Our CBCI learning questions will be your most satisfied assistant. On one hand, our CBCI exam braindumps contain the most important keypoints about the subject which are collected by our professional experts who have been devoting in this career for years. On the other hand, we always keep updating our CBCI Study Guide to the latest.

## BCI Certificate of the Business Continuity Institute (CBCI) Sample Questions (Q77-Q82):

### NEW QUESTION # 77

When setting up any individual exercise, which of the following should be taken into consideration in relation to risks to business as usual?

- A. Pre-existing business as usual commitments should be treated as a secondary consideration to ensure that these commitments do not undermine the exercise activity
- B. Any impacts of the exercise on business as usual should be written off in advance as an acceptable cost of carrying out the exercise
- C. Personnel, including senior managers, should be instructed to consider the exercise as a priority and ignore any risks to business as usual that may arise during the exercise
- **D. The disruption caused by the exercise and any impact should be planned in advance, monitored and controlled during the exercise and minimised**

**Answer: D**

Explanation:

Exercising business continuity plans involves balancing the need to simulate realistic scenarios while minimizing unintended disruption to normal operations. The CBCI 7.0 course instructs that exercise planners must anticipate and control any business as usual impacts through careful planning, monitoring, and mitigation during the exercise. Ignoring risks or dismissing business as usual commitments undermines organizational operations and can reduce support for continuity activities. Managing disruption effectively ensures exercises achieve their objectives without unnecessary operational costs.

Reference: CBCI 7.0 Study Guide, Module 6: Exercising and Validation, pages 127-130.

### NEW QUESTION # 78

The organization's requirements for information and data resources should be considered as part of the Activity Business Impact Analysis (BIA). Which of the following is correct in relation to the Recovery Point Objective (RPO)?

- A. The RPO establishes the amount of time that IT services can be disrupted before the organization is impacted
- **B. The RPO is the point to which information must be restored to enable all priority activities to operate on resumption**
- C. All data users and activities have the same requirements; so only limited consultation is required to determine the RPO
- D. The RPO should comply with data protection requirements

**Answer: B**

Explanation:

Recovery Point Objective (RPO) defines the maximum acceptable age of data to be recovered following a disruption, effectively setting the point in time to which information must be restored. The CBCI 7.0 course explains that RPOs vary depending on the priority and criticality of activities, requiring consultation with data users to ensure continuity needs are met accurately. RPOs are crucial for developing backup and data recovery strategies and directly influence the selection of technical solutions. While data protection compliance is necessary, it is not the primary function of RPO. Additionally, RPO focuses on data restoration points, not on the duration IT services can be disrupted—that relates to Recovery Time Objective (RTO).

Reference:CBCI 7.0 Study Guide, Module 3: Business Impact Analysis and Recovery Objectives, pages 56-59.

#### NEW QUESTION # 79

A shared understanding across the organization of the importance and relevance of the Business Continuity Management System (BCMS) and an understanding of how the BCMS will be used are outcomes of:

- A. Appointing a Business Continuity steering group
- B. Defining the scope of the BCMS
- **C. An effectively communicated Business Continuity policy**
- D. Providing access to a risk assessment

**Answer: C**

Explanation:

An effectively communicated Business Continuity policy sets the tone for organizational commitment and clarifies the purpose, scope, and relevance of the BCMS. The CBCI 7.0 course stresses that clear communication of the policy ensures all personnel understand the BCMS's importance and how it will be applied, fostering engagement and shared responsibility. While defining scope and appointing steering groups are critical, they do not on their own generate organization-wide understanding. The policy acts as the foundational document promoting awareness and alignment.

Reference:CBCI 7.0 Study Guide, Module 1: Establishing the BCMS, pages 15-18.

#### NEW QUESTION # 80

Which of the following is used to determine the organization's prioritised activities and the recovery timeframes and resource requirements?

- A. An exercise
- B. A meeting with owners of product and services activities
- C. A risk assessment
- **D. A Business Impact Analysis (BIA)**

**Answer: D**

Explanation:

The CBCI 7.0 course explains that the Business Impact Analysis (BIA) is the foundational tool used to identify and prioritize organizational activities, establish Recovery Time Objectives (RTOs), and determine the resources required for recovery. The BIA evaluates the impact of disruptions on critical activities and quantifies acceptable downtime, guiding the prioritization of recovery efforts. Unlike risk assessments, which identify potential threats, the BIA focuses on operational impacts and recovery priorities. While meetings with activity owners contribute to data collection, it is the structured BIA process that synthesizes this information into actionable recovery targets. Exercises test plans but do not determine priorities.

Reference:CBCI 7.0 Study Guide, Module 3: Business Impact Analysis, pages 38-42.

#### NEW QUESTION # 81

Which of the following explains the value that can be added when personnel embrace Business Continuity rather than seeing it as something embedded in their job role?

- A. Personnel complete tasks as instructed within the time allocated
- B. Personnel view Business Continuity as additional requirements which demand further training
- **C. Personnel feel committed to Business Continuity and ensure that their tasks are completed promptly and with attention to detail**
- D. Personnel are aware of Business Continuity and attend meetings if required to

**Answer: C**

Explanation:

Personnel who genuinely embrace Business Continuity demonstrate commitment beyond compliance, proactively ensuring tasks related to continuity are completed promptly and with thoroughness. The CBCI 7.0 course stresses that this attitude leads to better preparedness, reduces risks, and enhances recovery capabilities, driving organizational resilience. Merely attending meetings or completing tasks as instructed reflects minimal engagement, whereas embracing continuity fosters ownership and accountability. Reference: CBCI 7.0 Study Guide, Module 4: Business Continuity Culture and Engagement, pages 72-74.

## NEW QUESTION # 82

.....

Our company is professional brand established for compiling CBCI exam materials for candidates, and we aim to help you to pass the examination as well as getting the related certification in a more efficient and easier way. Owing to the superior quality and reasonable price of our CBCI Exam Materials, our company has become a top-notch one in the international market. Our CBCI exam torrents are not only superior in price than other makers in the international field, but also are distinctly superior in the following respects.
