CCE Global Counselor Preparation Comprehensive Examination (CPCE) Sample Questions (Q88-Q93):

NEW QUESTION # 88

Which of the following is ethical behavior for a professional counselor?

- A. advertising discount group counseling services
- **B. deidentifying research data to ensure client anonymity**
- C. encouraging pregnant clients not to have abortions

Answer: B

Explanation:

Deidentifying research data to ensure client anonymity is an ethical standard in research and counseling practice. It protects client

confidentiality and complies with legal and ethical guidelines. Advertising discount services may raise ethical issues related to solicitation, and directing a client's reproductive choices violates client autonomy and ethical codes.

NEW QUESTION # 89

A client was challenged by a counselor for not acknowledging that the client's child's behavior problems were influenced by the client's own behavior. The client responded, "You don't have any children, so how can you know how hard it can be when they act up?" Which form of resistance listed below describes how the client reacted to the counselor's challenge?

- A. disengaging from the counselor
- **B. deflecting and avoiding the issue**
- C. devaluing the issue raised by the counselor

Answer: B

Explanation:

In this scenario, the client is deflecting and avoiding the issue raised by the counselor. Rather than addressing the counselor's observation about the connection between their own behavior and their child's problems, the client shifts the focus to the counselor's lack of parental experience. This is a classic example of deflection and avoidance, both common forms of resistance in counseling.

NEW QUESTION # 90

In Tuckman's model of group development, which stage involves conflict and power struggles?

- A. Norming
- B. Forming
- **C. Storming**

Answer: C

Explanation:

The Storming stage is characterized by conflict, competition, and struggles for power as group members assert their ideas. This is a critical phase where members test boundaries and roles before moving towards cohesion.

Awareness of this stage helps group counselors facilitate healthy group dynamics.

NEW QUESTION # 91

What is an example of advocating on behalf of the counseling profession?

- A. providing pro bono counseling services at a small organization
- B. practicing cultural competence when meeting with clients
- **C. attending a state-level professional counseling conference**

Answer: C

Explanation:

Attending a state-level professional counseling conference is an example of professional advocacy. Such participation allows counselors to stay informed about legislation, professional issues, and advancements in the field, and to contribute to the development of the profession. Professional advocacy also includes lobbying for the profession, involvement in professional organizations, and participating in policy-making that affects counselors and clients.

Reference: Helwig, A. A. (2020). CPCE Study Guide and Review; American Counseling Association (ACA) Code of Ethics (2014).

NEW QUESTION # 92

Accreditation of counselor preparation programs is important to ensure

- A. that counselor trainees receive the best possible education.
- B. that credentialed counselors are competent to practice.
- **C. consistency in counselor training across the country.**

Answer: C

Explanation:

Accreditation ensures that counselor preparation programs adhere to nationally recognized standards, which provides consistency in training across the country. This consistency helps guarantee that all graduates meet baseline competencies, regardless of the institution attended. While competency and quality education are also important outcomes, the central purpose of accreditation is to standardize and assure consistency in the education and training of counselors.
