

CCAAK Free Sample, Latest CCAAK Dumps Ebook

P.S. Free & New CCAAK dumps are available on Google Drive shared by Itcertkey: <https://drive.google.com/open?id=1SejynwzSYfUD96PXum7wXZdLJZWUrvjk>

Our accurate, reliable, and top-ranked Confluent CCAAK exam questions will help you qualify for your Confluent CCAAK certification on the first try. Do not hesitate and check out excellent Confluent CCAAK Practice Exam to stand out from the rest of the others.

Confluent CCAAK Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Observability: This section of the exam measures skills of a Site Reliability Engineer and focuses on monitoring Kafka clusters. It assesses knowledge of metrics, logging, and alerting tools, including how to use them to maintain cluster health and performance visibility.
Topic 2	<ul style="list-style-type: none">• Apache Kafka® Security: This section of the exam measures skills of a Site Reliability Engineer and focuses on securing Kafka environments. It includes authentication mechanisms such as TLS and SASL, authorization using ACLs, and encrypting data at rest and in transit to ensure secure communication and access control.
Topic 3	<ul style="list-style-type: none">• Troubleshooting: This section of the exam measures skills of a Kafka Administrator and includes diagnosing common issues in Kafka clusters. It covers problem areas such as performance bottlenecks, message delivery failures, replication issues, and consumer lag, along with techniques to resolve them effectively.
Topic 4	<ul style="list-style-type: none">• Kafka Connect: This section of the exam measures skills of a Site Reliability Engineer and addresses the use and management of Kafka Connect for data integration. It includes setting up connectors, managing configurations, and ensuring efficient movement of data between Kafka and external systems.

Latest CCAAK Dumps Ebook & Reliable CCAAK Test Questions

When you decide to buy Itcertkey actual Confluent CCAAK exam dumps, you automatically boost your chances of Confluent Certified Administrator for Apache Kafka CCAAK exam success. In Confluent CCAAK exam product, you can encounter Confluent CCAAK exam questions that are present in the Confluent CCAAK certification exam. This helps you memorize actual CCAAK exam questions beforehand and clear the CCAAK Certification test on the first attempt. We offer CCAAK real questions in Confluent CCAAK PDF questions files, CCAAK desktop practice test software, and web-based practice exam. Read on to learn more about the top features of our Confluent Certified Administrator for Apache Kafka CCAAK PDF dumps file, desktop Confluent CCAAK practice exam software, and a web-based CCAAK practice test.

Confluent Certified Administrator for Apache Kafka Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which tool is used for scalably and reliably streaming data between Kafka and other data systems?

- A. Kafka Schema Registry
- **B. Kafka Connect**
- C. Kafka Streams
- D. Kafka REST Proxy

Answer: B

Explanation:

Kafka Connect is the tool designed for scalable and reliable integration between Kafka and external data systems (e.g., databases, cloud storage, key-value stores). It supports source connectors (to pull data into Kafka) and sink connectors (to push data from Kafka).

NEW QUESTION # 12

Per customer business requirements, a system's high availability is more important than message reliability. Which of the following should be set?

- A. Message retention.ms should be set to -1.
- B. The linger.ms should be set to '0'.
- **C. Unclean leader election should be enabled.**
- D. The number of brokers in the cluster should be always odd (3, 5, 7 and so on).

Answer: C

Explanation:

Enabling unclean leader election allows Kafka to elect a non-in-sync replica as leader if all in-sync replicas are unavailable. This sacrifices message reliability (possible data loss) in favor of high availability, aligning with the requirement.

NEW QUESTION # 13

What does Kafka replication factor provide? (Choose two.)

- **A. Availability**
- B. Performance
- **C. Durability**
- D. Security

Answer: A,C

Explanation:

Replication ensures that multiple copies of data exist across different brokers, so data is not lost if one broker fails.

With multiple replicas, Kafka can continue to serve data even if the leader or one replica fails, maintaining service availability.

NEW QUESTION # 14

A company is setting up a log ingestion use case where they will consume logs from numerous systems. The company wants to tune Kafka for the utmost throughput.

In this scenario, what acknowledgment setting makes the most sense?

- A. acks=1
- B. acks=undefined
- C. acks=0
- D. acks=all

Answer: C

Explanation:

acks=0 provides the highest throughput because the producer does not wait for any acknowledgment from the broker. This minimizes latency and maximizes performance.

However, it comes at the cost of no durability guarantees - messages may be lost if the broker fails before writing them. This setting is suitable when throughput is critical and occasional data loss is acceptable, such as in some log ingestion use cases where logs are also stored elsewhere.

NEW QUESTION # 15

Which secure communication is supported between the REST proxy and REST clients?

- A. Kerberos
- B. MD5
- C. TLS (HTTPS)
- D. SCRAM

Answer: C

NEW QUESTION # 16

.....

The CCAAK test material is reasonable arrangement each time the user study time, as far as possible let users avoid using our latest CCAAK exam torrent for a long period of time, it can better let the user attention relatively concentrated time efficient learning. The CCAAK practice materials in every time users need to master the knowledge, as long as the user can complete the learning task in this period, the CCAAK test material will automatically quit learning system, to alert users to take a break, get ready for the next period of study.
