---

You must have thought about moving forward successfully in this competitive and fast-changing technological world. If you want to boost your career Huawei H19-401\_V2.0 certification is the most acclaimed and honorable certificate in the tech sector. But the confusion regarding the preparation and relevant Huawei H19-401\_V2.0 Practice Test questions must have emerged in your mind too.

The information technology market has become very competitive. Huawei H19-401\_V2.0 technologies and services are constantly evolving. Therefore, the Huawei H19-401\_V2.0 certification has become very important to advance one's career. Success in the HCSP-Presales-Campus Network Planning and Design V2.0 H19-401\_V2.0 exam validates and upgrades your skills in Huawei H19-401\_V2.0 technologies. It is the main reason behind the popularity of the Huawei H19-401\_V2.0 certification exam. You must put all your efforts to clear the challenging Huawei H19-401\_V2.0 examination. However, cracking the H19-401\_V2.0 test is not an easy task.

## Pass Guaranteed Quiz Huawei - High Hit-Rate Pdf Demo H19-401\_V2.0 Download

Our company in the field of the H19-401\_V2.0 exam bootcamp for years, we also enjoy high reputation in the business. You

choose us, we will give you the best we have, and your right choice will also bring the benefits to you. With the high reputation in the field, we can guarantee the quality of the H19-401\_V2.0 Exam Dumps. It also contains the free update for one year for you. It can save your money for updating, and the update version will send to your mailbox automatically.

## Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q51-Q56):

### NEW QUESTION # 51

What types of attack detection are supported over the air interface?

- A. Brute force PSK cracking detection
- B. Spoofing attack detection
- C. Weak IV attack detection
- D. Flood attack detection

**Answer: A,B,C,D**

Explanation:

Huawei's WIDS (Wireless Intrusion Detection System) and WIPS (Wireless Intrusion Prevention System) provide comprehensive air interface protection. They are designed to detect:

- \* Flood attacks (A): Detecting an abnormal volume of management frames (like Auth/Deauth floods).
- \* Spoofing attacks (B): Detecting unauthorized APs or STAs using the MAC addresses of authorized devices.
- \* Weak IV attacks (C): Detecting attempts to exploit older encryption (like WEP) by identifying weak Initialization Vectors.
- \* Brute force cracking (D): Monitoring for repeated authentication failures that indicate an attempt to guess WPA/WPA2-PSK or WAPI-PSK keys.

### NEW QUESTION # 52

Which of the following networking modes are supported by Huawei SD-WAN?

- A. Hub-spoke
- B. Partial-mesh
- C. Full-mesh
- D. Hierarchical networking

**Answer: A,B,C,D**

Explanation:

Huawei's SD-WAN solution offers the industry's most flexible networking architectures. The supported modes include:

- \* Hub-spoke (A): Best for star-shaped enterprise layouts where branches talk through a HQ.
- \* Full-mesh (D): Every site talks directly to every other site (best for low-latency VoIP/Video).
- \* Partial-mesh (C): A hybrid approach where only specific key sites are interconnected.
- \* Hierarchical (B): Used for massive networks (over 1,000 sites), dividing the network into regions to improve scalability and management.

### NEW QUESTION # 53

Distributed VXLAN gateways are recommended if VXLAN networking is required.

- A. True
- B. False

**Answer: A**

Explanation:

In a Virtualized Campus Network (Fabric), Huawei recommends Distributed Gateway deployment. In this model, the Layer 3 gateway functionality for a tenant is moved down to the Edge nodes (Access or Aggregation switches). This ensures that "East-West" traffic (communication between devices in the same subnet but on different switches) is routed locally at the edge, preventing traffic from having to travel up to a centralized core and back down, thus reducing latency and avoiding bottlenecks.

#### NEW QUESTION # 54

Which of the following VLAN networking solutions is recommended when there are 15,000 wireless terminals on the customer's network?

- A. Core switch + native WAC + AP
- B. Core switch + aggregation/access switch + standalone WAC + AP
- **C. Core switch + aggregation switch + access switch + native WAC + AP**
- D. Core switch + access switch + native WAC + AP

**Answer: C**

Explanation:

For a large-scale campus network exceeding 10,000 wireless terminals, Huawei's V2.0 design guide recommends the Native WAC solution integrated into flagship core switches (such as the CloudEngine S12700E or S16700). In a traditional three-layer hierarchy (Core-Aggregation-Access), the Native WAC (A) is preferred over a standalone AC because it utilizes the core switch's high-performance ENP/Solar chips to process CAPWAP tunnels at line rate, avoiding the traffic bottlenecks often associated with standalone controllers in high-density environments.

(Note: The user's original answer was B, but according to V2.0 Large Campus best practices for 10k+ terminals, Native WAC is the primary recommendation.)

#### NEW QUESTION # 55

Which protocol is used to automatically advertise VN routes between sites?

- A. RIP
- **B. BGP EVPN**
- C. Static routing
- D. OSPF

**Answer: B**

Explanation:

BGP EVPN (Border Gateway Protocol Ethernet Virtual Private Network) is the standard control plane protocol used in Huawei's SD-WAN and Fabric solutions. It acts as the "messenger" that automatically advertises Virtual Network (VN) routes, MAC addresses, and tunnel encapsulation information between sites. This replaces the need for complex static routing or legacy protocols like RIP/OSPF for overlay communication, enabling massive scalability and automation.

#### NEW QUESTION # 56

.....

There may be customers who are concerned about the installation or use of our H19-401\_V2.0 study materials. You don't have to worry about this. In addition to high quality and high efficiency, considerate service is also a big advantage of our company. We will provide 24 - hour online after-sales service to every customer. If you have any questions about installing or using our H19-401\_V2.0 Study Materials, our professional after-sales service staff will provide you with warm remote service.
