

CMMC-CCP Training Questions, CMMC-CCP Test Dumps.zip

CMMC CCP PRACTICE EXAM QUESTIONS (DERIVED FROM SHANE'S PRACTICE TEST AND DIRECTLY FROM THE CAP) QUESTIONS WITH COMPLETE SOLUTIONS!!

What is a CUI Asset? Answer - Asset that stores, processes, or transmits CUI Examples: Servers, Printers, Endpoints, Cloud Services, ERP Systems

Where do you document a CUI Asset? Answer - Document in Asset Inventory Document in SSP Document in Network Diagram

What practices do you apply to a CUI Asset? Answer - CMMC Level 2

What does CMMC stand for? Answer - Cybersecurity Maturity Model Certification

How many controls are in CMMC L2? Answer - 110 controls

What impact level is required when storing CUI? Answer - IL4

What contract clause is used for CMMC L1? Answer - FAR 52.204-21 (17 practices in total)

If you want to be CMMC L2 compliant, do you need to also be CMMC L1 compliant? Answer - Yes

What do you call the part before the first period in the following control? AC.L1-3.1.1 Answer - Domain

What do you call the part after the first period in the following control? AC.L1-3.1.1 Answer - Level

What do you call the part after the dash in the following control? AC.L1-3.1.1 Answer - Security Practice Number

What is confidentiality? Answer - Information Access and disclosure includes means for protecting personal privacy and proprietary information.

P.S. Free 2026 Cyber AB CMMC-CCP dumps are available on Google Drive shared by SureTorrent:
<https://drive.google.com/open?id=1PhcW-EYEbrGdVCHa8YnzmCiS7VOnghSn>

On SureTorrent website, you can easily prepare CMMC-CCP exam, also can avoid some common mistakes. Our IT elite team take advantage of their professional knowledge and experience, and probe into the IT industry development status by trial and error, finally summarizes SureTorrent's Cyber AB CMMC-CCP Exam Training materials. It is very accurate, authoritative. SureTorrent's Cyber AB CMMC-CCP exam dumps will be your best choice.

For candidates who are going to buy CMMC-CCP study guide materials online, the safety for the website is important. We have professional technicians to examine the website at times. If you choose us, we will provide you with a clean and safe online shopping environment. Besides, we offer you free demo for CMMC-CCP exam materials for you to have a try, so that you can know the mode of the complete version. You can enjoy free update for one year for CMMC-CCP Exam Materials, so that you can know the latest version for the exam timely. The update version for CMMC-CCP exam materials will be sent to your email automatically.

>> CMMC-CCP Training Questions <<

CMMC-CCP Test Dumps.zip | CMMC-CCP Valid Exam Materials

We provide you free demo with you to help you have a deeper understanding about CMMC-CCP study materials. Free demo can

be found in our website, and we recommend you to have a try before buying. Furthermore, CMMC-CCP exam materials of us have the questions and answers, and you can have a convenient check of your answers after you finish practicing. We are pass guarantee and money back guarantee for your failure after purchasing CMMC-CCP Study Materials. You just need to give your failure scanned and we will give you full refund. Choose us, and we can help you to pass the exam successfully.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q75-Q80):

NEW QUESTION # 75

What is the primary intent of the verify evidence and record gaps activity?

- A. Conduct interviews to test process implementation knowledge.
- B. Determine the one-to-one relationship between a practice and an assessment object.
- **C. Identify and describe differences between what the Assessment Team required and the evidence collected.**
- D. Map test and demonstration responses to CMMC practices.

Answer: C

NEW QUESTION # 76

Two network administrators are working together to determine a network configuration in preparation for CMMC. The administrators find that they disagree on a couple of small items. Which solution is the BEST way to ensure compliance with CMMC?

