

No Internet? No Problem! Prepare For Microsoft AZ-305 Exam Offline

BONUS!!! Download part of TestkingPDF AZ-305 dumps for free: https://drive.google.com/open?id=1_t3v7D41sR8qQ3GVXVStlLjyg7GI0I2Q

After you purchase AZ-305 exam questions, you should always pay attention to your email address. Once there is a new version, we will send updated information to your email address. As we all know, the authority of a product matches its hit rate. How high the authority of AZ-305 Real Exam is, I don't need to say any more. You just know what you will know. You can't really find a product that has a higher hit rate than our AZ-305 study materials!

We develop many reliable customers with our high quality AZ-305 prep guide. When they need the similar exam materials and they place the second even the third order because they are inclining to our AZ-305 study braindumps in preference to almost any other. Compared with those uninformed exam candidates who do not have effective preparing guide like our AZ-305 study braindumps, you have already won than them. Among wide array of choices, our products are absolutely perfect. Besides, from economic perspective, our AZ-305 Real Questions are priced reasonably so we made a balance between delivering satisfaction to customers and doing our own jobs. So in this critical moment, our AZ-305 prep guide will make you satisfied.

AZ-305 Excellect Pass Rate | AZ-305 Valid Test Pdf

Are you planning to crack the Microsoft AZ-305 certification test but don't know where to get updated and actual Microsoft AZ-305 exam dumps to get success on the first try? If you are, then you are on the right platform. TestkingPDF has come up with Real AZ-305 Questions that are according to the current content of the AZ-305 exam.

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q254-Q259):

NEW QUESTION # 254

You need to recommend a notification solution for the IT Support distribution group. What should you include in the recommendation?

- A. an action group
- B. Azure AD Connect Health
- C. Azure Network Watcher
- D. a SendGrid account with advanced reporting

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/hybrid/how-to-connect-health-operations> This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be

additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

Topic 3, Contoso

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Existing Environment: Technical Environment

The on-premises network contains a single Active Directory domain named contoso.com.

Contoso has a single Azure subscription.

Existing Environment: Business Partnerships

Contoso has a business partnership with Fabrikam, Inc. Fabrikam users access some Contoso applications over the internet by using Azure Active Directory (Azure AD) guest accounts.

Requirements: Planned Changes

Contoso plans to deploy two applications named App1 and App2 to Azure.

Requirements: App1

App1 will be a Python web app hosted in Azure App Service that requires a Linux runtime. Users from Contoso and Fabrikam will access App1.

App1 will access several services that require third-party credentials and access strings. The credentials and access strings are stored in Azure Key Vault.

App1 will have six instances: three in the East US Azure region and three in the West Europe Azure region.

App1 has the following data requirements:

Each instance will write data to a data store in the same availability zone as the instance.

Data written by any App1 instance must be visible to all App1 instances.

App1 will only be accessible from the internet. App1 has the following connection requirements:

Connections to App1 must pass through a web application firewall (WAF).

Connections to App1 must be active-active load balanced between instances.

All connections to App1 from North America must be directed to the East US region. All other connections must be directed to the West Europe region.

Every hour, you will run a maintenance task by invoking a PowerShell script that copies files from all the App1 instances. The PowerShell script will run from a central location.

Requirements: App2

App2 will be a NET app hosted in App Service that requires a Windows runtime. App2 has the following file storage requirements:

Save files to an Azure Storage account.

Replicate files to an on-premises location.

Ensure that on-premises clients can read the files over the LAN by using the SMB protocol.

You need to monitor App2 to analyze how long it takes to perform different transactions within the application. The solution must not require changes to the application code.

Application Development Requirements

Application developers will constantly develop new versions of App1 and App2. The development process must meet the following requirements:

A staging instance of a new application version must be deployed to the application host before the new version is used in production.

After testing the new version, the staging version of the application will replace the production version.

The switch to the new application version from staging to production must occur without any downtime of the application.

Identity Requirements

Contoso identifies the following requirements for managing Fabrikam access to resources:

Every month, an account manager at Fabrikam must review which Fabrikam users have access permissions to App1. Accounts that no longer need permissions must be removed as guests.

The solution must minimize development effort.

Security Requirement

All secrets used by Azure services must be stored in Azure Key Vault.

Services that require credentials must have the credentials tied to the service instance. The credentials must NOT be shared between services.

NEW QUESTION # 255

You need to deploy an instance of SQL Server on Azure Virtual Machines. The solution must meet the following requirements:

- * Support 15,000 disk IOPS.
- * Support SR-IOV.
- * Minimize costs.

What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE:

Each correct selection is worth one point.

Answer Area

Answer:

Explanation:

Explanation

NEW QUESTION # 256

You have an on-premises datacenter named Site1. Site1 contains a VMware vSphere cluster named Cluster1 that hosts 100 virtual machines. Cluster1 is managed by using VMware vCenter.

You have an Azure subscription named Sub1.

You plan to migrate the virtual machines from Cluster1 to Sub1.

You need to identify which resources are required to run the virtual machines in Azure. The solution must minimize administrative effort.

What should you configure? To answer, drag the appropriate resources to the correct targets. Each resource may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Resources

- An Azure Migrate appliance
- An Azure Migrate project
- An Azure VMware Solution private cloud
- An Azure VMware Solution host

Answer Area

Sub1: An Azure Migrate appliance

Cluster1: An Azure Migrate project

Explanation:

Resources

- An Azure Migrate appliance
- An Azure Migrate project
- An Azure VMware Solution private cloud
- An Azure VMware Solution host

Answer Area

Sub1: An Azure Migrate appliance

Cluster1: An Azure Migrate project

NEW QUESTION # 257

Drag and Drop Question

You have an Azure subscription.

