DumpTOP는 많은 분들이 The Open Group OGEA-101인증시험을 응시하여 성공하도록 도와주는 사이트입니다. DumpTOP의 OGEA-101덤프는 모두 엘리트한 전문가들이 만들어낸 만큼 시험문제의 적중률은 아주 높습니다. 거의 100%의 정확도를 자랑하고 있습니다. 아마 많은 유사한 사이트들도 많습니다. 이러한 사이트에서 학습가이드와 온라인서비스도 지원되고 있습니다만 DumpTOP는 이미 이러한 OGEA-101 사이트를 뛰어넘은 실력으로 업계에서 우리만의 이미지를 지키고 있습니다. DumpTOP는 정확한 문제와 답만 제공하고 또한 그 어느 사이트보다도 빠른 업데이트로 여러분의 인증시험을 안전하게 패스하도록 합니다.

The Open Group OGEA-101 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> • Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.
주제 2	<ul style="list-style-type: none"> • Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.
주제 3	<ul style="list-style-type: none"> • ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.
주제 4	<ul style="list-style-type: none"> • Business Architecture: This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.
주제 5	<ul style="list-style-type: none"> • Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
주제 6	<ul style="list-style-type: none"> • Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.

주제 7	<ul style="list-style-type: none"> • Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 exam measures their understanding of content organization and documentation.
주제 8	<ul style="list-style-type: none"> • Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.

OGEA-101시험합격 완벽한 덤프샘플문제

만약DumpTOP선택여부에 대하여 망설이게 된다면 여러분은 우선 우리DumpTOP 사이트에서 제공하는The Open Group OGEA-101관련자료의 일부분 문제와 답 등 샘플을 무료로 다운받아 체험해볼 수 있습니다. 체험 후 우리의 DumpTOP에 신뢰감을 느끼게 됩니다. 우리DumpTOP는 여러분이 안전하게The Open Group OGEA-101시험을 패스할 수 있는 최고의 선택입니다. DumpTOP을 선택함으로써 여러분은 성공도 선택한것이라고 볼수 있습니다.

최신 Enterprise Architecture OGEA-101 무료샘플문제 (Q160-Q165):

질문 # 160

Which of the following is included as part of Architecture Governance?

- A. Creating and maintaining the Statement of Architecture Work through out the ADM cycle
- B. Ensuring compliance with internal and external standards and regulatory obligations
- C. Managing Stakeholders and their requirements
- D. Interacting with the CxO level on Enterprise Architecture

정답: B

설명:

Ensuring compliance with internal and external standards and regulatory obligations is one of the activities included as part of Architecture Governance. Architecture Governance is the practice and orientation by which enterprise architectures and other architectures are managed and controlled at an enterprise-wide level.

It involves establishing processes, roles, responsibilities, policies, and standards to ensure that architectures are aligned with the enterprise's strategy and objectives, and meet the quality and performance requirements.

Reference: The TOGAF Standard | The Open Group Website, Section 3.3.6 Architecture Governance.

질문 # 161

Complete the following sentence. In the ADM, documents which are under development and have not undergone any formal review and approval process are _____

- A. known as "Version 0.1"
- B. called "draft"
- C. invalid
- D. in between phases

정답: B

질문 # 162

Which ADM Phase includes creation of an Enterprise Architecture Capability?

- A. Phase G
- B. Phase A
- C. Phase H
- D. Preliminary Phase

정답: D

설명:

The Preliminary Phase is the phase in TOGAF where an organization establishes or enhances its Enterprise Architecture Capability. This includes defining governance structures, roles, responsibilities, processes, tools, and architectural principles. The objective is to prepare the organization to successfully execute the ADM.

Phase A focuses on Architecture Vision for a specific initiative, not on creating the overall EA capability.

Phase G deals with implementation governance, and Phase H focuses on architecture change management.

None of these phases are responsible for establishing the EA practice itself.

The Preliminary Phase answers foundational questions such as how architecture will be governed, who owns architecture decisions, how compliance will be enforced, and how architecture work will be integrated with other organizational processes. Therefore, creation of an Enterprise Architecture Capability clearly belongs to the Preliminary Phase.

질문 # 163

Complete the sentence. The four purposes that typically frame the planning horizon, depth and breadth of an Architecture Project, and the contents of the EA Repository are Strategy, Portfolio,

- A. Segment, and End-to-end Target Architecture.
- B. Discreet, and Cohesive.
- C. Project, and Solution Delivery.
- D. Subordinate, and Superior Architecture.

정답: A

설명:

The planning horizon, depth, and breadth of an Architecture Project, along with the contents of the EA Repository, are typically framed by Strategy, Portfolio, Segment, and End-to-end Target Architecture. The 'Segment' refers to a part of the organization, typically addressed in a Segment Architecture, while 'End-to-end Target Architecture' encompasses the complete view of the planned architecture across the entire organization.

질문 # 164

Which of the following best describes the class of information known as the Reference Library within the Architecture Repository?

- A. Guidelines and templates used to create new architectures
- B. Processes to support governance of the Architecture Repository
- C. A record of the governance activity across the enterprise
- D. Specifications to which architectures must conform

정답: A

설명:

The class of information known as the Reference Library within the Architecture Repository contains guidelines and templates used to create new architectures. The Reference Library provides a set of resources that can be leveraged or customized for specific architecture development purposes. It includes generic building blocks, patterns, models, standards, frameworks, methods, techniques, best practices, etc. Reference:

The TOGAF Standard | The Open Group Website, Section 2.4 Architecture Repository.

질문 # 165
