## C\_S4CPB\_2508 Pass4sure Exam Prep

It is easy for you to pass the C\_S4CPB\_2508 exam because you only need 20-30 hours to learn and prepare for the exam. You may worry there is little time for you to learn the C\_S4CPB\_2508 study tool and prepare the exam because you have spent your main time and energy on your most important thing such as the job and the learning and can't spare too much time to learn. But if you buy our C\_S4CPB\_2508 Test Torrent you only need 1-2 hours to learn and prepare the C\_S4CPB\_2508 exam and focus your main attention on your most important thing.

### SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q29-Q34):

#### NEW QUESTION # 29

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Defect document created through an industry application
- B. An unattended bot in SAP Build Process Automation
- C. A Time Sheet Record from a 3rd party application
- D. A Production Order created through a non-SAP front-end

**Answer: C,D**

#### NEW QUESTION # 30

Where can you find packaged integration content if there is no SAP Best Practices content available?

- A. SAP BTP Cockpit
- B. SAP Extensibility Explorer
- C. SAP Fiori Apps Reference Library
- D. SAP Business Accelerator Hub

**Answer: D**

Explanation:

If there is no SAP Best Practices content available for a specific integration scenario, you can find packaged integration content in the SAP Business Accelerator Hub. The SAP Business Accelerator Hub is a central repository of integration content for SAP and non-SAP applications, such as APIs, events, integration flows, and adapters. You can browse, discover, and download the integration content that suits your needs and import it into your SAP Integration Suite tenant. You can also use the SAP Business Accelerator Hub to request new integration content or provide feedback on existing content. References = Setting Up Integrations in SAP S/4HANA Cloud Public Edition, SAP Business Accelerator Hub

#### NEW QUESTION # 31

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad.

What can the user do?

- A. Use the search function to find the app.
- B. Create a page and assign it to the launchpad space.
- C. Assign a launchpad space to the business role.
- D. Assign a different business role that provides access.

**Answer: A**

#### NEW QUESTION # 32

Which tasks are mandatory before you can migrate data for a specific object? Note: There are 2 correct answers to this question.

- A. All previous migration projects are in the "Finished" status
- B. You select the same migration method previously used for other objects
- C. Predecessor objects have been migrated

- D. Permission to migrate the data has been assigned

**Answer: C,D**

Explanation:

Before you can migrate data for a specific object, you need to ensure that the following tasks are completed:

\* Predecessor objects have been migrated: Some migration objects depend on other migration objects that need to be migrated first. For example, before you can migrate sales orders, you need to migrate customers, products, and pricing conditions. You can check the dependencies of migration objects in the Migration Cockpit or in the Migration Object Modeler<sup>12</sup>.

\* Permission to migrate the data has been assigned: In addition to having permission to access the Migrate Your Data app, you need permission to migrate each type of data. This is because the Migration Cockpit tool uses the same APIs and technical checks that would be done if you were to create a new data value through the respective application. For example, if you need to create a new bank record in your system, you would use the application, Manage Banks - Master Data. The app would present you with several fields capturing information about the new bank to create the record in your system. Now if you need to create 1,000 banks, it wouldn't be feasible to create each through the Manage Banks - Master Data app one-by-one. Therefore, you need to have the permission to use the Manage Banks - Master Data app in order to migrate bank data using the Migration Cockpit<sup>3</sup>.

The other tasks are not mandatory before you can migrate data for a specific object. You can select different migration methods for different objects, depending on your source system and data format. You can also have multiple migration projects in progress at the same time, as long as they do not contain the same migration objects<sup>4</sup>. References = Migration Object Modeler, Migrating Data with the SAP S/4HANA Migration Cockpit, SAP S/4 HANA Data Migration Cockpit: Migrate Your Data App Guide, Migrating Data to SAP S

/4HANA Cloud, Public Edition

### NEW QUESTION # 33

When do you specify the data retention period in the SAP S/4HANA Migration Cockpit??

- A. When the project status is "Finished"
- B. When the project status is "Completed"
- C. When the project status is "In Progress"
- D. When the project status is "Not Started"

**Answer: A**

### NEW QUESTION # 34

.....

Dumps4PDF is a website to provide SAP certification exam training tool for people who attend SAP certification exam examinee.
