So just feel rest assured to buy our PA-Life-Accident-and-Health study guide!

## Insurance Licensing Pennsylvania Life, Accident and Health Exam Sample Questions (Q105-Q110):

### NEW QUESTION # 105

In broad terms, the types of support and services generally associated with Long-Term Care policies are provided at which three levels of care?

- A. Functional, rehabilitational, and medical care.
- B. Home-based, assisted living, and medical care.
- C. **Skilled nursing, Intermediate, and custodial care.**
- D. Professional, social, and economic care.

**Answer: C**

Explanation:

Pennsylvania Long-Term Care insurance policies provide benefits across three recognized levels of care: skilled nursing care, intermediate care, and custodial care. These levels represent increasing degrees of assistance needed by individuals who can no longer perform activities of daily living independently.

Skilled nursing care involves continuous medical supervision provided by licensed nurses and physicians.

Intermediate care requires some medical oversight but not on a continuous basis. Custodial care focuses on non-medical assistance with daily activities such as bathing, dressing, and eating.

These three levels are consistently referenced in Pennsylvania Life, Accident, and Health Insurance licensing materials as the standard framework for long-term care coverage. The other answer choices do not align with Pennsylvania's recognized classification system. Therefore, the correct and verified answer is C. Skilled nursing, Intermediate, and custodial care.

### NEW QUESTION # 106

Within how many days does the free-look provision allow the insured the right to return a long-term care policy for full premium?

- A. 0
- **B. 1**
- C. 2
- D. 3

**Answer: B**

Explanation:

Pennsylvania Long-Term Care (LTC) Insurance regulations require a 30-day free-look period, allowing the insured to return the policy for a full refund of any premium paid. This provision begins on the date the policy is delivered and provides consumers sufficient time to review coverage terms, benefits, limitations, and exclusions.

Pennsylvania-approved LTC study guides emphasize that the extended free-look period reflects the complexity and long-term financial commitment associated with long-term care insurance. If the policy is returned within the 30-day period, it is treated as though it was never issued, and no coverage remains in force.

The shorter free-look periods listed in the other answer choices—5, 10, or 15 days—do not apply to long-term care policies in Pennsylvania. Therefore, 30 days is the correct and verified answer under Pennsylvania Life, Accident, and Health Insurance standards.

### NEW QUESTION # 107

Which rider includes coverage for the insured's spouse and children?

- A. Jumping juvenile
- B. Guaranteed insurability
- C. Payor benefit
- D. Family

**Answer: D**

Explanation:

In Pennsylvania Life Insurance policies, the Family Rider is specifically designed to provide coverage for the insured's spouse and dependent children under a single policy. This rider allows the primary insured to purchase life insurance protection for eligible family members without requiring separate individual policies for each person.

Pennsylvania insurance study guides explain that family riders usually provide a fixed amount of term life coverage for the spouse and smaller amounts for children. Coverage for children typically expires when they reach a specified age, at which point they may have the option to convert to permanent coverage. Spousal coverage may also include conversion privileges.

The other options listed do not provide family coverage. A guaranteed insurability rider allows the insured to purchase additional coverage in the future without proof of insurability. A jumping juvenile rider automatically converts juvenile coverage into permanent insurance at a certain age. A payor benefit rider waives premiums if the policy owner becomes disabled.

Therefore, based on Pennsylvania Life Insurance documentation, the rider that includes coverage for the insured's spouse and children is the Family rider.

**NEW QUESTION # 108**

All of the following statements about Health Maintenance Organizations (HMOs) are true EXCEPT

- A. Out-of-pocket expenses are limited as long as the network is utilized.
- B. Members receive care from providers in the HMO network.
- C. Members pay fixed monthly fees to the HMO.
- D. Members pay higher monthly fees when out-of-network providers are utilized.

**Answer: D**

Explanation:

HMOs typically require members to use a network of designated providers and do not cover out-of-network care except in emergencies. Members pay fixed monthly fees for access to the HMO's network of providers.

While out-of-pocket expenses are limited within the network, utilizing out-of-network providers generally results in the services not being covered at all, rather than higher monthly fees. Therefore, statement D is incorrect.

**NEW QUESTION # 109**

In determining whether a pre-existing condition applies, the enrollee CANNOT have more than how many days" gap in Health insurance?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

In determining whether a pre-existing condition exclusion applies, Pennsylvania follows federal standards established under HIPAA and reinforced by ACA provisions. An enrollee cannot have a gap in creditable health coverage of more than 63 days. If the gap exceeds 63 days, prior coverage may no longer be credited toward eliminating or reducing a pre-existing condition limitation.

Pennsylvania-approved insurance education materials emphasize that creditable coverage includes most group and individual health plans, Medicare, Medicaid, and other qualifying coverage types. Maintaining continuous coverage is critical to preserving consumer protections. A lapse of 63 days or fewer allows prior coverage to count without penalty, while exceeding that threshold resets the pre-existing condition evaluation.

The alternative answers-60, 65, and 70 days-do not reflect the legally established standard used in Pennsylvania and federal insurance regulation. The 63-day rule is a key exam concept and consumer protection mechanism designed to encourage continuous health coverage. Therefore, 63 days is the correct and fully verified answer.

## NEW QUESTION # 110

Once you have used our PA-Life-Accident-and-Health exam training guide in a network environment, you no longer need an internet connection the next time you use it, and you can choose to use PA-Life-Accident-and-Health exam training at your own right.
