## WGU Information-Technology-Management Dumps Reviews: WGU Information Technology Management QGC1 - RealExamFree Ensure you Pass Exam

Test your knowledge of the WGU Information Technology Management QGC1 (Information-Technology-Management) exam dumps with RealExamFree WGU Information Technology Management QGC1 (Information-Technology-Management) practice questions. The software is designed to help with WGU Information Technology Management QGC1 (Information-Technology-Management) exam dumps preparation. WGU Information-Technology-Management practice test software can be used on devices that range from mobile devices to desktop computers.

## WGU Information Technology Management QGC1 Sample Questions (Q61-Q66):

**NEW QUESTION # 61**
What are the responsibilities of the product owner in a Scrum project?

- A. Track task completion and update sprint burndown charts
- B. Monitor velocity metrics and ensure team compliance
- C. Assist developers with blockers and code refactoring
- D. Prioritize requirements and manage the backlog

**Answer: D**

Explanation:
In Scrum, the product owner is responsible for maximizing the value of the product by managing the product backlog. This includes prioritizing requirements, refining backlog items, and ensuring that the development team works on the most valuable features first.
Option A: Velocity metrics are typically monitored by the Scrum Master and team, not the product owner.
Option B: Burndown charts are updated by the team, not managed by the product owner.
Option D: Assisting developers with coding and blockers is the responsibility of the Scrum Master and development team.
Thus, the product owner's main responsibility is to prioritize requirements and manage the backlog.

## NEW QUESTION # 62
Which hacking method involves forging the from address so that replies go to an unintended audience?

- A. Spoofing
- B. Packet tampering
- C. Spyware
- D. Hoaxes

**Answer: A**

## NEW QUESTION # 63
Employees in different business levels need knowledge to effectively drive their work and decision-making.
Which term describes the trait of an IT leader to effectively translate perspectives at both a broad and corporate strategic level?

- A. Breadth
- B. Systems thinking
- C. Coordinate
- D. Courage

**Answer: B**

## NEW QUESTION # 64
Which storage device provides quick access to data and uses flash memory technology?

- A. Hard disk drive
- B. Solid-state drive
- C. Optical disc drive
- D. Magnetic tape drive

**Answer: B**

Explanation:
A Solid-State Drive (SSD) uses flash memory technology to store data electronically, allowing faster data access, lower latency, and improved reliability compared to mechanical storage devices. SSDs have no moving parts, making them more durable and efficient for high-speed computing tasks.
Option A (Hard disk drive): Uses spinning magnetic disks and is slower.
Option B (Optical disc drive): Reads/writes data using lasers on discs (CDs, DVDs).
Option D (Magnetic tape drive): Stores large volumes of data sequentially, primarily for backups.
Thus, the correct answer is Solid-state drive.

## NEW QUESTION # 65
What is a method for confirming users' identities?

- A. Authentication
- B. Public key encryption
- C. Information secrecy
- D. Authorization

**Answer: A**

Explanation:
Defining Authentication:
Authentication is the process of verifying a user's identity to ensure they are who they claim to be.
This is commonly achieved through knowledge factors (passwords), possession factors (tokens), or biometric factors (fingerprints).
Why Other Options Are Incorrect:
Option A (Information secrecy): Focuses on protecting data, not identity confirmation.
Option B (Public key encryption): A method of encryption, not directly tied to user identity verification.
Option D (Authorization): Deals with granting access to resources after authentication.
