It will calm down their nerves so they can appear in the ServiceNow CIS-SPM final test without anxiety or fear.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q85-Q90):

NEW QUESTION # 85

Which of the following can be used to calculate planned cost when creating a resource plan?

Choose 2 answers

- A. Default rate
- B. Project rate
- C. Rate card
- D. Demand rate

Answer: B,C

Explanation:

Explanation

According to the ServiceNow documentation¹, a rate card is a table that defines the hourly cost of labor for different roles or resources. A project rate is a fixed rate that is applied to all resources assigned to a project, regardless of their roles or individual rates. Both of these can be used to calculate the planned cost of a resource plan by multiplying the hours allocated to each resource by the corresponding rate. The other options are incorrect because:

A: Demand rate: A demand rate is a rate that is applied to a demand, not a resource plan. It is used to estimate the cost of fulfilling a demand before it is converted into a project².

C: Default rate: A default rate is a rate that is applied to a resource when no other rate is specified. It is not a valid option for calculating the planned cost of a resource plan, as it is only used as a fallback option³.

NEW QUESTION # 86

The Business Unit field on a Project or Demand form displays values from a specific table. What type of field is this?

- A. List.
- B. Journal.
- C. Conditions.
- D. Reference.

Answer: D

Explanation:

According to the ServiceNow documentation¹, the Business Unit field on a Project or Demand form is a reference field that displays values from the cmn_department table. A reference field stores a link to a record on another table, rather than storing the data directly in the field².

NEW QUESTION # 87

What are the characteristics of the default Resource Management schedule?

Choose 3 answers

- A. Weekly on Weekdays
- B. Monday through Friday 13:00-17:00
- C. Repeats every week on Saturday
- D. Monday through Friday 08:00-12:00
- E. 8-5 weekdays excluding holidays

Answer: A,B,D

NEW QUESTION # 88

In which table can you find cost information for a specific fiscal period?

- A. expense_line
- B. cost_plan_breakdown
- C. pm_project
- D. cost_plan

Answer: B

Explanation:

According to the ServiceNow documentation¹, the cost_plan_breakdown table stores the cost information for a specific fiscal period. This table contains the fields such as cost plan, fiscal period, amount, and currency. The other options are incorrect because:

B . pm_project: The pm_project table stores the information about projects, such as name, description, state, and status².

C . cost_plan: The cost_plan table stores the information about cost plans, such as name, type, and project³.

D . expense_line: The expense_line table stores the information about expense lines, such as expense type, amount, and date⁴.
