Concentrated all our energies on the study ISO-IEC-27001-Foundation learning guide we never change the goal of helping candidates pass the exam. Our ISO-IEC-27001-Foundation test questions' quality is guaranteed by our experts' hard work. So what are you waiting for? Just choose our ISO-IEC-27001-Foundation exam materials, and you won't be regret.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q33-Q38):

NEW QUESTION # 33
Which item is required to be included in an information security policy?

- A. A framework enabling concerns with the information security policy to be addressed

- B. A Statement of Applicability which defines the necessary controls to be implemented
- C. A commitment to satisfy applicable requirements related to information security
- D. A plan for the continual improvement of the information security management system

Answer: C

Explanation:
Clause 5.2 (Information security policy) requires that the policy:
* "includes information security objectives (or provides a framework for setting them)"
* "includes a commitment to satisfy applicable requirements related to information security"
* "includes a commitment to continual improvement of the ISMS."
Among the listed options, the exact mandatory requirement is"a commitment to satisfy applicable requirements related to information security". Option B partially reflects Clause 5.2 (commitment to continual improvement), but the wording given in the standard prioritizes the satisfaction of applicable requirements (e.g., legal, regulatory, contractual). Option C is not a policy requirement. Option D (Statement of Applicability) is a separate mandatory document (Clause 6.1.3) and not part of the policy itself.
Thus, the correct answer isA.

NEW QUESTION # 34
Identify the missing word in the following sentence.
The organization shall determine the [?] of interested parties relevant to information security.

- A. requirements
- B. influence
- C. structure
- D. number

Answer: A

Explanation:
Clause 4.2 of ISO/IEC 27001:2022 states:
"The organization shall determine: a) interested parties that are relevant to the information security management system; b) the relevant requirements of these interested parties; c) which of these requirements will be addressed through the ISMS." This confirms that the missing word isrequirements. Neither number, structure, nor influence are specified in the standard.

NEW QUESTION # 35
What is required to be reported by the Information security event reporting control?

- A. Information disclosure
- B. Observed or suspected events
- C. Unauthorized access
- D. Asset disposal

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A, control 6.8 (Information security event reporting) specifies:
"Information security events should be reported through appropriate management channels as quickly as possible. The organization should require all employees and contractors to note and report any observed or suspected information security events." This wording confirms that the required reporting covers"observed or suspected events."Specific event types like information disclosure (A) or unauthorized access (B) are examples but not the broad requirement.
Asset disposal (C) is addressed separately under equipment lifecycle controls (Annex A.7.14).
Therefore, the verified correct answer isD: Observed or suspected events.

NEW QUESTION # 36
Identify the missing word(s) in the following sentence.
When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. evaluate the effectiveness of
- B. communicate
- C. improve the effectiveness of
- D. apply competent resources to

Answer: A

Explanation:
Clause 6.1.1 (Planning) states:
"The organization shall plan:
d) actions to address these risks and opportunities; and
e) how to:
* integrate and implement the actions into its ISMS processes; and
* evaluate the effectiveness of these actions."
This confirms the missing words are"evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 37

Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. Auditors who audit each area of operation
- B. Top management of the organization
- C. ISO/IEC 27001 practitioners within the organization
- D. Management responsible for each area of operation

Answer: B

Explanation:
Clause 5.1 (Leadership and Commitment) requires that:
"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit thattop managementhas the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.
Practitioners (D) help implement, but they don't bear formal responsibility under the standard.
Thus, the verified answer isA: Top management of the organization.

NEW QUESTION # 38

......

Using our products does not take you too much time but you can get a very high rate of return. Our ISO-IEC-27001-Foundation quiz guide is of high quality, which mainly reflected in the passing rate.