- A. Go with the network administrator's ideas with the least stringent controls.
- B. Consult with the CEO of the company.
- C. Go with the network administrator's ideas with the most stringent controls.
- **D. Consult the CMMC Assessment Guides and NIST SP 800-171.**

Answer: D

NEW QUESTION # 77

In preparation for a CMMC Level 1 Self-Assessment, the IT manager for a DIB organization is documenting asset types in the company's SSP. The manager determines that identified machine controllers and assembly machines should be documented as Specialized Assets. Which type of Specialized Assets has the manager identified and documented?

- A. IoT
- B. Restricted IS
- C. Test equipment
- **D. Operational technology**

Answer: D

Explanation:

Understanding Specialized Assets in a CMMC Self-Assessment During CMMC Level 1 Self-Assessments, organizations must classify their assets in the System Security Plan (SSP).

* Operational Technology (OT) includes machine controllers, industrial control systems (ICS), and assembly machines.

* These systems control physical processes in manufacturing, energy, and industrial environments.

* OT assets are distinct from traditional IT systems because they have unique security considerations (e.g., real-time control, legacy system constraints).

Specialized Asset Type: Operational Technology (OT)

* A. IoT (Internet of Things) # Incorrect

* IoT devices include smart home systems, connected sensors, and networked appliances, but machine controllers and assembly machines fall under OT, not IoT.

* B. Restricted IS # Incorrect

* Restricted Information Systems (IS) refer to classified or highly controlled systems, which does not apply to standard industrial machines.

* C. Test Equipment # Incorrect

* Test equipment includes diagnostic tools or measurement devices used for quality assurance, not industrial machine controllers.

- * D. Operational Technology # Correct
- * Machine controllers and assembly machines are part of industrial automation and control systems, which are classified as Operational Technology (OT).
- Why is the Correct Answer "D. Operational Technology"?
- * CMMC Scoping Guidance for Level 1 & Level 2 Assessments
- * Defines Operational Technology (OT) as a category of Specialized Assets that require specific security considerations.
- * NIST SP 800-82 (Guide to Industrial Control Systems Security)
- * Identifies machine controllers and assembly machines as part of Operational Technology (OT).
- * CMMC 2.0 Asset Classification Guidelines
- * Specifies that OT systems should be documented separately in an organization's SSP.

CMMC 2.0 References Supporting This answer:

NEW QUESTION # 78

A CMMC Assessment is being conducted at an OSC's HQ, which is a shared workspace in a multi-tenant building. The OSC is renting four offices on the first floor that can be locked individually. The first-floor conference room is shared with other tenants but has been reserved to conduct the assessment. The conference room has a desk with a drawer that does not lock. At the end of the day, an evidence file that had been sent by email is reviewed. What is the BEST way to handle this file?

- A. Review it, print it, and put it in the desk drawer.
- B. Review it, and make notes on the computer provided by the client.
- **C. Review it, print it, make notes, and then shred it in cross-cut shredder in the print room**
- D. Review it, print it, and leave it in a folder on the table together with the other documents.

Answer: C

Explanation:

In the context of the Cybersecurity Maturity Model Certification (CMMC) 2.0, particularly at Level 2, organizations are required to implement stringent controls to protect Controlled Unclassified Information (CUI). This includes adhering to specific practices related to media protection and physical security.

Media Protection (MP):

- * MP.L2-3.8.1 - Media Protection: Organizations must protect (i.e., physically control and securely store) system media containing CUI, both paper and digital. This ensures that sensitive information is not accessible to unauthorized individuals.

Defense Innovation Unit

- * MP.L2-3.8.3 - Media Disposal: It is imperative to sanitize or destroy information system media containing CUI before disposal or release for reuse. This practice prevents potential data breaches from discarded or repurposed media.

Defense Innovation Unit

Physical Protection (PE):

- * PE.L2-3.10.2 - Monitor Facility: Organizations are required to protect and monitor the physical facility and support infrastructure for organizational systems. This includes ensuring that areas where CUI is processed or stored are secure and access is controlled.

