Pass Guaranteed 1z0-1093-25 - Latest Valid Oracle Cloud Database Services 2025 Professional Exam Sample

DOWNLOAD the newest VCE4Plus 1z0-1093-25 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1GlwClp0YIe1ThCKdb100KSWpe5zq24-L

Our 1z0-1093-25 practice engine is admired by all our customers for our experts' familiarity and dedication with the industry all these years. By their help, you can qualify yourself with high-quality 1z0-1093-25 exam materials. Our experts pass onto the exam candidate their know-how of coping with the exam by our 1z0-1093-25 Training Questions. And i can say that our 1z0-1093-25 study guide is the unique on the market for its high-effective.

For successful preparation, you can also rely on Understanding Oracle Cloud Database Services 2025 Professional 1z0-1093-25 real questions. Visit For More Information: Three Formats of Oracle 1z0-1093-25 Updated Practice Material. The Oracle 1z0-1093-25 practice test is available in three compatible and user-friendly formats. These formats are 1z0-1093-25 desktop practice test software, Oracle 1z0-1093-25 web-based practice exam, and Oracle 1z0-1093-25 PDF dumps file. All three formats of Oracle 1z0-1093-25 study material contain actual and verified Understanding Oracle Cloud Database Services 2025 Professional 1z0-1093-25 exam dumps that will help you boost your exam preparation.

Pass Guaranteed Quiz 2026 Oracle Perfect 1z0-1093-25: Valid Oracle Cloud Database Services 2025 Professional Exam Sample

VCE4Plus's Oracle 1z0-1093-25 exam training materials are the necessities of each of candidates who participating in the IT

certification. With this training material, you can do a full exam preparation. So that you will have the confidence to win the exam. VCE4Plus's Oracle 1z0-1093-25 Exam Training materials are highly targeted. Not every training materials on the Internet have such high quality. Only VCE4Plus could be so perfect.

Oracle Cloud Database Services 2025 Professional Sample Questions (Q69-Q74):

NEW QUESTION # 69
A critical query running on your HeatWave cluster is experiencing significant performance degradation.
Which tool or service should you use to identify and analyze the specific query causing the bottleneck?

- A. MySQL Slow Query Log and OCI Logging Analytics.
- B. OCI Network Visualizer for analyzing network latency.
- C. OCI Events for tracking query start and end times.
- D. OCI Vault for auditing query execution.
- E. OCI Bastion for secure access to the query execution environment.

Answer: A

Explanation:
MySQL Slow Query Log:
TheMySQL Slow Query Logrecords queries that exceed a specified execution time threshold. It is essential for identifyinglong-running queriesthat may be causing performance bottlenecks.
OCI Logging Analytics:
By integrating the slow query log withOCI Logging Analytics, users can visualize query performance patterns, generate alerts, and identify the root cause of slow performance. This combination is powerful for detecting and addressingquery-specific issues.
Why the other options are incorrect:
* A:OCI Vault is used for managing encryption keys, not query performance.
* B:OCI Events track general occurrences, not detailed query performance.
* D:Network latency analysis is useful but not directly related to query analysis.
* E:OCI Bastion provides secure access, not performance analytics.

NEW QUESTION # 70
Which of the following is the recommended approach for migrating a large, mission-critical database from an on-premises Exadata system to Exadata Database Service with minimal downtime?

- A. Using SQL Developer to copy the data over a VPN connection.
- B. Creating a physical standby database using Data Guard and switching over to the standby in OCI.
- C. Performing a full backup and restore to a new Exadata Database Service instance.
- D. Traditional export/import using Data Pump over a public network.

Answer: B

Explanation:
B: Using Data Guard for physical standby and switchover:
* This method enablesminimal downtimemigration.
* Steps:
* Configure Data Guard to synchronize thestandby databasewith the primary on-premises database.
* Once synchronized, perform aswitchoverto make the standby the new primary.
* Downtime is limited to the switchover duration.
* This approach leveragesreal-time replicationto minimize disruption.
Why the other options are incorrect:
* A. Export/Import with Data Pump:Too time-consuming for large databases.
* C. Full backup and restore:High downtime due to the time required for data transfer and restoration.
* D. Copying via SQL Developer:Not feasible for mission-critical and large databases due to slow transfer speeds.

NEW QUESTION # 71
You are tasked with monitoring the I/O performance of an Exadata Database Service (ExaDB) using the exadcli utility. You need to

retrieve detailed statistics on Smart Flash Cache usage, including read and write operations, at the storage cell level. Which exadcli command will provide the most comprehensive information?

- A. exadcli list metriccurrent -cell -metricname "cell.*"
- B. exadcli list metricdetail -cell -metricname "flashcache.*"
- C. exadcli list metriccurrent -cell -metricname "IOPS,MBPS"
- D. exadcli list metrichistory -cell -metricname "flashcache_read_iops,flashcache_write_iops"

Answer: B

Explanation:
Detailed Flash Cache Monitoring:
The commandexadcli list metricdetail -cell -metricname "flashcache.*"provides acomprehensive overviewof all metrics related toSmart Flash Cache. This includes bothread and write operations, hit ratios, and IOPS statistics.
* Themetricdetailoption retrieves in-depth data, crucial for performance troubleshooting.
* Theflashcache.*wildcard captures all relevant metrics associated with the Flash Cache subsystem.
Why the other options are incorrect:
* A:Limited to current IOPS and throughput, not specifically flash cache.
* C:Too broad, as it includes general cell metrics.
* D:Focuses only on historical read/write IOPS, not comprehensive.

