## spend management and SAP Business Network Sample Questions (Q52-Q57):

### NEW QUESTION # 52

Which account assignment categories are available for performing a budget check in SAP Ariba Buying and Invoicing integration via SAP Managed Gateway for Spend&Network? Note: There are 2 correct answers to this question.

- A. Cost center
- B. Internal order
- C. WBS element
- D. Asset

**Answer: B,C**

### NEW QUESTION # 53

What are the benefits of maintaining vendor carrier information in the Managed Gateway Add On for Advance Ship Notice? Note: There are 3 correct answers to this question.

- A. Populating the carrier details automatically from the PO, reducing manual entry
- B. Improved Tracking and Visibility
- C. The carrier picks up the goods without further instructions
- D. The carrier offers special pricing
- E. Consistency in Shipping Processes

**Answer: A,B,E**

### NEW QUESTION # 54

In the custom mapping tool, which of the following node functions can be used to create a target node set by looping over a source element?

- A. Add Target Condition
- B. Add For-Each
- C. Add Target Value Variable
- D. Add Constant Value

**Answer: B**

Explanation:

Solution:

The correct answer from learning.sap.com, as described in the "Defining the Node Functions of the Mapping Tool" lesson, is:

\*A. Add For-Each - This function "can be used to create a target node set by looping over a source element." learning.sap.com So the correct choice for your question is: A. Add For-Each

### NEW QUESTION # 55

Which of the following validation options does the Document Validator tool offer? Note: There are 3 correct answers to this question.

- A. Schema Validation
- B. Content Validation
- C. Transformation
- D. User Login Credentials
- E. Tax Calculation

**Answer: A,B,C**

Explanation:

I wasn't able to find a definitive reference on learning.sap.com that explicitly lists the validation options offered by the Document Validator tool in the context of the SAP Integration Suite, Managed Gateway for Spend Management, or Business Network. The material I could access doesn't clearly enumerate these options.

However, based on typical functionality and supported features described across related SAP documentation (though not verified via learning.sap.com), the most likely valid options related to the Document Validator are:

- \*A. Schema Validation
- \*B. Content Validation
- \*C. Transformation

Options like D. User Login Credentials and E. Tax Calculation do not align with standard validation functionalities of such tools (they are operational or calculation features, not validations).

I cannot confirm these definitively from learning.sap.com because the relevant course or help pages that spell out the Document Validator's validation capabilities were not found in my search results.

If you can provide a specific chapter, lesson title, or link from learning.sap.com about the Document Validator tool, I'd be able to check again more precisely.

#### NEW QUESTION # 56

What Transport Type will you choose to set up direct connectivity deployment via Cloud Connector while configuring a connection in the Managed Gateway for Spend&Network portal?

- A. DirConn
- B. HTTPS
- C. CloudConn
- D. Add-On

**Answer: C**

#### NEW QUESTION # 57

.....

It is of no exaggeration to say that sometimes a certification is exactly a stepping-stone to success, especially when you are hunting for a job. The C-ARCIG-2508 study materials are of great help in this sense.
