High Hit Rate PL-300 Well Prep, Ensure to pass the PL-300 Exam

All of the traits above are available in this web-based PL-300 practice test of ActualTorrent. The main distinction is that the Microsoft PL-300 online practice test works with not only Windows but also Mac, Linux, iOS, and Android. Above all, taking the PL-300 web-based practice test while preparing for the examination does not need any software installation. Furthermore, MS Edge, Internet Explorer, Opera, Safari, Chrome, and Firefox support the web-based Microsoft PL-300 practice test of ActualTorrent.

Is Microsoft Power BI Data Analyst Certification Exam Worth It

There are many IT certifications available in the market today, but if you are looking for a job as a data analyst then you should give this certification a chance. This certification will help you to stand out from the crowd and get hired easily by many companies. Microsoft Power BI Data Analyst Certification Exam is the most valuable certification program for IT professionals in their respective fields. Microsoft **PL-300 Dumps** is a must-have certificate for all IT professionals who want to pursue their career in the field of data analytics.

The Microsoft Power BI Data Analyst Certification Exam is a certification exam that will help you to demonstrate your expertise in using the Microsoft Power BI platform. This exam tests the candidate's ability to analyze data with Power BI and create reports that are accurate, insightful and easy to read. Once you pass this exam, you will receive a certificate that shows your competence in performing these tasks. The certificate is valid for three years, so if you want to keep your skills up-to-date then you should take additional training during this time period.

Microsoft Power BI Data Analyst Sample Questions (Q16-Q21):

NEW QUESTION # 16

You have the Power BI data model shown in the following exhibit.

The screenshot shows a Power BI data model with a 'Country' table containing 'Country', 'Email', and 'Manager' fields. This table is connected to a 'Sales' table. Below the model, the 'Table Filter DAX Expression' section contains the following filters: [Country]= "USA", [Email]= userprincipalname(), [Manager]= "CFO", False(), and True(). The 'Answer Area' section shows filters for 'Human Resources' (DAX Expression) and 'Country' (DAX Expression).

Answer:

Explanation:

The explanation highlights the DAX filter configuration. In the 'Table Filter DAX Expression' section, the filters are: [Country]= "USA", [Email]= userprincipalname(), [Manager]= "CFO", False(), and True(). In the 'Answer Area' section, the filters are: Human Resources: [Email]= userprincipalname() and Country: [Manager]= "CFO" | session.

NEW QUESTION # 17

You have the tables shown in the following table.

Table name	Column name
Campaigns	Campaign_ID
	Name
Ads	Ad id
	Name
	Campaign id
Impressions	Impression id
	Ad id
	Site_name
	Impression_time
	Impression_date

The Impressions table contains approximately 30 million records per month.

You need to create an ad analytics system to meet the following requirements:

- * Present ad impression counts for the day, campaign, and Site_name. The analytics for the last year are required.
- * Minimize the data model size.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a calculated table that contains Ad_id, Site_name, and Impression_date.

- B. Create a calculated measure that aggregates by using the COUNTROWS function.
- C. Group the impressions by Ad_id, Site_name, and Impression_date. Aggregate by using the CountRows function.
- D. Create one-to-many relationships between the tables.

Answer: B,D

Explanation:

Grouping in power query reduces the number of rows in the impression table that is gonna be loaded in the model. Creating relationships doesn't increase the size of the model.

NEW QUESTION # 18

You have a Power BI model that contains a table named Date. The table has the following columns.

Name	Sample value
Date	2022-06-01
Year	2022
Month Number	6
Month Name	June
Year Month	2022 Jun

Answer:

Explanation:

see the explanation for the answer below.

Explanation:

Answer is below.

Month Year Sort = [Year] / 100 + [Month Number]

NEW QUESTION # 19

You have a Microsoft Power BI data model that contains three tables named Orders, Date, and City. There is a one-to-many relationship between Date and Orders and between City and Orders.

The model contains two row-level security (RLS) roles named Role1 and Role2. Role1 contains the following filter.

City[State Province] = "Kentucky"

Role2 contains the following filter.

Date[Calendar Year] = 2020

If a user is a member of both Role1 and Role2, what data will they see in a report that uses the model?

- A. The user will receive an error and will not be able to see the data in the report.
- B. The user will see data for which the State Province value is Kentucky and the Calendar Year is 2020.
- C. The user will see only data for which the State Province value is Kentucky.
- D. The user will see data for which the State Province value is Kentucky or the Calendar Year is 2020.

Answer: D

Explanation:

When a report user is assigned to multiple roles, RLS filters become additive. It means report users can see table rows that represent the union of those filters.

NEW QUESTION # 20

You build a report about warehouse inventory dat

a. The dataset has more than 10 million product records from 200 warehouses worldwide. You have a table named Products that

contains the columns shown in the following table.

Name	Sample data
ProductDescription	Bikes > Adventure Works > Mountain Bikes > Super Carbon Bike > 26in wheels 42in frame
ProductCategory	Bikes
Manufacturer	Adventure Works
ProductSubcategory	Mountain Bikes
ProductSpecification	26in wheels 42in frame

Warehouse managers report that it is difficult to use the report because the report uses only the product name in tables and visuals. The product name is contained within the ProductDescription column and is always the fourth value.

You need to modify the report to support the warehouse managers requirement to explore inventory levels at different levels of the product hierarchy. The solution must minimize the model size.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Create a product hierarchy of Manufacturer, ProductSpecifications, ProductName, ProductSubcategory, and ProductCategory.
- Replace the use of ProductDescription in the report with the product hierarchy.
- Transform the ProductDescription column to contain only the text between the first and fourth > symbol.
- Add the product hierarchy as an extra field in visuals where ProductDescription is used.
- Add a column named ProductName that contains only the text between the third and fourth > symbol in the ProductDescription column.
- Add a column named ProductName that contains all the text after the third > symbol in the ProductDescription column.
- Create a product hierarchy of ProductCategory, ProductSubcategory, Manufacturer, ProductName, and ProductSpecifications.

Answer Area

←

←

Answer:

Explanation:

Answer Area

Add a column named ProductName that contains all the text between the third and fourth . symbol in the ProductDescription column.

Create a product hierarchy of ProductCategory,ProductSubcategory,Manufacturer, ProductName, and ProductSpecifications.

Replace the use of ProductDescription,,,,,,

- 1 - Add a column named ProductName that contains all the text between the third and fourth . symbol in the ProductDescription column.
- 2 - Create a product hierarchy of ProductCategory,ProductSubcategory,Manufacturer, ProductName, and ProductSpecifications.
- 3 - Replace the use of ProductDescription,,,,,,

NEW QUESTION # 21

.....

Far more effective than online courses free or other available exam materials from the other websites, our PL-300 exam questions are the best choice for your time and money. As the content of our PL-300 study materials has been prepared by the most professional and specialized experts. I can say that no one can know the PL-300 learning quiz better than them and they can teach

you how to deal with all of the exam questions and answers skillfully.
