

Latest EDGE-Expert Exam Testking Is Valid to Pass Excellence in Design for Greater Efficiencies (EDGE Expert) Exam

P.S. Free & New EDGE-Expert dumps are available on Google Drive shared by Actual4test: https://drive.google.com/open?id=175bjzElAe_U0A9NJTkQnZw6NrP-9i

The most important is that you just only need to spend 20 to 30 hours on practicing EDGE-Expert exam questions before you take the exam, therefore you can arrange your time to balance learning and other things. Of course, you care more about your test pass rate. We offer you more than 99% pass guarantee if you are willing to use our EDGE-Expert test guide and follow our plan of learning. If you fail to pass the exam with our Excellence in Design for Greater Efficiencies (EDGE Expert) Exam torrent prep, you will get a full refund. However, if you want to continue studying our course, you can still enjoy comprehensive services through EDGE-Expert Torrent prep. We will update relevant learning materials in time. And we guarantee that you can enjoy a discount of more than one year.

The EDGE EDGE-Expert certification exam is one of the hottest and career-oriented Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exams. With the Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam you can validate your skills and upgrade your knowledge level. By doing this you can learn new in-demand skills and gain multiple career opportunities. To do this you just need to enroll in the EDGE EDGE-Expert Certification Exam and put all your efforts to pass this important EDGE EDGE-Expert Exam Questions. However, you should keep in mind that to get success in the Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam is not an easy task.

100% Pass Quiz EDGE - EDGE-Expert Accurate Latest Exam Testking

If you want to ace the Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) test, the main problem you may face is not finding updated EDGE-Expert practice questions to crack this test quickly. After examining the situation, the Actual4test has come with the idea to provide you with updated and actual EDGE EDGE-Expert Exam Dumps so you can pass Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) test on the first attempt. The product of Actual4test has many different premium features that help you use this product with ease. The study material has been made and updated after consulting with a lot of professionals and getting customers' reviews.

EDGE Excellence in Design for Greater Efficiencies (EDGE Expert) Exam Sample Questions (Q14-Q19):

NEW QUESTION # 14

Who are licensed to train candidates as EDGE Experts and EDGE Auditors?

- A. Accredited EDGE Experts
- B. EDGE Certification Providers
- C. EDGE Auditors
- D. EDGE Faculty

Answer: D

Explanation:

Training for EDGE Experts and Auditors is a structured process managed by specific entities authorized by the IFC. The EDGE Expert and Auditor Protocols specify: "EDGE Faculty are licensed by IFC to deliver training for candidates aspiring to become EDGE Experts and EDGE Auditors. These trainers are selected and trained by IFC to ensure consistency and quality in the delivery of EDGE training programs" (EDGE Expert and Auditor Protocols, Section 3.2: Training Requirements). Option A, EDGE Faculty, directly matches this description. Option B (EDGE Auditors) is incorrect, as auditors perform audits, not training, per the protocols: "EDGE Auditors are responsible for verifying project compliance, not for training others" (EDGE Expert and Auditor Protocols, Section 2.2: Roles). Option C (EDGE Certification Providers) is also incorrect, as their role is to issue certifications, not conduct training: "Certification Providers like GBCI issue EDGE certificates but do not train candidates" (EDGE Certification Protocol, Section 1.3: Certification Process).

Option D (Accredited EDGE Experts) is wrong, as Experts advise on projects, not train others, as per the protocols: "EDGE Experts provide consultancy services to project teams" (EDGE Expert and Auditor Protocols, Section 2.1: Roles).

Reference:EDGE Expert and Auditor Protocols, Section 3.2: Training Requirements, Section 2.1: Roles, Section 2.2: Roles; EDGE Certification Protocol, Section 1.3: Certification Process.

NEW QUESTION # 15

An EDGE Auditor is auditing a hospital design for Preliminary Certification. The EDGE Client has included photovoltaics as one of the energy measures resulting in an overall 21% saving in energy. The Auditor observes the photovoltaics are facing the wrong direction. What action should the Auditor take?

- A. Assess the energy measures as they are presented to you, without changing the photovoltaic selection.
- B. Contact the design team directly and suggest a better orientation for the photovoltaics.
- C. Reject photovoltaics from the selected set of energy measures and notify the Client regarding the orientation.
- D. Adjust the area of photovoltaic panels in the assessment to allow for reduction in energy output.

