### NEW QUESTION # 102

During Tranche 1, the Call Centre Manager had played an active role in the programme as a BCM. However, at the end of the tranche, it was decided that they were not required during Tranche 2. In addition, the CTO was appointed as a new BCM for Tranche 2.

Which principle is being applied by the 'organization' theme, and why?

- **A. Align with priorities, because the new BCM is able to provide support to operations to deliver the Tranche 2 outcomes**
- B. Lead with purpose, because the new BCM has a more senior role in UU and will be able to lead the work in Tranche 2
- C. Lead with purpose, because the appointment of the new BCM should result in more integrated decisionmaking in Tranche 2
- D. Align with priorities, because the appointment of the new BCM shows senior commitment to Tranche 2

**Answer: A**

Explanation:

Comprehensive and Detailed 200 to 250 words of Explanation From Exact Extract of project- programme-and-portfolio-management of 5th Edition MSP:

The 'Align with priorities' principle ensures that the programme structure and its resources remain focused on the current needs of the business as it moves through the transformational flow. The Organization Theme supports this by ensuring that the right people are in the right roles at the right time. Unlike project management roles, MSP roles-specifically the Business Change Manager (BCM)-can and should change as the programme moves between tranches.

In this scenario, Tranche 2 likely involves technical or systems-led changes (indicated by the appointment of the Chief Technology Officer as BCM). Option C is the correct answer because the BCM's primary responsibility is to bridge the gap between the programme and the business operations to ensure that outcomes are delivered and benefits are realized. By changing the BCM to reflect the specific focus of Tranche 2, the programme ensures that the person with the most relevant operational authority and "priority" alignment is leading the transition. This flexibility is a core strength of the MSP framework, allowing the programme to adapt its leadership to the specific nature of the work being performed in different stages of the lifecycle.

### NEW QUESTION # 103

Which of the following is an influencer type of stakeholder?

- **A. Media**
- B. Business partner
- C. Supplier

- D. Management board

**Answer: A**

Explanation:

Media is classified as an influencer stakeholder type because it can shape public opinion and stakeholder perceptions, thus affecting programme success indirectly.

The MSP Practitioner notes: "Media can influence other stakeholders as well," highlighting its role in communication and shaping the narrative around the programme.

Understanding and managing influencer stakeholders like media is critical for reputation management, gaining public support, and mitigating risks associated with negative publicity.
