With the power of Salesforce Marketing Cloud, certified consultants can help businesses connect with their customers more effectively while providing valuable insights into their marketing strategies.

Salesforce Preparing for your Salesforce Certified Marketing Cloud Consultant Exam Sample Questions (Q129-Q134):

NEW QUESTION # 129

Northern Trail Outfitters upgraded their Marketing Cloud account which now includes a Sender Authentication Package (SAP). They send regularly 300,000 messages.

What should they be aware of with respect to sender reputation?

- A. They should have a shared IP since their volume is under 500,000 messages per month.
- B. They should have one SAP for transactional sends and another for commercial sends.
- C. They should have one dedicated IP address for every 100,000 messages sent per month.
- **D. They should send at least 250,000 messages per month to maintain their sender reputation.**

Answer: D

Explanation:

With a Sender Authentication Package (SAP) and dedicated IP address, maintaining a minimum volume (around 250,000 messages/month) is critical to building and maintaining a healthy sender reputation. If the volume drops too low, deliverability could be negatively affected.

-

Exact Extracts from Salesforce Documentation:

Source: Salesforce Help - Dedicated IP Warning and Maintenance

"To maintain a strong sending reputation on a dedicated IP address, customers should send a minimum of 250,000 emails per month."

Source: Salesforce Marketing Cloud Implementation Guide - Sender Authentication Package

"Dedicated IPs provided with SAP require consistent, high-volume sending for optimal performance."

-

NEW QUESTION # 130

NTO wants to import files at certain standard times, but occasionally a file will be dropped on a Friday if the 30th of the month falls on a weekend.

What is the flow?

- **A. Triggered Import - user initiated send (not scheduled).**
- B. A user-initiated message to send an email to customers who made a purchase daily.
- C. A scheduled automation to send emails to customers who made a purchase daily.

Answer: A

Explanation:

If a question is related to automation and it mentions that a file will be available in the FTP always at a specific time, your answer will be an option with a scheduled automation. Scheduled automations are used when you know the time a file is pushed into FTP and it always runs at a scheduled time. If a question is related to automation and there is an uncertainty when the file will be pushed to FTP (ex; a day before last working day / if a date falls on a weekend, it will be available on last Friday etc.), your answer will be an option with a Triggered Automation. Triggered Automations are fired as soon as a file hits a specific location within FTP. Transfer activity is involved when file is encrypted.

NEW QUESTION # 131

Northern Trail Outfitters wants to target Contacts in an abandoned cart Journey with a Facebook ad. An Ad Campaign Activity has been added to the Journey canvas.

Which extension product should be enabled to use the Ad Campaign Activity?

- A. Social Studio
- **B. Advertising Studio**

- C. Interaction Studio
- D. Audience Studio

Answer: B

Explanation:

To use the Ad Campaign Activity in a Journey Builder journey, Northern Trail Outfitters should enable Advertising Studio. Advertising Studio is a tool that allows marketers to create and manage advertising campaigns on different platforms, such as Facebook, Google, or Twitter. The Ad Campaign Activity is a feature of Advertising Studio that allows marketers to add contacts from a journey to an advertising audience and target them with relevant ads. NEW QUESTION # 132

A customer wants to send a quarterly reengagement email to subscribers who have NOT opened in the previous three months. The customer's plans are to:

- * Use an existing Paste HTML email for the first send.
- * Make only minor changes to the email creative for future sends.
- * Send to the subscriber list.
- * Deploy emails manually for now, but possibly automate in the future.

Which send method should be used?

- A. Guided Send
- B. Send Email Activity
- C. Send Flow Activity
- D. Triggered Send

Answer: C

NEW QUESTION # 133

A customer provides a file containing only new and updated subscriber records exported from its marketing database.

- * The file will be uploaded to the customer's Enhanced FTP automatically at 3AM daily.
- * The customer requires that the import completes prior to 4AM.
- * On average, the file will contain about 2 million rows of data each day.

Based on the customer's requirements and recommended best practices, how should the daily file be imported?

- A. Import the file to a data extension, using the 'overwrite' method.
- B. Import the file to a list, using the 'add and update' method.
- C. Import the file to a data extension, using the 'add and update' method.
- D. Import the file to a list, using the 'update only' method.

Answer: C

Explanation:

Since Record count is more than 500 K so DE is used. New and Update is already specified in question.
