Utilizing Reliable ADA-C02 Dumps - No Worry About SnowPro Advanced Administrator ADA-C02

All these three ADA-C02 exam questions formats are easy to use and compatible with all devices, operating systems, and web browsers. Just choose the best ADA-C02 exam questions format and start Snowflake ADA-C02 exam preparation without wasting further time. As far as the price of SnowPro Advanced Administrator ADA-C02 exam practice test questions is concerned, these exam practice test questions are being offered at a discounted price. Get benefits from ADA-C02 Exam Questions at discounted prices and download them quickly. Best of luck in ADA-C02 exam and career!!!

Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q34-Q39):

NEW QUESTION # 34

A company has implemented Snowflake replication between two Snowflake accounts, both of which are running on a Snowflake Enterprise edition. The replication is for the database APP_DB containing only one schema, APP_SCHEMA. The company's time Travel retention policy is currently set for 30 days for both accounts. An Administrator has been asked to extend the time Travel retention policy to 60 days on the secondary database only.

How can this requirement be met?

- A. Set the data retention policy on the primary database to 60 days.
- B. Set the data retention policy on the secondary database to 60 days.
- C. Set the data retention policy on the primary database to 30 days and the schemas to 60 days.
- D. Set the data retention policy on the schemas in the secondary database to 60 days.

Answer: A

Explanation:

In Snowflake replication, Time Travel retention is determined by the primary database and is replicated to the secondary. The secondary cannot have a longer retention than the primary. To extend retention to 60 days on the secondary, the primary database's retention must be increased to 60 days.

NEW QUESTION # 35

What are characteristics of Dynamic Data Masking? (Choose two.)

- A. A masking policy that is currently set on a table can be dropped.
- B. The role that creates the masking policy will always see unmasked data in query results.
- C. A single masking policy can be applied to columns in different tables.
- D. A single masking policy can be applied to columns with different data types.
- E. A masking policy can be applied to the VALUE column of an external table.

Answer: A,C

Explanation:

A masking policy applied to a table or column can be dropped or replaced as needed. The same masking policy can be reused and applied to columns in different tables.

NEW QUESTION # 36

What role or roles should be used to properly create the object required to setup OAuth 2.0 integration?

- A. ACCOUNTADMIN and SECURITYADMIN
- B. ACCOUNTADMIN only
- C. ACCOUNTADMIN and SYSADMIN
- D. Any role with GRANT USAGE on SECURITY INTEGRATION

Answer: A

Explanation:

Creating an OAuth 2.0 security integration requires elevated security privileges. Snowflake requires either the ACCOUNTADMIN role or the SECURITYADMIN role to properly create and manage the security integration object.

NEW QUESTION # 37

What session parameter can be used to test the integrity of secure views based on the account that is accessing that view?

- A. TEST ACCOUNT ID
- B. MIMIC CONSUMER ACCOUNT
- C. PRODUCER TEST ACCT
- D. SIMULATED DATA SHARING CONSUMER

Answer: B

Explanation:

The session parameter MIMIC_CONSUMER_ACCOUNT allows a data provider to test how secure views will appear to a specific consumer account. This ensures the integrity and correctness of secure views before they are shared.

NEW QUESTION # 38

What access control policy will be put into place when future grants are assigned to both database and schema objects?

- A. Schema privileges will take precedence over database privileges.
- B. An access policy combining both the database object and the schema object will be used, with the most permissive policy taking precedence.
- C. Database, privileges will take precedence over schema privileges.
- D. An access policy combining both the database object and the schema object will be used, with the most restrictive policy taking precedence.

Answer: A

Explanation:

When future grants are set at both the database and schema levels, schema-level future grants take precedence over database-level grants for objects created within that schema.

NEW QUESTION # 39

.....

In a rapidly growing world, it is immensely necessary to tag your potential with the best certifications, such as the ADA-C02 certification.
