FCP_FSM_AN-7.2 Practice Online & Authorized FCP_FSM_AN-7.2 Exam Dumps

Before you buy our FCP_FSM_AN-7.2 study questions you can have a free download and tryout and you can have an understanding of our product by visiting our pages of our product on the website. The pages of our FCP_FSM_AN-7.2 guide torrent provide the demo and you can understand part of our titles and the form of our software. On the pages of our FCP_FSM_AN-7.2 exam torrent you can see the version of the product, the updated time, the quantity of the questions and answers, the characteristics and merits of the product, the price of the product and the discounts. The pages also list the details and the guarantee of our FCP_FSM_AN-7.2 Exam Torrent, the methods to contact us, the evaluations of the past client on our product, the related exams and other information about our FCP_FSM_AN-7.2 guide torrent. So before your purchase you can have an understanding of our product and then decide whether to buy our FCP_FSM_AN-7.2 study questions or not.

Fortinet FCP_FSM_AN-7.2 Exam Syllabus Topics:

Topic	Details
Topic 1	• Incidents, notifications, and remediation: This section of the exam measures the skills of Incident Responders and encompasses the entire incident management lifecycle. This includes the skills required to manage and prioritize security incidents, configure policies for alert notifications, and set up automated remediation actions to contain and resolve threats.
Topic 2	• Rules and subpatterns: This section of the exam measures the skills of SOC Engineers and focuses on the construction and implementation of analytics rules. It involves identifying the different components that make up a rule, utilizing advanced features like subpatterns and aggregation, and practically configuring these rules within the FortiSIEM platform to detect security events.
Topic 3	• Analytics: This section of the exam measures the skills of Security Analysts and covers the foundational techniques for building and refining queries. It focuses on creating searches from events, applying grouping and aggregation methods, and performing various lookup operations, including CMDB and nested queries to effectively analyze and correlate data.
Topic 4	• Machine learning, UEBA, and ZTNA: This section of the exam measures the skills of Advanced Security Architects and covers the integration of modern security technologies. It involves performing configuration tasks for machine learning models, incorporating UEBA (User and Entity Behavior Analytics) data into rules and dashboards for enhanced threat detection, and understanding how to integrate ZTNA (Zero Trust Network Access) principles into security operations.

Fortinet FCP - FortiSIEM 7.2 Analyst Sample Questions (Q18-Q23):

NEW QUESTION # 18
Refer to the exhibit.

If you group the events by Reporting Device, Reporting IP, and Application Category, how many results will FortiSIEM display?

- A. Five
- B. Two
- C. Four
- D. One
- E. Six

Answer: A

Explanation:
Grouping by Reporting Device, Reporting IP, and Application Category yields five unique tuples: (FW01, 10.1.1.1, DB), (FW02, 10.1.1.2, WebApp), (FW01, 10.1.1.1, SSH), (FW03, 10.1.1.3, DB), and (FW04, 10.1.1.4, SSH).

NEW QUESTION # 19
Refer to the exhibit.

An analyst is troubleshooting the rule shown in the exhibit. It is not generating any incidents, but the filter parameters are generating events on the Analytics tab.
What is wrong with the rule conditions?

- A. The Group By attributes restricts which events are counted.
- B. The Event Type refers to a CMDB lookup and should be an Event lookup.
- C. The Destination Host Name value is not fully qualified.
- D. The Aggregate attribute is too restrictive.

Answer: A

Explanation:
The Group By attributes - Destination IP and User - cause the aggregation (COUNT(Source IP) >= 2) to apply within each unique combination of those groupings. This restricts the count calculation and can prevent the rule from triggering incidents, even if

matching events exist in the Analytics tab.

NEW QUESTION # 20

What can you use to send data to FortiSIEM for user and entity behavior analytics (UEBA)?

- A. FortiSIEM agent
- B. SNMP
- C. SSH
- D. FortiSIEM worker

Answer: A

Explanation:
The FortiSIEM agent can be used to send detailed endpoint data such as user activity and process behavior to FortiSIEM, which is essential for performing User and Entity Behavior Analytics (UEBA).

NEW QUESTION # 21

When configuring anomaly detection machine learning, in which step must you select the fields to analyze?

- A. Schedule
- B. Design
- C. Prepare Data
- D. Train

Answer: C

Explanation:
In the Prepare Data step of configuring anomaly detection in FortiSIEM, you must select the fields to analyze. This step defines the input features that the machine learning model will evaluate during training and detection.

NEW QUESTION # 22

Which analytics search can be used to apply a user and entity behavior analytics (UEBA) tag to an event for a failed login by the user JSmith?

- A. Username NOT END WITH jsmith
- B. User IS jsmith
- C. User = smith
- D. Username CONTAIN smit

Answer: B

Explanation:
The correct syntax to match an exact username in FortiSIEM analytics search is User IS jsmith. This ensures that the UEBA tag is applied only when the event is specifically tied to the user "jsmith", which is required for accurate behavioral analytics.

NEW QUESTION # 23

......

The FCP - FortiSIEM 7.2 Analyst FCP_FSM_AN-7.2 certification is a unique way to level up your knowledge and skills. With the FCP - FortiSIEM 7.2 Analyst FCP_FSM_AN-7.2 credential, you become eligible to get high-paying jobs in the constantly advancing tech sector. Success in the Fortinet FCP_FSM_AN-7.2 examination also boosts your skills to land promotions within your current organization. Are you looking for a simple and quick way to crack the Fortinet FCP_FSM_AN-7.2 examination? If you are, then rely on FCP_FSM_AN-7.2 Exam Dumps.
