

# Dynatrace-Associate Reliable Test Labs, Free Dynatrace-Associate Practice Exams

All of our considerate designs have a strong practicability. We are still researching on adding more useful buttons on our Dynatrace-Associate test answers. The aim of our design is to improve your learning and all of the functions of our products are completely real. Then the learning plan of the Dynatrace-Associate Exam Torrent can be arranged reasonably. You need to pay great attention to the questions that you make lots of mistakes. If you are interested in our products, click to purchase and all of the functions. Try to believe us and give our Dynatrace-Associate exam guides a chance to certify.

Failure in the Dynatrace Associate Certification Exam (Dynatrace-Associate) exam dumps wastes the money and time of applicants. If you are also planning to take the Dynatrace-Associate practice test and don't know where to get real Dynatrace-Associate exam questions, then you are at the right place. PrepAwayTest is offering the actual Dynatrace-Associate Questions that can help you get ready for the examination in a short time. These Dynatrace Dynatrace-Associate Practice Tests are collected by our team of experts. It has ensured that our questions are genuine and updated. We guarantee that you will be satisfied with the quality of our Dynatrace-Associate practice questions.

## Free Dynatrace Dynatrace-Associate Practice Exams - Dynatrace-Associate Valid Test Question

The PrepAwayTest Dynatrace Dynatrace-Associate exam questions are designed and verified by experienced and qualified

Dynatrace Associate Certification Exam (Dynatrace-Associate) exam trainers. They have verified all Dynatrace Dynatrace-Associate exam questions one by one and ensured the top standard of PrepAwayTest Dynatrace Dynatrace-Associate Practice Test questions. So you do not need to worry about the Dynatrace-Associate exam preparation just download PrepAwayTest Dynatrace Dynatrace-Associate latest dumps and start preparing today.

## Dynatrace Dynatrace-Associate Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Business Analytics: Covers capturing and correlating business metrics with technical data to measure the impact of application performance on business outcomes.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Log Investigation: Covers querying, filtering, and analyzing log data within Dynatrace to troubleshoot and identify root causes of problems.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Foundational Platform Capabilities: Covers the core features and navigation of the Dynatrace platform, including entity relationships, tagging, and how data is collected.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Security: Covers vulnerability detection, security alerting, and how Dynatrace identifies and prioritizes security risks across the environment.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Kubernetes Infrastructure: Covers monitoring and observability of Kubernetes clusters, workloads, and containerized environments within Dynatrace.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Reporting and Analysis: Covers tools and methods for analyzing observability data and generating insights to support performance and operational decisions.</li> </ul>

## Dynatrace Associate Certification Exam Sample Questions (Q47-Q52):

### NEW QUESTION # 47

Name the benefits of employing distributed tracing?

- A. Session replay
- B. Protected bottom-line growth
- C. Improved internal collaboration
- D. Faster time to market
- E. Reduced mean time to detect (MTTD) and mean time to repair (MTTR)
- F. Improved compliance with SLAs

**Answer: B,C,D,E,F**

Explanation:

Distributed tracing provides deep visibility into application behavior, which leads to multiple business and operational benefits:

- \* Faster time to market through quicker issue resolution
  - \* Improved internal collaboration by providing shared visibility across teams
  - \* Improved SLA compliance through better monitoring and reliability
  - \* Reduced MTTD and MTTR by enabling faster detection and troubleshooting
  - \* Protected business outcomes by minimizing downtime and performance issues
- Session replay is a Digital Experience feature and not a direct benefit of distributed tracing.

Reference: Based on official Dynatrace University training materials on distributed tracing benefits.

### NEW QUESTION # 48

Which attribute provides a unique value to view a transaction end-to-end?

- A. Process id
- B. Span kind
- C. Service type
- D. W3C trace id

**Answer: D**

Explanation:

The W3C trace ID uniquely identifies a distributed trace across all services and components involved in a transaction.

It enables:

- \* End-to-end visibility of a request
- \* Correlation of spans across multiple services
- \* Full trace reconstruction in distributed environments

Other attributes are not unique identifiers:

- \* Span kind describes the role of a span
- \* Process ID identifies a process, not a transaction
- \* Service type categorizes services

Only the W3C trace ID provides a globally unique identifier for a full transaction.

Reference: Based on official Dynatrace University training materials covering distributed tracing.

#### NEW QUESTION # 49

Which metrics are presented within the Databases app? (Select all that apply)

- A. Code-level insights
- B. Active Sessions
- C. Memory Consumption
- D. Database vulnerabilities
- E. User Calls

**Answer: B,C**

Explanation:

The Databases app in Dynatrace provides infrastructure and performance-level metrics for databases.

Key metrics include:

- \* Memory Consumption, indicating how much memory the database is using
- \* Active Sessions, showing current connections and workload

These metrics help in understanding database health and performance.

Other options are not part of this app:

- \* Code-level insights are provided via services and distributed tracing
  - \* User Calls relate to application/service monitoring
  - \* Database vulnerabilities are part of Application Security, not database performance metrics
- Reference: Based on official Dynatrace University training materials covering database monitoring.

#### NEW QUESTION # 50

Which of the following is the default threshold type used for anomaly detection on Hosts (CPU saturation, memory saturation, disk utilization..)?

- A. Integrations
- B. Impact Analysis
- C. Automated Multi-Dimensional Baselineing
- D. Static Thresholds

**Answer: C**

Explanation:

Dynatrace uses Automated Multi-Dimensional Baselineing as the default anomaly detection method for host metrics such as CPU, memory, and disk utilization.

This approach:

- \* Automatically learns normal behavior patterns over time
- \* Adjusts thresholds dynamically based on historical data
- \* Considers multiple dimensions such as time of day and workload patterns This allows Dynatrace to detect anomalies more accurately compared to fixed thresholds.

Static thresholds are manually defined and not the default.

Other options are unrelated to anomaly detection mechanisms.

Reference: Based on official Dynatrace University training materials covering anomaly detection and Davis AI.

### NEW QUESTION # 51

I need fine-grained control of the Business Events data ingested. Adding which attribute allows me to achieve this?

- A. dt.security.context
- B. dt.entity.process\_group\_instance
- C. dt.traceid
- D. dt.spanid

**Answer: A**

Explanation:

The dt.security.context attribute enables fine-grained access control over ingested data, including Business Events.

It allows:

- \* Segmentation of data
- \* Restricting access to specific users or groups
- \* Applying security boundaries to sensitive datasets

Other attributes are related to tracing:

- \* dt.traceid and dt.spanid are for distributed tracing
- \* dt.entity.process\_group\_instance links data to entities

Only dt.security.context provides control over data access and segmentation.

Reference: Based on official Dynatrace University training materials covering Grail and data security.

### NEW QUESTION # 52

.....

Our Dynatrace-Associate preparation exam will be very useful for you if you are going to take the exam. So if you buy our Dynatrace-Associate guide quiz, it will help you pass your exam and get the certification in a short time, and you will find that our Dynatrace-Associate study materials are good value for money. Besides, you can enjoy the best after-sales service. We believe that our Dynatrace-Associate Learning Engine will meet your all needs. Please give us a chance to service you; you will be satisfied with our training prep.