Answer: A

Explanation:

The role of an EDGE Auditor is to verify the project's self-assessment as submitted, not to modify or redesign the project. The EDGE Expert and Auditor Protocols clearly define the Auditor's responsibilities: "During an audit, the EDGE Auditor must assess the energy measures as presented in the self-assessment, without altering the design or selections made by the Client. If discrepancies are found, such as incorrect orientation of photovoltaics, the Auditor should note the issue in the audit report but proceed with the assessment as submitted, allowing the Certification Provider to make the final decision" (EDGE Expert and Auditor Protocols, Section 4.1: Audit Process). Option C, assess the energy measures as they are presented without changing the photovoltaic selection, aligns with this protocol. Option A (contact the design team and suggest a better orientation) oversteps the Auditor's role, as they are not to provide design advice: "Auditors must not engage in design consultancy during an audit to avoid conflicts of interest" (EDGE Expert and Auditor Protocols, Section 2.3: Conflict of Interest). Option B (adjust the area of photovoltaic panels) involves modifying the assessment, which is prohibited: "Auditors cannot modify the Client's self-assessment; they must evaluate it as submitted" (EDGE Certification Protocol, Section 3.2: Audit Requirements). Option D (reject photovoltaics and notify the Client) is also incorrect, as Auditors do not have the authority to reject measures outright: "Rejection of measures is the responsibility of the Certification Provider, not the Auditor" (EDGE Certification Protocol, Section 3.3: Certification Decision). Thus, the Auditor should assess as presented (Option C).

Reference:EDGE Expert and Auditor Protocols, Section 4.1: Audit Process, Section 2.3: Conflict of Interest; EDGE Certification Protocol, Section 3.2: Audit Requirements, Section 3.3: Certification Decision.

NEW QUESTION # 16

What are the benefits of using a pool cover that are recognized in EDGE?

- A. Reduce chemical consumption and that of cleaning products
- B. Reduce both water and energy demand
- C. Increase solar control and comfort
- D. Require less maintenance and work from employees

Answer: B

Explanation:

Pool covers are a water and energy efficiency measure in EDGE, particularly relevant for hotels with swimming pools. The EDGE

User Guide outlines their benefits: "Pool covers reduce water demand by minimizing evaporation and energy demand by reducing the need for heating, as they retain heat in the pool.

In EDGE, the use of pool covers is recognized for its dual impact on reducing both water and energy consumption" (EDGE User Guide, Section 5.3: Additional Water Efficiency Measures). Option B, reduce both water and energy demand, directly aligns with this description. Option A (increase solar control and comfort) is incorrect, as pool covers are not recognized in EDGE for solar control or occupant comfort but for resource savings. Option C (require less maintenance and work from employees) and Option D (reduce chemical consumption and that of cleaning products) are potential secondary benefits but are not quantified or recognized in EDGE calculations, as confirmed by: "EDGE focuses on measurable water and energy savings from pool covers, not on maintenance or chemical use reductions" (EDGE Methodology Report Version 2.0, Section 4.3: Water Efficiency Calculations). Thus, Option B is the correct answer.

Reference: EDGE User Guide Version 2.1, Section 5.3: Additional Water Efficiency Measures; EDGE Methodology Report Version 2.0, Section 4.3: Water Efficiency Calculations.

NEW QUESTION # 17

Which of the following measures provides the most attractive solution in the EDGE software for a hospital?

- A. Insulation of external walls with 3% saving and 9 years payback
- B. External shading with 7% saving and 8 years payback
- **C. Solar hot water system with a saving of 15% and payback of 6 years**
- D. Water-cooled chillers with 20% energy saving and 10 years payback

Answer: C

Explanation:

In the EDGE software, the "most attractive solution" for a project, such as a hospital, is determined by balancing resource savings (energy, water, or materials) with financial payback periods, as these metrics are key outputs in the EDGE App Results Bar. The EDGE User Guide explains how to evaluate measures: "The EDGE software prioritizes measures that offer the highest resource savings with the shortest payback periods, making them the most attractive solutions for project teams. For hospitals, where energy and water demands are high due to continuous operation, measures with significant savings and faster payback are typically preferred" (EDGE User Guide, Section 2.4: Interpreting EDGE Results). Let's evaluate the options: Option A (external shading) offers 7% savings (likely energy, as shading reduces cooling loads) with an 8-year payback. Option B (insulation of external walls) provides 3% savings (also energy) with a 9-year payback.

Option C (solar hot water system) delivers 15% savings (energy, as it reduces the need for electric or gas water heating) with a 6-year payback. Option D (water-cooled chillers) achieves 20% energy savings but with a 10-year payback. The EDGE Methodology Report further clarifies: "For hospitals, measures like solar hot water systems are often attractive because they address high hot water demands (e.g., for sterilization, showers), offering substantial energy savings with relatively short payback periods due to consistent usage" (EDGE Methodology Report Version 2.0, Section 5.3: Energy Measures). Comparing the options, Option C has the second-highest savings (15%) and the shortest payback (6 years), making it more attractive than Option D (20% savings but 10 years payback), Option A (7% savings, 8 years), and Option B (3% savings, 9 years). The EDGE User Guide also notes: "A payback period of 6 years is generally considered attractive in EDGE, especially for measures with savings above 10%, as it aligns with typical investment horizons for building owners" (EDGE User Guide, Section 2.4: Interpreting EDGE Results). Additionally, for a hospital, hot water demand is significant, making solar hot water systems particularly effective: "Hospitals benefit greatly from solar hot water systems, achieving energy savings of 10-20% with payback periods often under 7 years due to high hot water usage" (EDGE Methodology Report Version 2.0, Section 4.2: Energy Savings Calculations). Thus, the solar hot water system (Option C) is the most attractive solution due to its balanced savings and shortest payback period.

