- A. File
- B. Text
- C. JavaScript
- D. Document template
- E. Yes / No checkbox

Answer: A,B,E

NEW QUESTION # 58
Why does extracted data typically need to be transformed? Note: There are 2 correct answe rs to this questio n.

- A. To visualize dependencies between cases
- B. To create an event log and case attributes table
- C. To create additional tables to join to the event log and case attributes table
- D. To standardize and make uniform the extracted data

Answer: B,D

NEW QUESTION # 59
How can a user collaborate in the Collaboration Hub?

- A. By exporting the processes to share
- B. By commenting on a diagram
- C. By creating a support ticket
- D. By taking a screenshot of the process

Answer: B

NEW QUESTION # 60
What are the goals of Business Process Management? Note: There are 3 correct answers to this question.

- A. To share processes
- B. To document processes
- C. To monitor and control processes
- D. To measure processes
- E. To save processes

Answer: B,C,D

Explanation:
Business Process Management (BPM) aims to systematically manage and optimize organizational processes.
The SAP Signavio Process Transformation Suite Documentation defines the goals:
* Exact Extract:"The goals of Business Process Management include:
* To Document Processes: Creating clear, standardized process models for understanding and communication.

* To Measure Processes: Analyzing process performance through metrics like cycle time or cost.
* To Monitor and Control Processes: Ensuring processes operate as intended and addressing deviations through governance and analytics." (SAP Signavio Process Transformation Suite Overview, section on "BPM Objectives").
* Explanation:
* Option B (To document processes):Documentation is a core BPM goal, creating models (e.g., BPMN diagrams in SAP Signavio Process Manager) to capture process details for reference and improvement.
* Option C (To measure processes):Measuring performance through KPIs, supported by SAP Signavio Process Intelligence, enables organizations to assess efficiency and identify optimization opportunities.
* Option D (To monitor and control processes):BPM involves ongoing monitoring (e.g., via the Collaboration Hub) and control (e.g., via Process Governance workflows) to ensure processes align with business objectives.
* Option A (To share processes)is incorrect as sharing is a means to achieve BPM goals (e.g., via the Collaboration Hub), not a goal itself.
* Option E (To save processes)is incorrect because "saving" is a technical action, not a strategic BPM objective.
Reference:SAP Signavio Process Transformation Suite Overview, section on "BPM Objectives"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 2: Process Management Objectives.

NEW QUESTION # 61

What elements are part of the official BPMN 2.0 notation?Note: There are 2 correct answ-ers to this que-stion.

- A. Pool
- B. Lane
- C. Additional Participant
- D. Stakeholders

Answer: A,B

NEW QUESTION # 62

......

Standing out among all competitors and taking the top spot is difficult but we made it by our C_SIGDA_2403 preparation materials. They are honored for their outstanding quality and accuracy so they are prestigious products. Our C_SIGDA_2403 exam questions beat other highly competitive companies on a global scale. They provide a high pass rate for our customers as 98% to 100% as a pass guarantee. And as long as you follow with the C_SIGDA_2403 Study Guide with 20 to 30 hours, you will be ready to pass the exam.
