C_S4PM2_2507 Pass Guide & Test C_S4PM2_2507 Collection

As the old saying goes people change with the times. People must constantly update their stocks of knowledge and improve their practical ability. Passing the test C_S4PM2_2507 certification can help you achieve that and buying our C_S4PM2_2507 study materials can help you pass the test smoothly. Our system is strictly protect the clients' privacy and sets strict interception procedures to forestall the disclosure of the clients' private important information. Our system will automatically send the updates of the C_S4PM2_2507 Study Materials to the clients as soon as the updates are available. So our system is wonderful.

SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects Sample Questions (Q71-Q76):

NEW QUESTION # 71

In the SAP Activate run phase the new system is monitored, maintained, and optimized to ensure it runs smoothly and efficiently. Which change management activity can only be realized in the run phase of the cloud implementation?

- A. Conduction of a pulse check
- **B. Measurement of actual user adoption metrics**
- C. Mapping of SAP roles to employees
- D. Development of the user adoption strategy

Answer: B

NEW QUESTION # 72

You are preparing for an SAP S/4HANA Cloud Private Edition implementation project. What do you find in the Roadmap Viewer?
Note: There are 2 correct answers to this question.

- A. Tasks and deliverables to complete each phase
- B. Clean Core quality gates
- C. Solution process setup instructions
- D. Business process flows

Answer: A,B

NEW QUESTION # 73

In the SAP Activate prepare phase, the cloud project is set up and officially launched. Which change management activities are usually started in this phase? Note: There are 3 correct answers to this question.

- A. Develop and align the change network strategy
- B. Conduct a detailed change impact analysis
- C. Develop an initial change plan for the cloud project
- D. Identify the key stakeholders and conduct a stakeholder analysis
- E. Facilitate the role mapping process

Answer: A,C,D

Explanation:

Step 1 - Understanding the Question

In the SAP Activate methodology, the Prepare phase is where the project is officially launched, governance is established, and foundational change management (OCM) activities begin.

Change management in this phase focuses on building awareness, defining structure, and planning- not yet detailed change execution.

Step 2 - Evaluate Each Option

A). Develop and align the change network strategy

* During the Prepare phase, one of the first organizational change activities is to design the change network- a group of change agents and champions who support adoption across business areas.

* The strategy defines roles, responsibilities, and communication lines for this network.

* This early setup enables effective stakeholder engagement during later phases.

Result: Correct - The change network strategy is initiated and aligned in the Prepare phase.

B). Identify the key stakeholders and conduct a stakeholder analysis

* Early stakeholder identification is a core task in the Prepare phase.

* The project team identifies business and IT stakeholders who influence or are impacted by the project.

* A stakeholder analysis is then performed to understand their interests, influence, and readiness levels.

* This ensures targeted communication and support planning for each group.

Result: Correct - Stakeholder analysis is a standard activity of the Prepare phase.

C). Facilitate the role mapping process

* Role mapping links system roles to business users and is typically performed later - in the Explore or Realize phase, once business process requirements and system access needs are clearly defined.

* It is not a primary OCM activity in the Prepare phase.

Result: Incorrect - Conducted later in the project.

D). Conduct a detailed change impact analysis

* Detailed change impact analysis requires finalized process design, which occurs after Fit-to-Standard workshops in the Explore phase.

* In the Prepare phase, teams may perform only initial impact identification, not a detailed analysis.

Result: Incorrect - Performed during Explore.

E). Develop an initial change plan for the cloud project

* A high-level change plan is developed in the Prepare phase to outline change management goals, key activities, milestones, and success criteria.

* This plan serves as the foundation for detailed OCM execution plans in subsequent phases.

Result: Correct - Initial change plan development is a key Prepare phase deliverable.

Step 3 - Final Answer

The correct answers are:

A). Develop and align the change network strategy

B). Identify the key stakeholders and conduct a stakeholder analysis

E). Develop an initial change plan for the cloud project

NEW QUESTION # 74

Which tool is used for documenting progress, managing tasks, and supporting quality gates throughout the RISE with SAP implementation phases?

- A. SAP Cloud ALM
- B. SAP Build Apps
- C. SAP Signavio Process Insights
- D. SAP Enable Now

Answer: A

NEW QUESTION # 75

Which accelerators support the fit-to-standard workshop in the Explore phase? Note: There are 2 correct answers to this question.

- A. Quality gate checklist and quality gate guide
- B. Business-Driven Configuration questionnaire
- C. Requirements feature in SAP Cloud ALM
- D. Test plan document

Answer: A,B

NEW QUESTION # 76
