CIPM Dumps und Test Überprüfungen sind die beste Wahl für Ihre IAPP CIPM Testvorbereitung

Wie kann man die Schulungsunterlagen von IAPP CIPM Zertifizierungsprüfung kaufen, die preiswert und doch von guter Qualität sind? ExamFragen wird den Wunsch der breiten Kandidaten erfüllen, dadurch dass ExamFragen ihnen die echten Testaufgaben und Antworten mit niedrigem Preis und hoher Qualität bietet. Im Vergleich zu den Kollegen in der selben Branche liegt der Umsatz von Schulungsunterlagen über IAPP CIPM Zertifizierung von ExamFragen weit voraus. Nach dem Brauch unserer Schulungsunterlagen von IAPP CIPM ist der bestehensrat fast 100%. Wählen Sie ExamFragen, was bedeutet, dass Sie erfolgreich sein werden.

IAPP Certified Information Privacy Manager (CIPM) CIPM Prüfungsfragen mit Lösungen (Q72-Q77):

72. Frage

SCENARIO

Please use the following to answer the next question:

Perhaps Jack Kelly should have stayed in the U.S. He enjoys a formidable reputation inside the company, Special Handling Shipping, for his work in reforming certain "rogue" offices. Last year, news broke that a police sting operation had revealed a drug ring operating in the Providence, Rhode Island office in the United States.

Video from the office's video surveillance cameras leaked to news operations showed a drug exchange between Special Handling

staff and undercover officers.

In the wake of this incident, Kelly had been sent to Providence to change the "hands off" culture that upper management believed had let the criminal elements conduct their illicit transactions. After a few weeks under Kelly's direction, the office became a model of efficiency and customer service. Kelly monitored his workers' activities using the same cameras that had recorded the illegal conduct of their former co-workers.

Now Kelly has been charged with turning around the office in Cork, Ireland, another trouble spot. The company has received numerous reports of the staff leaving the office unattended. When Kelly arrived, he found that even when present, the staff often spent their days socializing or conducting personal business on their mobile phones. Again, he observed their behaviors using surveillance cameras. He issued written reprimands to six staff members based on the first day of video alone.

Much to Kelly's surprise and chagrin, he and the company are now under investigation by the Data Protection Commissioner of Ireland for allegedly violating the privacy rights of employees. Kelly was told that the company's license for the cameras listed facility security as their main use, but he does not know why this matters. He has pointed out to his superiors that the company's training programs on privacy protection and data collection mention nothing about surveillance video.

You are a privacy protection consultant, hired by the company to assess this incident, report on the legal and compliance issues, and recommend next steps.

What does this example best illustrate about training requirements for privacy protection?

- A. Training on local laws must be implemented for all personnel.
- B. Training must be repeated frequently to respond to new legislation.
- C. Training must include assessments to verify that the material is mastered.
- D. Training needs must be weighed against financial costs.

Antwort: A

73. Frage

As a Data Protection Officer, one of your roles entails monitoring changes in laws and regulations and updating policies accordingly. How would you most effectively execute this responsibility?

- A. Attend workshops and interact with other professionals.
- B. Regularly engage regulators.
- C. Consult an external lawyer.
- D. Subscribe to email list-serves that report on regulatory changes.

Antwort: D

74. Frage

Your marketing team wants to know why they need a check box for their SMS opt-in. You explain it is part of the consumer's right to?

- A. Raise complaints.
- B. Have access.
- C. Be informed.
- D. Request correction.

Antwort: C

Begründung:

Explanation

The marketing team needs a check box for their SMS opt-in because it is part of the consumer's right to be informed. This right means that consumers have the right to know how their personal data is collected, used, shared, and protected by the organization. The check box allows consumers to give their consent and opt-in to receive SMS messages from the organization, and also informs them of the purpose and scope of such messages. The other rights are not relevant in this case, as they are related to other aspects of data processing, such as correction, complaints, and access. References: CIPM Body of Knowledge, Domain IV: Privacy Program Communication, Section A: Communicating to Stakeholders, Subsection 1: Consumer Rights.