You are designing a deployment plan for the Azure App Service web apps shown in the following table.

Name	Description
App1	Will contain a PostgreSQL database that was migrated from an on-premises server and will fail over automatically
App2	Will contain a new PostgreSQL database that has a write availability SLA of more than 99.995%

You need to recommend a database solution for the apps. The solution must meet the following requirements:

- Provide zone redundancy.
- Minimize costs and administrative effort.

What should you include in the recommendation for each app? To answer, drag the appropriate database types to the correct apps. Each database type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Database types

- Azure Cosmos DB for NoSQL and a multiple-region, single-region writes without availability zones SLA
- Azure Cosmos DB for NoSQL and a single-region writes with availability zones SLA
- Azure Cosmos DB for NoSQL and a single-region writes without availability zones SLA
- Azure Database for PostgreSQL flexible server in the burstable tier
- Azure Database for PostgreSQL flexible server in the general purpose tier
- Azure Database for PostgreSQL single server in the memory optimized tier

Answer Area

App1:

App2:

Answer:

Explanation:

Database types	Answer Area
Azure Cosmos DB for NoSQL and a multiple-region single-region writes without availability zones SLA	App1: Azure Database for PostgreSQL flexible server in the general purpose tier
Azure Cosmos DB for NoSQL and a single-region writes without availability zones SLA	App2: Azure Cosmos DB for NoSQL and a single-region writes with availability zones SLA
Azure Database for PostgreSQL flexible server in the burstable tier	
Azure Database for PostgreSQL single server in the memory optimized tier	

Explanation:

Box 1: Azure Database for PostgreSQL flexible server in the general purpose tier.

Will contain a PostgreSQL database that was migrated from an on-premises server and will fail over automatically.

Box 2: Azure Cosmos DB for NoSQL and single-region writes with availability zones SLA Will contain a PostgreSQL database that has write availability SLA of more than 99.995%.

For single-region writes in Azure Cosmos DB for NoSQL with availability zones, it is 99.995% for writes, with a minimum of 1,000 RU/s and a potential for 1.25x RU/s for serverless.

Reference:

<https://learn.microsoft.com/en-us/azure/postgresql/flexible-server/overview>

<https://learn.microsoft.com/en-us/azure/reliability/reliability-postgresql-flexible-server>

NEW QUESTION # 258

You have 10 on-premises servers that run Windows Server.

You need to perform daily backups of the servers to a Recovery Services vault. The solution must meet the following requirements:

- * Back up all the files and folders on the servers.
- * Maintain three copies of the backups in Azure.
- * Minimize costs.

What should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area
<p>On the servers:</p> <ul style="list-style-type: none"> The Microsoft Azure Recovery Services (MARS) agent The Azure Site Recovery Mobility service The Microsoft Azure Recovery Services (MARS) agent Volume Shadow Copy Service (VSS) <p>For the storage:</p> <ul style="list-style-type: none"> Geo-redundant storage (GRS) Geo-redundant storage (GRS) Locally-redundant storage (LRS) Zone-redundant storage (ZRS)

Answer:

Explanation:

Answer Area

On the servers:

- The Microsoft Azure Recovery Services (MARS) agent
- The Azure Site Recovery Mobility service
- The Microsoft Azure Recovery Services (MARS) agent
- Volume Shadow Copy Service (VSS)

For the storage:

- Geo-redundant storage (GRS)
- Geo-redundant storage (GRS)
- Locally-redundant storage (LRS)
- Zone-redundant storage (ZRS)

Explanation:

Answer Area

On the servers:

For the storage:

NEW QUESTION # 259

.....

Our company TestkingPDF has been putting emphasis on the development and improvement of our AZ-305 test prep over ten year without archaic content at all. So we are bravely breaking the stereotype of similar content materials of the AZ-305 Exam, but add what the exam truly tests into our AZ-305 exam guide. So we have adamant attitude to offer help rather than perfunctory attitude. It will help you pass your AZ-305 exam in shortest time.

AZ-305 Excellect Pass Rate: <https://www.testkingpdf.com/AZ-305-testking-pdf-torrent.html>

Our AZ-305 prepare questions are suitable for people of any culture level, Microsoft AZ-305 Valid Braindumps Sheet To achieve that purpose, we always abide by promises of putting customers benefits on first place, Microsoft AZ-305 Valid Braindumps Sheet ITexamGuide is a website that provides the candidates with the most excellent IT exam questions and answers which are written by experience IT experts, The person who gets AZ-305 latest exam torrent show dedication and willingness to work hard, also can get more opportunities in job hunting.

Optimizing the Interconnect, I had seen tutorials online, and I knew lots of coders, Our AZ-305 prepare questions are suitable for people of any culture level.

To achieve that purpose, we always abide by AZ-305 promises of putting customers benefits on first place, ITexamGuide is a website that provides the candidates with the most AZ-305 Valid Test Pdf excellent IT exam questions and answers which are written by experience IT experts.

Valid AZ-305 vce files, AZ-305 dumps latest

The person who gets AZ-305 latest exam torrent show dedication and willingness to work hard, also can get more opportunities in job hunting. Meanwhile your reviewing process would be accelerated.
