- A. ISO 31000
- B. ISO 27032
- C. ISO 27005
- D. ISO 27001

Answer: A

Explanation:

ISO 31000 provides principles and guidelines to do Enterprise Risk Management.

NEW QUESTION # 290

What is the primary function of Data Encryption Keys (DEK) in cloud security?

- A. To increase the speed of cloud services
- B. To serve as the primary key for all cloud resources
- C. To encrypt application data
- D. To directly manage user access control

Answer: C

Explanation:

The primary function of Data Encryption Keys (DEK) in cloud security is to encrypt application data. DEKs are used to encrypt and decrypt specific data objects, such as files or database records, ensuring data confidentiality in cloud environments.

From the CCSK v5.0 Study Guide, Domain 10 (Data Security and Encryption), Section 10.3:

"Data Encryption Keys (DEKs) are used to encrypt and decrypt application data in cloud environments. DEKs are typically

managed by key management services and applied to specific data objects to ensure confidentiality and protect against unauthorized access." Option B (To encrypt application data) is the correct answer.

Option A (Increase speed) is incorrect because encryption does not enhance performance.

Option C (Manage user access control) is incorrect because DEKs are for encryption, not access control.

Option D (Primary key for all resources) is incorrect because DEKs are specific to data encryption, not resource management.

NEW QUESTION # 291

How does artificial intelligence pose both opportunities and risks in cloud security?

- A. AI enhances security without any adverse implications
- B. AI mainly reduces manual work with no significant security impacts
- C. AI is only beneficial in data management, not security
- **D. AI enhances detection mechanisms but could be exploited for sophisticated attacks**

Answer: D

Explanation:

While AI improves threat detection, it also introduces risks as attackers can use it to develop advanced attack methods.

Organizations must balance these risks. Reference: [CCSK Study Guide, Domain 12 - AI and Security]