75. Frage

SCENARIO

Please use the following to answer the next question:

John is the new privacy officer at the prestigious international law firm - A&M LLP. A&M LLP is very proud of its reputation in the practice areas of Trusts & Estates and Merger & Acquisition in both U.S. and Europe. During lunch with a colleague from the Information Technology department, John heard that the Head of IT, Derrick, is about to outsource the firm's email continuity service to their existing email security vendor - MessageSafe.

Being successful as an email hygiene vendor, MessageSafe is expanding its business by leasing cloud infrastructure from Cloud Inc. to host email continuity service for A&M LLP.

John is very concerned about this initiative. He recalled that MessageSafe was in the news six months ago due to a security breach. Immediately, John did a quick research of MessageSafe's previous breach and learned that the breach was caused by an unintentional mistake by an IT administrator. He scheduled a meeting with Derrick to address his concerns.

At the meeting, Derrick emphasized that email is the primary method for the firm's lawyers to communicate with clients, thus it is critical to have the email continuity service to avoid any possible email downtime. Derrick has been using the anti-spam service provided by MessageSafe for five years and is very happy with the quality of service provided by MessageSafe. In addition to the significant discount offered by MessageSafe, Derrick emphasized that he can also speed up the onboarding process since the firm already has a service contract in place with MessageSafe. The existing on-premises email continuity solution is about to reach its end of life very soon and he doesn't have the time or resource to look for another solution. Furthermore, the off-premises email continuity service will only be turned on when the email service at A&M LLP's primary and secondary data centers are both down, and the email messages stored at MessageSafe site for continuity service will be automatically deleted after 30 days.

Which of the following is the most effective control to enforce MessageSafe's implementation of appropriate technical countermeasures to protect the personal data received from A&M LLP?

- A. MessageSafe must apply appropriate security controls on the cloud infrastructure.
- **B. MessageSafe must notify A&M LLP of a data breach.**
- C. MessageSafe must apply due diligence before trusting Cloud Inc. with the personal data received from A&M LLP.
- D. MessageSafe must flow-down its data protection contract terms with A&M LLP to Cloud Inc.

Antwort: B

76. Frage

SCENARIO

Please use the following to answer the next QUESTION:

Natalia, CFO of the Nationwide Grill restaurant chain, had never seen her fellow executives so anxious. Last week, a data processing firm used by the company reported that its system may have been hacked, and customer data such as names, addresses, and birthdays may have been compromised. Although the attempt was proven unsuccessful, the scare has prompted several Nationwide Grill executives to Question the company's privacy program at today's meeting.

Alice, a vice president, said that the incident could have opened the door to lawsuits, potentially damaging Nationwide Grill's market position. The Chief Information Officer (CIO), Brendan, tried to assure her that even if there had been an actual breach, the chances of a successful suit against the company were slim. But Alice remained unconvinced.

Spencer - a former CEO and currently a senior advisor - said that he had always warned against the use of contractors for data processing. At the very least, he argued, they should be held contractually liable for telling customers about any security incidents. In his view, Nationwide Grill should not be forced to soil the company name for a problem it did not cause.

One of the business development (BD) executives, Haley, then spoke, imploring everyone to see reason. "Breaches can happen, despite organizations' best efforts," she remarked. "Reasonable preparedness is key." She reminded everyone of the incident seven years ago when the large grocery chain Tinkerton's had its financial information compromised after a large order of Nationwide Grill frozen dinners. As a long-time BD executive with a solid understanding of Tinkerton's's corporate culture, built up through many years of cultivating relationships, Haley was able to successfully manage the company's incident response.

Spencer replied that acting with reason means allowing security to be handled by the security functions within the company - not BD staff. In a similar way, he said, Human Resources (HR) needs to do a better job training employees to prevent incidents. He pointed out that Nationwide Grill employees are overwhelmed with posters, emails, and memos from both HR and the ethics department related to the company's privacy program. Both the volume and the duplication of information means that it is often ignored altogether.

Spencer said, "The company needs to dedicate itself to its privacy program and set regular in-person trainings for all staff once a month." Alice responded that the suggestion, while well-meaning, is not practical. With many locations, local HR departments need to have flexibility with their training schedules. Silently, Natalia agreed.

Based on the scenario, Nationwide Grill needs to create better employee awareness of the company's privacy program by doing what?

- A. Improving inter-departmental cooperation.
- B. Communicating to the staff more often.
- **C. Requiring acknowledgment of company memos.**
