The desktop-based Salesforce Salesforce-Slack-Administrator practice test software works on Windows and the web-based Salesforce Certified Slack Administrator practice exam is compatible with all operating systems.

Salesforce Certified Slack Administrator Sample Questions (Q95-Q100):

NEW QUESTION # 95

A 5,000-employee company with multiple international offices is planning to launch Slack to its entire organization. Their goal is to increase collaboration and build a stronger company culture. The CIO is hesitant to allow members to upload custom emoji to Slack, but she doesn't want to burden her Workspace Admin team with requests for custom emoji uploads. Which solution addresses the CIO's concerns?

- A. Allow all members access to upload custom emoji, but communicate and document the appropriate emoji use and uploads.
- **B. Restrict custom emoji uploads to Workspace Owners and Admins, and do not allow anyone to request custom emoji uploads.**
- C. Do not allow any custom emoji creation to minimize the risk of members uploading inappropriate imagery.
- D. Prior to launch, pre-load a set of custom emoji voted on by a council of leaders, and do not allow anyone to request customer emoji uploads.

Answer: B

NEW QUESTION # 96

You're a Slack admin at a nonprofit organization. You need to add a new workspace to your Slack Enterprise Grid. This workspace needs to support the fundraising efforts of the development team. It should be a place for the team to collaborate on upcoming campaigns, events, and conduct retrospectives on past efforts. You can't devote significant admin energy to managing this workspace, and most members of your org participate in fundraising efforts in some capacity.

What visibility setting should you select for this new workspace?

(Select the best answer.)

- A. Hidden
- B. By Request
- C. Invite Only
- **D. Open**

Answer: D

Explanation:

An Open workspace allows anyone in the organization to join without requiring invitations or approvals, minimizing admin overhead. According to Slack Enterprise Grid documentation:

"Open workspaces allow any member of the organization to join, making them ideal for widely participated efforts like fundraising, campaigns, or company-wide initiatives." Invite Only and By Request models would require manual intervention and approval, not ideal when admin resources are limited. Hidden workspaces are for restricted, confidential groups.

(Reference: Slack Administration Study Guide - Workspace Visibility Settings)

NEW QUESTION # 97

You are a Slack admin and you have just implemented Enterprise Key Management (EKM) to add an extra layer of protection within your Enterprise Grid.

In which situation would it be most appropriate to revoke the key?

- A. When working with contractors in a Slack Connect channel.
- B. When a Multi-Channel Guest is Invited into one of the company's workspaces.
- **C. When sensitive information is placed in the incorrect channel and shared with other users.**

Answer: C

NEW QUESTION # 98

An IT administrator at Watch Corp is responsible for launching Slack to the company. The security team has outlined the importance of keeping all applications on all devices updated to the latest version.

How should the IT administrator roll out Slack?

- A. Install the Slack Desktop App to all of their employees' machines, disabling automatic updates.
- **B. Install the Slack Desktop App to all of their employees' machines, allowing automatic updates.**
- C. Send an announcement to the company, communicating the steps for how to download and update the Slack app, and

outlining why it is important for the security team.

- D. Propose that users only use Slack in a browser, so employees only have to worry about updating their browser.

Answer: B

NEW QUESTION # 99

You're an Org Admin at a company that recently rolled out Enterprise Mobility Management (EMM) to its employees. It has been a few days since you activated EMM, and you start receiving reports that users are being signed out of Slack unexpectedly. What is the most likely cause of the sign out?

- A. When activating EMM, you did not enable Keep users signed in
- B. EMM requires users to sign in every 72 hours to ensure compliance
- C. The members did not set up EMM within the 72 hour window.
- D. The users need to update their device operating systems.

Answer: C

NEW QUESTION # 100
