我們正在盡最大努力為我們的廣大考生提供所有具備較高的速度和效率的服務，以節省你的寶貴時間，Testpdf PECB的ISO-IEC-27001-Lead-Implementer考試為你提供了大量的考試指南，包括考古題及答案，有些網站在互聯網為你提供的品質和跟上時代ISO-IEC-27001-Lead-Implementer學習材料。Testpdf是唯一的網站，為你提供優質的PECB的ISO-IEC-27001-Lead-Implementer考試培訓資料，隨著Testpdf的學習資料和指導PECB的ISO-IEC-27001-Lead-Implementer認證考試的幫助下，你可以第一次嘗試通過PECB的ISO-IEC-27001-Lead-Implementer考試。

最新的 ISO 27001 ISO-IEC-27001-Lead-Implementer 免費考試真題 (Q197-Q202):

問題 #197

How many domains does ISO / IEC 27002: 2013 have?

- A. 0
- B. 1
- C. 2
- **D. 3**

答案： D

問題 #198

Scenario 2: Beauty is a cosmetics company that has recently switched to an e-commerce model, leaving the traditional retail. The top management has decided to build their own custom platform in-house and outsource the payment process to an external provider operating online payments systems that support online money transfers.

Due to this transformation of the business model, a number of security controls were implemented based on the identified threats and vulnerabilities associated to critical assets. To protect customers' information. Beauty's employees had to sign a confidentiality agreement. In addition, the company reviewed all user access rights so that only authorized personnel can have access to sensitive files and drafted a new segregation of duties chart.

However, the transition was difficult for the IT team, who had to deal with a security incident not long after transitioning to the e-commerce model. After investigating the incident, the team concluded that due to the out-of-date anti-malware software, an attacker gamed access to their files and exposed customers' information, including their names and home addresses.

The IT team decided to stop using the old anti-malware software and install a new one which would automatically remove malicious code in case of similar incidents. The new software was installed in every workstation within the company. After installing the new software, the team updated it with the latest malware definitions and enabled the automatic update feature to keep it up to date at all times. Additionally, they established an authentication process that requires a user identification and password when accessing sensitive information.

In addition, Beauty conducted a number of information security awareness sessions for the IT team and other employees that have access to confidential information in order to raise awareness on the importance of system and network security.

Based on scenario 2, which information security principle is the IT team aiming to ensure by establishing a user authentication process that requires user identification and password when accessing sensitive information?

- A. Integrity
- **B. Confidentiality**
- C. Availability

答案: B

問題 #199

Which of the actions presented in scenario 4 is NOT compliant with the requirements of ISO/IEC 27001?

- A. The external experts selected security controls and drafted the Statement of Applicability
- **B. The Statement of Applicability was drafted before conducting the risk assessment**
- C. TradeB selected only ISO/IEC 27001 controls deemed applicable to the company

答案: B

問題 #200

Scenario 8: SunDee is an American biopharmaceutical company, headquartered in California, the US. It specializes in developing novel human therapeutics, with a focus on cardiovascular diseases, oncology, bone health, and inflammation. The company has had an information security management system (ISMS) based on ISO/IEC 27001 in place for the past two years. However, it has not monitored or measured the performance and effectiveness of its ISMS and conducted management reviews regularly. Just before the recertification audit, the company decided to conduct an internal audit. It also asked most of their staff to compile the written individual reports of the past two years for their departments. This left the Production Department with less than the optimum workforce, which decreased the company's stock.

Tessa was SunDee's internal auditor. With multiple reports written by 50 different employees, the internal audit process took much longer than planned, was very inconsistent, and had no qualitative measures whatsoever. Tessa concluded that SunDee must evaluate the performance of the ISMS adequately. She defined SunDee's negligence of ISMS performance evaluation as a major nonconformity, so she wrote a nonconformity report including the description of the nonconformity, the audit findings, and recommendations. Additionally, Tessa created a new plan which would enable SunDee to resolve these issues and presented it to the top management. Based on the scenario above, answer the following question:

What caused SunDee's workforce disruption?

- **A. The voluminous written reports**
- B. The negligence of performance evaluation and monitoring and measurement procedures
- C. The inconsistency of reports written by different employees

答案: A

問題 #201

Scenario 6: Skyver offers worldwide shipping of electronic products, including gaming consoles, flat-screen TVs, computers, and printers. In order to ensure information security, the company has decided to implement an information security management system (ISMS) based on the requirements of ISO/IEC 27001.

Colin, the company's best information security expert, decided to hold a training and awareness session for the personnel of the company regarding the information security challenges and other information security-related controls. The session included topics such as Skyver's information security approaches and techniques for mitigating phishing and malware.

One of the participants in the session is Lisa, who works in the HR Department. Although Colin explains the existing Skyver's information security policies and procedures in an honest and fair manner, she finds some of the issues being discussed too technical and does not fully understand the session. Therefore, in a lot of cases, she requests additional help from the trainer and her colleagues. Based on the scenario above, answer the following question:

How should Colin have handled the situation with Lisa?

- A. Promise Lisa that future training and awareness sessions will be easily understandable
- B. Extend the duration of the training and awareness session in order to be able to achieve better results
- **C. Deliver training and awareness sessions for employees with the same level of competence needs based on the activities they perform within the company**

答案： C

問題 #202