NEW QUESTION # 72
Which two of the following options are valid statements regarding the management of the operating system on a Base Database Service Virtual Machine DB System?

- A. Customers have full root access to the underlying operating system of the Virtual Machine DB System, allowing for customization and installation of custom software.
- B. Oracle manages the underlying operating system patching and updates, ensuring the system remains secure and compliant.
- C. Customers are responsible for the initial OS installation, but then patching is controlled entirely by Oracle.
- D. Direct SSH access to the underlying VM is restricted, and all OS-level operations must be performed through the Web Console.
- E. Customers are responsible for the security and maintenance of the operating system, including applying necessary patches and updates.

Answer: A,E

Explanation:
B: Full root access:
* Customers have root-level access to manage the OS, install custom software, and configure settings.
* This provides flexibility to meet specific application requirements.
D: Responsibility for OS security:
* With root access, customers must manage OS security, including updates and patches.
* Oracle provides tools to facilitate patching, but the responsibility lies with the customer.
Why the other options are incorrect:
* A. Restricted SSH access:SSH access is allowed for VM DB systems.
* C. Oracle-managed OS patching:Oracle does not automatically patch the OS; this is a customer responsibility.
* E. Initial OS installation by customers:The OS is pre-installed, but ongoing maintenance is customer- driven.

NEW QUESTION # 73
When migrating to MySQL HeatWave on Oracle Cloud Infrastructure (OCI), what is the recommended method for securely transferring large database backups?

- A. Shipping physical hard drives containing the backup files to the OCI data center.
- B. Using the Oracle Cloud Infrastructure Data Transfer Service with physical storage appliances.
- C. Transferring the backup files directly over the public internet using FTP.
- D. Creating a secure VPN connection and transferring the backup files using scp.
- E. Use of Data Pump with a database link.

Answer: B

Explanation:
Secure Transfer with OCI Data Transfer Service:
TheOCI Data Transfer Serviceis designed to securely transfer large datasets, including database backups, to the cloud. It involves:
* Using physical storage appliancesto copy data locally and then shipping these devices to OCI data centers.
* Data isencrypted and securely transported, minimizing the risks associated with online transfers.
* This method is cost-effective and practical forterabytes or petabytes of data, avoiding bandwidth limitations and reducing transfer time.
Why the other options are incorrect:
* A:FTP over the public internet is insecure and slow.
* B:Physical hard drives without encryption and secure handling increase data breach risks.
* D:SCP over VPN is secure but impractical for extremely large datasets.
* E:Data Pump is useful for database-to-database transfers, not large file migrations.

NEW QUESTION # 74

......

you can pass the 1z0-1093-25 exam for the first time with our help. Perhaps you still cannot believe in our 1z0-1093-25 study materials. You can browser our websites to see other customers' real comments. Almost all customers highly praise our 1z0-1093-25 Exam simulation. In short, the guidance of our 1z0-1093-25 practice questions will amaze you. Put down all your worries and come to purchase our 1z0-1093-25 learning quiz! You won't regret for your wise choice.

1z0-1093-25 New Dumps Sheet: https://www.vce4plus.com/Oracle/1z0-1093-25-valid-vce-dumps.html

Oracle Valid 1z0-1093-25 Exam Sample Our product convey you more important information with less amount of the questions and answers, Our expert staff is in charge of editing and answering all real test questions so that Oracle 1z0-1093-25 exam braindumps are easy to understand and memorize, Just click on the mouse to have a look, giving you a chance to try on our 1z0-1093-25 learning guide, In the progress of practicing our 1z0-1093-25 study materials, our customers improve their abilities in passing the 1z0-1093-25 exam, we also upgrade the standard of the exam knowledge.

Program a robot to deal with the unexpected" 1z0-1093-25 Practice Exam Pdf using robot S.P.A.C.E.S, Several chapters updated from the previous edition arevirtually new, receiving a major overhaul Standard 1z0-1093-25 Answers that in some cases meant all but rewriting them from scratch to make them current.

1z0-1093-25 Certification Training: Oracle Cloud Database Services 2025 Professional & 1z0-1093-25 Study Guide & 1z0-1093-25 Exam Bootcamp

Our product convey you more important information 1z0-1093-25 with less amount of the questions and answers, Our expert staff is in charge of editing and answering all real test questions so that Oracle 1z0-1093-25 exam braindumps are easy to understand and memorize.

Just click on the mouse to have a look, giving you a chance to try on our 1z0-1093-25 learning guide, In the progress of practicing our 1z0-1093-25 study materials, our customers improve their abilities in passing the 1z0-1093-25 exam, we also upgrade the standard of the exam knowledge.

Now, our 1z0-1093-25 valid dumps pdf may be your best study material.
