Oracle N16302GC10 Exam Syllabus Topics:

Topic	Details
Topic 1	• Design to Build: This section of the exam measures the skills of Inventory Control Managers and focuses on product and inventory management within NetSuite. It includes identifying appropriate item types, managing assemblies, pricing, and item costing. Candidates must understand how inventory transactions and settings affect costing and how to configure inventory management for optimal business performance.
Topic 2	• Record to Report: This section of the exam measures the skills of Financial Analysts and covers how to configure NetSuite features and preferences to meet client-specific reporting and accounting needs. It includes understanding the setup of the chart of accounts, segment usage, and best practices for period-end close. Candidates must know how journal entries, exchange rates, and tax configurations operate within NetSuite to maintain accurate financial reporting.
Topic 3	• Data Security: This section of the exam measures skills of Security Administrators and focuses on data access and permission management in NetSuite. It includes understanding the implications of user permissions, recommended practices for creating custom roles, and managing data manipulation in bulk. The emphasis is on protecting system integrity and controlling data visibility across users and departments.
Topic 4	• Data Strategy: This section of the exam measures the skills of Data Migration Specialists and covers managing data imports, exports, and transformations using CSV tools. It includes troubleshooting data import errors, applying saved mappings, and establishing strategies for historical data migration. Candidates must know how to organize and complete data migration successfully while ensuring data integrity.