Defense Innovation Unit

Application to the Scenario:

Given that the Organization Seeking Certification (OSC) operates within a shared, multi-tenant building and utilizes a common conference room for assessments, the following considerations are crucial:

- * Reviewing the Evidence File: The evidence file, which contains CUI, should be reviewed on a secure, authorized device to prevent unauthorized access or potential data leakage.

- * Printing the Evidence File: If printing is necessary, ensure that the printer is located in a secure area, and the printed documents are retrieved immediately to prevent unauthorized viewing.

- * Making Notes: Any notes derived from the evidence file should be treated with the same level of security as the original document, especially if they contain CUI.

- * Disposal of Printed Materials: After the assessment, all printed materials and notes containing CUI must be destroyed using a cross-cut shredder. Cross-cut shredding ensures that the information cannot be reconstructed, thereby maintaining confidentiality.

Options A and D are inadequate as they involve leaving sensitive information in unsecured locations, which violates CMMC physical security requirements. Option B, while secure in terms of digital handling, does not address the proper disposal of any physical copies that may have been made. Therefore, Option C is the best practice, aligning with CMMC 2.0 guidelines by ensuring that all physical media containing CUI are properly reviewed, securely stored during use, and thoroughly destroyed when no longer needed.

NEW QUESTION # 79

Which NIST SP discusses protecting CUI in nonfederal systems and organizations?

- A. NIST SP 800-171
- B. NIST SP 800-88
- C. NIST SP 800-53
- D. NIST SP 800-37

Answer: A

Explanation:

Understanding the Role of NIST SP 800-171 in CMMC NIST Special Publication (SP) 800-171 is the definitive standard for protecting Controlled Unclassified Information (CUI) in nonfederal systems and organizations. It provides security requirements that organizations handling CUI must implement to protect sensitive government information.

This document is the foundation of CMMC 2.0 Level 2 compliance, which aligns directly with NIST SP 800-171 Rev. 2 requirements. Breakdown of Answer Choices NIST SP

Title

Relevance to CMMC

NIST SP 800-37

Risk Management Framework (RMF)

Focuses on risk assessment for federal agencies, not directly applicable to CUI in nonfederal systems.

NIST SP 800-53

Security and Privacy Controls for Federal Systems

Provides security controls for federal information systems, not specifically tailored to nonfederal organizations handling CUI.

NIST SP 800-88

Guidelines for Media Sanitization

Covers secure data destruction and disposal, not overall CUI protection.

NIST SP 800-171

Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations

#Correct Answer - Directly addresses CUI protection in contractor systems.

Key Requirements from NIST SP 800-171: The document outlines 110 security controls grouped into 14 families, including:

- * Access Control (AC)- Restrict access to authorized users.
- * Audit and Accountability (AU)- Maintain system logs and monitor activity.
- * Incident Response (IR)- Establish an incident response plan.
- * System and Communications Protection (SC)- Encrypt CUI in transit and at rest.

These controls serve as the baseline requirements for organizations seeking CMMC Level 2 certification to work with CUI.

* CMMC 2.0 Level 2 aligns directly with NIST SP 800-171 Rev. 2.

* DoD contractors that handle CUI must comply with all 110 controls from NIST SP 800-171.

Official Reference from CMMC 2.0 Documentation Final Verification and Conclusion The correct answer is D.

NIST SP 800-171, as this document explicitly defines the cybersecurity requirements for protecting CUI in nonfederal systems and organizations.

NEW QUESTION # 80

.....

If only you provide the scanning copy of the CMMC-CCP failure marks we will refund you immediately. If you have any doubts about the refund or there are any problems happening in the process of refund you can contact us by mails or contact our online customer service personnel and we will reply and solve your doubts or questions timely. We provide the best service and CMMC-CCP Test Torrent to you to make you pass the exam fluently but if you fail in we will refund you in full and we won't let your money and time be wasted. Our questions and answers are based on the real exam and conform to the popular trend in the industry.
