Salesforce Certified Field Service Consultant Sample Questions (Q117-Q122):

NEW QUESTION # 117
AW Computing uses a private record access model in the sales, support, and field service organizations.
How should the system administrator ensure that the technicians have the appropriate access to the service appointments dispatched to them?

- A. Create a user territory for the technicians' primary and secondary territories.

- B. Create a process to change the owner of the serviceappointment to the assigned technician.
- C. Configure a sharing rule to share dispatched service appointments with the assigned resource.
- D. Enable the sharing features in the Field Service settings in the Setup menu.

Answer: D

Explanation:
Enabling the sharing features in the Field Service settings in the Setup menu allows sharing dispatched service appointments with assigned resources regardless of the private record access model in sales, support, and field service organizations[50]. Creating a user territory for thetechnicians' primary and secondary territories would not ensure that they have access to the service appointments dispatched to them. Creating a process to change the owner of the service appointment to the assigned technician would not work if multiple resources are assigned to the same service appointment. Configuring a sharing rule to share dispatched service appointments with the assigned resource would not work if multiple resources are assigned to different crews or teams.

NEW QUESTION # 118
Universal Containers (UC) normally focuses on minimizing travel. Weather can cause situations that require expedited on-site service.
How should a Consultant recommend UC handle unplanned service during times of severe weather?

- A. Configure a new Service Level for immediate assignment.
- B. Manually flag ServiceAppointments as "In Jeopardy" due to weather.
- C. Configure an Emergency Policy and use the Emergency Wizard.
- D. Postpone all lower-priority jobs and extend Due Dates.

Answer: C

Explanation:
This option allows handling unplanned service during times of severe weather by creating a policy that overrides the existing scheduling policy and using a wizard to reschedule service appointments based on the emergency policy.

htm&type=5

NEW QUESTION # 119
AW Computing technicians use the field service mobile application exclusively since theyare always in the field. Due to frequent schedule changes, the technician should only see one job at a time on the app.
How should the field service administrator ensure this requirement is met?

- A. Set Send Appointment Notifications on Dispatch in the mobile settings to one.
- B. Enable drip feed to dispatch one service appointment per technician at a time.
- C. Set up auto dispatch to dispatch one work order for each technician at a time
- D. Instruct the dispatcher to only dispatch one work order toeach technician at a time.

Answer: B

Explanation:
Drip feed is a feature that automatically dispatches service appointments to resources based on predefined criteria and time intervals. By enabling drip feed, the system can dispatch one service appointment per technician at a time, and adjust their schedule accordingly.
References: https://help.salesforce.com/s/articleView?id=sf.fsl_drip_feed.htm&type=5

NEW QUESTION # 120
Universal Containers (UC) provides services to multiple machines installed at customer sites. Each machine has different issues that need to be fixed. UC wants to track progress, different parts used, and time spent on each machine when dispatching a Technician.
How should the Consultant meet these requirements?

- A. Work Orders will have multiple Service Appointments. Each Service Appointment will be linked to the Asset.
- B. Work Orders will have multiple Work Order Line Items. Each Work Order Line Item will be linked to the Asset and have

a Service Appointment.
- C. Each Account will have a Service Appointment that will represent the work to be done at the customer site.
- D. Each Asset will have a Service Appointment that will represent the work needed for each machine.

Answer: B

Explanation:
This option allows tracking the required work for each machine separately, and scheduling a service appointment for each work order line item. References:https://help.salesforce.com/s/articleView?id=sf.fs_work_order_line_items.htm&type=5

NEW QUESTION # 121
UniversalContainers's Technicians have 12 mandatory company holidays each calendar year. Technicians need to view all of their absence records at once. Which two applications should a Consultant recommend to meet this requirement? Choose ? answers

- A. Custom mabile application
- B. Salesforce browser-based application
- C. Salesforce mobile application
- D. Salesforce Field Service mobile application

Answer: B,D

Explanation:
These two applications allow viewing all of the absence records at once, as they support displaying related lists on objects such as service resources or service territories. References:https://help.salesforce.com/s/articleView?id=sf.fs_absences_overview.htm&type=5

NEW QUESTION # 122
......
