

HP HPE7-J02 Online Tests, HPE7-J02 Testfagen

Die Freude, der Erfolg mitbringt, ist riesig. Wir hoffen, dass die anspruchsvolle Software von uns Ihnen das Freude des Bestehens der HP HPE7-J02 mitbringen. Ihr Erfolg ist auch unsere Erfolg. Deshalb bemühen uns für Sie um Ihre Prüfungszertifizierung der HP HPE7-J02. Wir tun unser Bestes, die HP HPE7-J02 Prüfungsunterlagen zu herstellen und den allseitigen Kundendienst zu bieten.

HP HPE7-J02 Prüfungsplan:

Thema	Einzelheiten
Thema 1	Optimizing the Customer's Environment: This domain evaluates the skills of Optimization Specialists in identifying opportunities for improvement. Candidates will design and validate optimization plans that enhance customer environments, ensuring measurable performance and efficiency gains.
Thema 2	Storage Access and Data Protection: This part of the exam tests the expertise of Infrastructure Engineers in configuring storage access, provisioning capacity, and applying replication policies. It also covers disaster recovery validation and role-based access control to secure storage operations.
Thema 3	Planning and Validating Storage Solutions: This section assesses the role of Storage Consultants in evaluating complex, multi-vendor environments. Candidates will demonstrate their ability to plan, size, and validate storage solutions tailored for enterprise workloads, ensuring proposals meet customer requirements effectively.
Thema 4	Monitoring and Telemetry: This section examines the skills of Cloud Operations Specialists in using HPE or third-party management tools to monitor customer telemetry. Candidates must configure alerts, analyze logs, and evaluate reports to identify SLA trends, outages, and performance issues.
Thema 5	Competitive Positioning of HPE Storage: This part of the exam focuses on the ability of Trusted Advisors to identify competitive opportunities for HPE Storage solutions. It requires articulating HPE's strengths in comparison to multi-vendor environments, customer needs, and market trends, helping customers make informed technology choices.
Thema 6	Advanced Troubleshooting and Prevention: This section focuses on the ability of Support Engineers to identify root causes of issues and implement advanced preventive measures. It emphasizes building resilience in customer environments to minimize future disruptions.

HPE7-J02 Testfagen - HPE7-J02 PDF Demo

Es gibt eine Menge von Websites, die HP HPE7-J02 Zertifizierungsprüfung und andere Schulungsunterlagen bieten. Aber PrüfungFrage ist die einzige Website, die Ihnen qualitativ hochwertige Schulungsunterlagen zur HP HPE7-J02 Zertifizierungsprüfung bietet. Unter der Anleitung und Hilfe von PrüfungFrage können Sie die HP HPE7-J02 Prüfung beim ersten Versuch bestehen. Die Fragenpool von PrüfungFrage werden von den lebendigen IT-Experten nach ihren umfangreichen Wissen und Erfahrungen bearbeitet. Sie werden Sie sicher im IT-Bereich sehr fördern.

HP Advanced HPE Storage Integrator Solutions Written Exam HPE7-J02 Prüfungsfragen mit Lösungen (Q10-Q15):

10. Frage

Your customer is a hospital that recently experienced an outage that impacted patient care. They are evaluating HPE SimpliVity. Which statement about HPE SimpliVity RapidDR is correct?

- A. HPE RapidDR ensures an RTO of 0 in a stretched cluster topology.
- B. HPE RapidDR auto-commit and auto-rollback policies are completed without user interaction.
- **C. HPE RapidDR requires an authorized person to execute a pre-configured recovery plan during failover.**
- D. HPE RapidDR requires domain administrator credentials to re-IP virtual machines in the failover site.

Antwort: C

Begründung:

Detailed Explanation:

Rationale for Correct Answer:

HPE SimpliVity RapidDR simplifies and automates DR failover processes, but execution requires an authorized operator to trigger a pre-configured recovery plan. This balances automation with compliance and security requirements (important for healthcare). It does not guarantee zero RTO, but it does minimize RTO through automation.

Distractors:

A: RTO of 0 is not possible; RapidDR reduces but does not eliminate recovery time.

B: Domain admin credentials for re-IP are not required; automation handles reconfiguration.

C: Auto-commit/rollback require administrator validation; no "silent" automation is allowed for compliance.

Key Concept: RapidDR = automation of failover/failback but requires authorized trigger.

Reference: HPE SimpliVity RapidDR Technical Overview.

11. Frage

Your customer has expressed an interest in an HPE CloudPhysics assessment of their environment. They would like to know what to expect from this process.

Which of the following statements is true of a CloudPhysics assessment?

- A. Your customer can only access a partial view of the results.
- **B. Some assessment results are visible in only 2 hours.**
- C. An auto-generated token from HPE is required to view the results.
- D. The assessment period lasts for 5 business days.

Antwort: B

Begründung:

Detailed Explanation:

Rationale for Correct Answer:

HPE CloudPhysics begins collecting performance and capacity data immediately after deployment of the Observer VM/collector.

Some initial assessment results (e.g., environment inventory, early utilization stats) can be visible within 2 hours, while deeper trending insights require longer data collection (days/weeks).