Reference: EDGE User Guide Version 2.1, Section 2.4: Interpreting EDGE Results; EDGE Methodology Report Version 2.0, Section 5.3: Energy Measures, Section 4.2: Energy Savings Calculations.

NEW QUESTION # 18

How often should the EDGE Zero Carbon certification be renewed?

- A. Every four years if using carbon offsets, or every two years if using 100% renewable energy
- B. Initially after four years, subsequently every two years
- C. Every two years if using carbon offsets, or every four years if using 100% renewable energy
- **D. Initially after two years, subsequently every four years**

Answer: D

Explanation:

EDGE Zero Carbon certification requires periodic renewal to ensure ongoing compliance with zero carbon standards, particularly since it often involves carbon offsets or renewable energy commitments that may change over time. The EDGE Certification Protocol specifies the renewal timeline: "EDGE Zero Carbon certification must be renewed initially after two years to verify that the building continues to meet the zero carbon requirements, including the use of carbon offsets or renewable energy. Subsequently, renewal is required every four years to ensure long-term compliance with the standard" (EDGE Certification Protocol, Section 2.3: Certification Levels). Option A, initially after two years, subsequently every four years, directly matches this requirement. Option B (initially after four years, subsequently every two years) reverses the timeline, which does not align with the protocol: "The initial two-year renewal ensures early verification, while the four-year cycle applies thereafter to balance monitoring with practicality" (EDGE Certification Protocol, Section 2.3: Certification Levels). Option C (every two years if using carbon offsets, or every four years if using 100% renewable energy) and Option D (every four years if using carbon offsets, or every two years if using 100% renewable energy) introduce a distinction based on the method of achieving zero carbon status, which is not supported by EDGE documentation: "The renewal timeline for EDGE Zero Carbon is consistent regardless of whether carbon offsets or renewable energy are used, as both methods require ongoing verification of performance and offset purchases" (EDGE User Guide, Section 6.3: Advanced Certifications). The EDGE Methodology Report adds: "The two-year initial renewal allows for confirmation of operational data and offset validity, while the four-year subsequent renewal cycle ensures sustained commitment without excessive administrative burden" (EDGE Methodology Report Version 2.0, Section 2.3: Zero Carbon Calculations). The EDGE User Guide further confirms: "EDGE Zero Carbon certification renewal follows a standard schedule of two years initially, then every four years, to maintain the integrity of the zero carbon claim over time" (EDGE User Guide, Section 6.3: Advanced Certifications). Thus, the correct renewal schedule is initially after two years, then every four years (Option A).
Reference: EDGE Certification Protocol, Section 2.3: Certification Levels; EDGE User Guide Version 2.1, Section 6.3: Advanced Certifications; EDGE Methodology Report Version 2.0, Section 2.3: Zero Carbon Calculations.

NEW QUESTION # 19

.....

If you are looking to be EDGE EDGE-Expert certified. Actual4test is here to provide you with the best Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam dumps through which you can clear your Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) certification exam. We are providing practice exams in three formats including PDF which is the downloadable file from which you can study for your Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam questions and our Web-based application provides you the facility to assess yourself without installing any software on your device to prepare you for Excellence in Design for Greater Efficiencies (EDGE Expert) Exam (EDGE-Expert) exam dumps.

Test EDGE-Expert Quiz: https://www.actual4test.com/EDGE-Expert_examcollection.html

Once you click the "click-to-buy" links, you will pay for your EDGE EDGE-Expert valid exam questions at no time, In the process of using the EDGE-Expert study training materials, once users have any questions about our study materials, the user can directly by E-mail us, our products have a dedicated customer service staff to answer for the user, they are 24 hours service for you, we are very welcome to contact us by E-mail and put forward valuable opinion for us, Our actual test dumps cover most of EDGE-Expert certification exams questions and answers.

Anyway, what I want to tell you that our EDGE-Expert exam questions can really help you pass the exam faster, Learn the essentials without getting bogged down in useless theory and without wasting time crunching numbers that don't matter.

Excellence in Design for Greater Efficiencies (EDGE Expert) Exam pass guide: latest EDGE-Expert exam prep collection

Once you click the "click-to-buy" links, you will pay for your EDGE EDGE-Expert Valid Exam Questions at no time, In the process of using the EDGE-Expert study training materials, once users have any questions about our study materials, the user can directly by E-mail us, our products have a dedicated customer EDGE-Expert Exam Revision Plan service staff to answer for the user, they are 24 hours service for you, we are very welcome to contact us by E-mail and put forward valuable opinion for us.

Our actual test dumps cover most of EDGE-Expert certification exams questions and answers, I believe that a lot of people working in the IT industry hope to pass some IT certification exams to obtain the corresponding certifications.

We can promise that we are going to provide EDGE-Expert you with 24-hours online efficient service after you buy our Excellence in Design for Greater Efficiencies (EDGE Expert) Exam guide torrent.
