audit checklists for use during the audit # Auditor: Auditors create checklists to ensure a thorough and systematic evaluation during the audit.

\* Participates under the direction and guidance of an auditor # Auditor in Training: An auditor in training works under supervision to gain experience and contribute to the audit process.

\* Follows up on audit findings within an agreed timeframe # Auditee: The auditee is responsible for addressing and resolving audit findings and providing evidence of corrective actions.

\* A person who accompanies the audit team but does not act as an auditor # Observer: Observers are typically external parties or internal personnel who watch the audit process but do not participate actively.

\* Escorts the auditors but does not participate in the audit # Guide: A guide facilitates the audit by helping auditors navigate the site and access relevant areas or documents.

### NEW QUESTION # 23

You are conducting a Stage 2 audit of a steel fabrication works that uses powerful presses to shape steel sheets into various car panels. You note from the accident book that more staff hours have been lost through accidents associated with the presses than those associated with any other equipment.

You question the OH&S manager who tells you, "These big presses are just inherently more dangerous than other equipment. If there is an accident, it's going to be more serious as a result of the forces at work." Which three of the following audit trails would it now be appropriate to pursue?

- A. Ask top management to explain how the reoccurring accidents would affect the setting of future OH&S objectives.
- B. Determine whether there were any maintenance issues that resulted in the machines being unsafe to use, such as broken or missing guards or faulty emergency stop buttons.
- C. Check whether the organisation has big enough finances to invest in fully automated pressing machines which would not need manual workers.
- D. Check that the workers who had been injured had received appropriate compensation, so they did not suffer financially from their accidents or working hours lost while recovering.
- E. Ensure that the organisation had recorded the reoccurring accidents as an external issue in its determination of context of the organisation. Ensure all interested parties had been informed.
- F. Determine whether hazard identification had taken place in respect of the pressing process. If it did, what OH&S risks were identified and what actions were instigated to mitigate these risks?
- G. Determine whether the organisation had considered changing the panels to plastic mouldings which would be less likely to cause accidents.

**Answer: B,E,F**

### NEW QUESTION # 24

Select two options that are corrections.

- A. Updating the emergency preparedness plan as a result of carrying out a practical test.
- B. Changing a process to reduce its inherent risk.
- C. Adding a missing signature to a corrective action record.
- D. Using OHSMS induction training to address an identified lack OHSMS awareness among winkers.
- E. Changing the name of a tutor that did not deliver a course to the name of the tutor that did.
- F. Reviewing workers training records.

**Answer: C,E**

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Corrections address immediate issues, such as errors or omissions, without addressing root causes. Clause 10.2 of ISO 45001:2018 allows for corrections alongside corrective actions.

Analysis of Options:

A . Adding a missing signature to a corrective action record:

Correct. This is a correction addressing an administrative oversight.

B . Changing a process to reduce its inherent risk:

Incorrect. This is a corrective action aimed at addressing root causes, not a correction.

C . Changing the name of a tutor that did not deliver a course to the name of the tutor that did:

Correct. This corrects an error in records without addressing systemic issues.

D . Reviewing workers' training records:

Incorrect. This is part of ongoing monitoring or auditing, not a correction.

E. Updating the emergency preparedness plan as a result of carrying out a practical test:

Incorrect. This is a corrective action resulting from performance evaluation, not a correction.

F. Using OHSMS induction training to address an identified lack of OHSMS awareness among workers:

Incorrect. This is a preventive or corrective action, not a correction.

ISO Reference:

Clause 10.2: Nonconformity and corrective action.

Clause 7.5: Control of documented information

## NEW QUESTION # 25

Wash-it-up is an organization that provides window cleaning services for the industrial sector. It has been certified to ISO 45001 for some time and has appointed a new OHS Manager. The audit plan during a surveillance audit includes the improvement actions and the auditor asks to see the most recent management review meeting minutes.

surveillance audit includes the Improvement actions and the auditor asks to see the most recent management review meeting minutes.

Which six of the statements would represent output audit evidence for the management review?

- A. Allocation of a bigger budget for the OHS department
- B. Plan to priorities health and safety issues as a business strategy
- C. Decagons related to continual improvement opportunities
- D. Minutes of previous management reviews
- E. Updates to the risk register
- F. Report showing the trend of an increase in safety incidents
- G. Improvements in the OHSMS
- H. Worker feedback of positive and negative comments
- I. Opportunities to integrate the OHS management system with other business processes
- J. Procurement of new safety harnesses for workers

**Answer: A,B,C,E,G,I**

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 9.3 of ISO 45001:2018 outlines the requirements for management reviews. These reviews must evaluate the performance of the OHSMS and identify opportunities for improvement. Outputs of management reviews typically include decisions and actions that align with strategic and operational priorities.

Analysis of Options:

A. Decisions related to continual improvement opportunities:

This is a valid output, as continual improvement is a key objective of management reviews under Clause 10.3.

B. Allocation of a bigger budget for the OHS department:

Resource allocation is a common output of management reviews to address identified needs.

C. Improvements in the OHSMS:

Improvements reflect the organization's commitment to enhancing safety performance.

D. Minutes of previous management reviews:

While minutes provide context, they are not an output of the current management review.

E. Opportunities to integrate the OHS management system with other business processes:

Integration opportunities are valid outputs, as they enhance the system's effectiveness.

F. Plan to prioritize health and safety issues as a business strategy:

Strategic alignment of health and safety with business objectives is an expected output.

G. Procurement of new safety harnesses for workers:

This is an operational action, not a direct output of the management review process.

H. Report showing the trend of an increase in safety incidents:

This is an input to the management review, not an output.

I. Updates to the risk register:

Risk register updates reflect changes in identified hazards and risks, making this a valid output.

J. Worker feedback of positive and negative comments:

Worker feedback is an input to the management review, not an output.

ISO Reference:

Clause 9.3: Management review inputs and outputs.

Clause 10.3: Continual improvement actions.
