

2026 300-745: Realistic Updated Designing Cisco Security Infrastructure Test Cram 100% Pass Quiz

The ActualTestsIT is one of the high in demands platforms that are committed to making the Designing Cisco Security Infrastructure Exam 300-745 exam journey successful in a short time period. To achieve this objective the ActualTestsIT is offering real, valid, and updated 300-745 exam dumps. These Designing Cisco Security Infrastructure 300-745 exam questions are the real 300-745 questions that are verified by qualified Designing Cisco Security Infrastructure Exam 300-745 Certification Exam experts. They strive hard and put all their efforts to maintain the top standard of Cisco 300-745 exam dumps. So rest assured that with the ActualTestsIT 300-745 exam questions you will get everything that you need to learn, prepare and pass the difficult Designing Cisco Security Infrastructure 300-745 exam with flying colors.

Our 300-745 learning prep is definitely the latest information on the market. As you know, the contents of many exams are constantly being updated, so you must choose the latest 300-745 practice quiz that can keep up with the times and ensure that the information you obtain is up-to-date. The staff really paid a lot of time and effort to ensure this. Of course, your ability to make a difference is our best reward with the help of the 300-745 Exam Questions.

Valid Updated 300-745 Test Cram & Passing 300-745 Exam is No More a Challenging Task

Someone asked, where is success? Then I tell you, success is in ActualTestsIT. Select ActualTestsIT is to choose success. ActualTestsIT's Cisco 300-745 exam training materials can help all candidates to pass the IT certification exam. Through the use of a lot of candidates, ActualTestsIT's Cisco 300-745 Exam Training materials is get a great response around candidates, and to establish a good reputation. This is turn out that select ActualTestsIT's Cisco 300-745 exam training materials is to choose success.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q66-Q71):

NEW QUESTION # 66

A manufacturing company implemented IoT devices throughout their smart factory and needs a security solution that meets these requirements:

- Protect IoT devices from network-based attacks.
- Visibility into communication patterns.
- Anomaly detection for IoT traffic.

Which firewall technology or feature should be recommended?

- A. transparent firewall
- B. traditional firewall
- C. IPS/IDS
- D. zone-based firewall

Answer: C

Explanation:

An Intrusion Prevention/Detection System (IPS/IDS) provides visibility into IoT communication patterns, protects against network-based attacks, and uses anomaly detection to identify abnormal IoT traffic behaviors. This makes it the most effective solution for securing IoT devices in a smart factory.

NEW QUESTION # 67

A furniture company recently discovered that the endpoint detection and response configuration flagged several malicious files on company-managed laptops. The company must enhance security to prevent known malicious files from being delivered to the network and endpoints. The new solution must enhance the company's ability to inspect and filter incoming traffic effectively. Which security product must be used to accomplish this goal?

- A. next-generation firewall
- B. traditional firewall
- C. host-based firewall
- D. eBPF

Answer: A

Explanation:

A next-generation firewall (NGFW) inspects and filters incoming traffic with deep packet inspection, intrusion prevention, and advanced malware filtering. This prevents known malicious files from reaching the network and endpoints, complementing the company's EDR solution.

NEW QUESTION # 68

A company hosted multiple applications in the Kubernetes environment, using the naming app01, app02, and so on. An app01 user could access app02 data because no security measures are implemented. The administrator decided to place each application within a separate namespace and ensure that the namespaces are completely isolated and cannot communicate with each other. Which solution must be used to accomplish the task?

- A. HTTPRoute
- B. NetworkPolicy
- C. Gateway
- D. RoleBinding

Answer: B

Explanation:

In Kubernetes, a NetworkPolicy controls communication between pods and namespaces. By applying policies that deny cross-namespace traffic, the administrator can ensure each application (e.g., app01, app02) is isolated and cannot access data from other namespaces.

NEW QUESTION # 69

A manufacturing company recently experienced a network-down scenario due to malware spread on the management network. The company wants to implement a solution to detect and mitigate a similar threat in the future and protect the overall network. Which solution meets the requirements?

- A. encrypted threat analysis
- B. IPsec VPN
- C. RADIUS
- D. endpoint detection and response

Answer: D

Explanation:

Endpoint Detection and Response (EDR) provides continuous monitoring, detection, and automated mitigation of malware at the endpoint level. By stopping threats before they spread across the management network, EDR protects the overall infrastructure from similar network-down scenarios in the future.

NEW QUESTION # 70

Which Cisco product provides automated incident response workflows integrated with SIEM and SOAR platforms?

- A. Cisco AnyConnect
- B. Cisco DNA Center
- C. Cisco Catalyst
- **D. Cisco SecureX**

Answer: D

Explanation:

Cisco SecureX integrates multiple security tools with SIEM and SOAR platforms and provides automated incident response workflows to speed up detection, investigation, and remediation.

NEW QUESTION # 71

.....

A Designing Cisco Security Infrastructure will not only expand your knowledge but it will polish your abilities as well to advance successfully in the world of Cisco. Real Cisco 300-745 Exam QUESTIONS certification increases your commitment and professionalism by giving you all the knowledge necessary to work in a professional setting. We have heard from thousands of people who say that using the authentic and Reliable 300-745 Exam Dumps was the only way they were able to pass the 300-745.

Latest 300-745 Exam Questions: <https://www.actualtestsit.com/Cisco/300-745-exam-prep-dumps.html>

Therefore, the choice of the 300-745 study materials is to choose a guarantee, which can give you the opportunity to get a promotion and a raise in the future, even create conditions for your future life. As soon as new questions, topics or other changes are introduced, they are verified and added to ActualTestsIT Latest 300-745 Exam Questions products, Cisco Updated 300-745 Test Cram Our expert's dedicated team is available at the backend to update the material, soon as vendor introduce any changes.

A growing responsibility for revenue, If you are still waiting, still hesitating, or you are very depressed how through Cisco 300-745 certification exam.

Therefore, the choice of the 300-745 Study Materials is to choose a guarantee, which can give you the opportunity to get a promotion and a raise in the future, even create conditions for your future life.

The best 300-745 Study Guide: Designing Cisco Security Infrastructure is the best select - ActualTestsIT

As soon as new questions, topics or other changes are introduced, they are verified 300-745 and added to ActualTestsIT products, Our expert's dedicated team is available at the backend to update the material, soon as vendor introduce any changes.

All we know an attractive certification will help you to find a decent job and get a promotion, such as 300-745, Please just trust me 300-745 test answers will assist you to pass exam casually.
