SAP Certified Associate - Process Data Analyst - SAP Signavio Sample

Questions (Q18-Q23):

NEW QUESTION # 18

Which Widgets can visualize process flows by backtracking the performed events? Note: There are 2 correct answers to this question.

- A. Process Discovery
- B. Correlation
- C. Variant Explorer
- D. Breakdown

Answer: A,C

NEW QUESTION # 19

How can a process analysis be structured in SAP Signavio Process Intelligence? Note: There are 2 correct answers to this question.

- A. Create Chapters to breakdown specific topics.
- B. Create specific Data views.
- C. Create Sub-chapters within existing Chapters.
- D. Create Investigations for specific purposes.

Answer: A,D

Explanation:

In SAP Signavio Process Intelligence, a process analysis can be effectively structured by creating Investigations and Chapters. Investigations are designed for specific analytical purposes, allowing users to delve into particular aspects or metrics of a process to uncover insights and identify areas for improvement.

Chapters, on the other hand, provide a way to break down the analysis into specific topics, making it easier to organize and navigate through the findings. This structured approach enhances the ability to systematically explore various facets of process performance and efficiency. Creating specific Data views and Sub-chapters within existing Chapters are not standard methods of structuring process analysis in SAP Signavio Process Intelligence. NEW QUESTION # 20

Which fields can be used in forms within SAP Signavio Process Governance? Note: There are 3 correct answers to this question.

- A. Text
- B. Yes / No checkbox
- C. Document template
- D. JavaScript
- E. File

Answer: A,B,E

Explanation:

In SAP Signavio Process Governance, forms are used to collect data or display information as part of a workflow. The fields that can be used in these forms include:

* Option B (Yes / No checkbox): This field type allows users to answer a question with a binary choice, making it straightforward for decision-making or confirming a condition within the workflow.

* Option D (File): The file field enables users to upload files as part of the form submission. This can be useful for attaching documents, images, or other relevant files that are pertinent to the workflow step.

* Option E (Text): The text field allows users to enter free-form text. This can be used for descriptions, comments, or any other information that requires text input.

These field types enhance the versatility and functionality of forms in SAP Signavio Process Governance, enabling the collection of various types of data and user inputs as part of process workflows.

NEW QUESTION # 21

What is the benefit of using the Process Funnel Widget?

- A. To visualize the different variants of the process
- **B. To visualize the data 'traffic' that follows a particular pathway in the process**
- C. To show important process KPI's
- D. To benchmark the process

Answer: B

NEW QUESTION # 22

What is the benefit of using the Process Funnel Widget?

- A. To visualize the different variants of the process
- **B. To visualize the data 'traffic' that follows a particular pathway in the process**
- C. To show important process KPI's
- D. To benchmark the process

Answer: B

Explanation:

The Process Funnel Widget is specifically designed to visualize the data 'traffic' that follows a particular pathway within a process. This widget effectively illustrates how data or transactions move through a predefined set of steps or stages in the process, highlighting areas where bottlenecks or drop-offs might occur.

By providing a clear visualization of the flow and conversion rates at each stage, it aids in identifying inefficiencies and areas for improvement. This widget is particularly beneficial in processes with distinct phases or checkpoints, enabling stakeholders to pinpoint where losses occur and where to focus optimization efforts. It is not primarily used for benchmarking, showing KPIs, or visualizing different variants of the process. References: SAP Signavio Process Intelligence Documentation

NEW QUESTION # 23

.....

This version of the software is extremely useful. It may necessitate product license validation, but it does not necessitate an internet connection.