Distractors:

B: Tokens are not required for customers to view results; reports are available via the portal.

C: Customers get a full dashboard view of results, not partial.

D: Assessments can run for longer periods (days-weeks), not fixed at 5 days.

Key Concept: CloudPhysics delivers initial insights within hours.

Reference: HPE CloudPhysics Technical Overview.

12. Frage

A growing technology company is planning to upgrade its data center infrastructure. Their considerations:

Budget: Predictable monthly payments, no upfront CapEx.

Flexibility: Long-term use, no forced returns.

Ownership: Prefer eventual ownership, spread payments.

Control: Full customization and upgrades.

Which procurement option best meets their needs?

- A. Capital purchase
- **B. Capital lease**
- C. Consumption based
- D. Operating lease

Antwort: B

Begründung:

Detailed Explanation:

Rationale for Correct Answer:

A Capital Lease (also known as a finance lease) spreads costs over time like OpEx, while giving the customer the ability to own the equipment at the end of the lease term. This matches the desire for predictable payments, eventual ownership, and full control.

Distractors:

A (Consumption model): GreenLake provides OpEx flexibility but does not lead to ownership.

B (Operating lease): Pure rental; equipment must be returned, no ownership.

C (Capital purchase): Requires large upfront payment, which the customer wants to avoid.

Key Concept: Capital Lease = predictable payments + ownership path.

Reference: HPE Financial Services Procurement Options.

13. Frage

While attempting to increase an upstream volume size for an Alletra 6000 Peer Persistence setup from local web management, you are facing an error that prevents you from completing the task.

Which action is required to complete the task successfully?

- A. Increase the size of the volume in VMware HPE Storage plugin.
- **B. Use the Data Services Cloud Console to grow the upstream volume.**
- C. Remove the downstream volume, volume collection before increasing the upstream volume.
- D. Remove the upstream volume, volume collection before increasing the upstream volume.

Antwort: B

Begründung:

Detailed Explanation:

Rationale for Correct Answer:

In Alletra 6000 Peer Persistence environments, operations like resizing Peer Persistence volumes must be performed via the HPE Data Services Cloud Console (DSCC), which manages volume collections and replication consistency groups. Attempting to grow the upstream volume locally will fail because the changes need to propagate across both sites consistently.

Distractors:

A/B: Removing upstream or downstream volumes would break replication and is not required.

D: Expanding in VMware only extends the VMFS datastore, not the underlying replicated volume.

Key Concept: Peer Persistence volume resizing is done in DSCC, not local web GUI.

Reference: HPE Alletra 6000 Peer Persistence Configuration and Management Guide.

14. Frage

A local startup company has grown rapidly and now needs block storage for enterprise workloads. They are virtualized with VMware and have a small IT staff. They are evaluating an HPE Alletra MP and a Pure FlashArray //X90R4.

Environment:

VMware 8.0

Cisco switches

Dell servers

HPE servers

What statement about HPE should you point out as a differentiator?

- A. HPE has live workload migration via the ActiveWorkload feature, based on a stretch cluster.
- B. HPE has the ability to disable garbage collection and overhead to meet workload requirements.
- **C. HPE provides full-stack visibility up to the app layer with prescriptive, actionable recommendations.**
- D. HPE can natively tier data on a software-only deployment.

Antwort: C

Begründung:

Detailed Explanation:

Rationale for Correct Answer:

HPE Alletra with InfoSight provides end-to-end visibility from infrastructure through to virtual machines and applications. It offers prescriptive, AI-driven recommendations to simplify management - a key differentiator for startups with small IT staff. Pure arrays do not offer the same level of integrated, cross-stack predictive analytics.

Distractors:

B: "ActiveWorkload" is not an HPE feature - HPE uses Peer Persistence for stretch clusters.

C: Garbage collection is managed automatically in HPE arrays; disabling it is not supported.

D: Data tiering is not natively provided as "software-only" - HPE uses GreenLake and Alletra services.

Key Concept: InfoSight = predictive analytics and app-to-infra visibility differentiator.

Reference: HPE InfoSight for Alletra Datasheet.

15. Frage

.....

Es ist keine Neuheit, dass die Schulungsunterlagen zur HP HPE7-J02 von PrüfungFrage guten Ruf von den Kandidaten gewinnen. Das heißt auch, dass die Schulungsunterlagen zur HP HPE7-J02 Zertifizierungsprüfung zuverlässig sind und den Kandidaten eher zum Bestehen der Prüfung verhelfen. PrüfungFrage ist immer der Best-Seller im Vergleich mit den anderen Websites. Er wird von den anderen anerkannt und hat einen guten Ruf. Wenn Sie sich an der HP HPE7-J02 Zertifizierungsprüfung beteiligen wollen, wählen Sie doch PrüfungFrage. Sie werden sicher bekommen, was Sie wollen. Wenn Sie keine Chance verpassen möchten, würden Sie auch nicht bereuen. Wenn Sie ein professioneller IT-Expert werden wollen, schicken PrüfungFrage in den Warenkorb.
