As long as users buy our products online, our PSM-I practice materials will be shared in five minutes, so hold now, but review it! This may be the best chance to climb the top of your life.

Scrum Professional Scrum Master I Sample Questions (Q137-Q142):

NEW QUESTION # 137

What is the function or purpose of management in Scrum?
(choose the best answer)

- A. To continually monitor staffing levels of the Scrum Team.
- B. To present the Scrum Teams with insights and resources that help them improve.

- C. To identify and remove people that are not working hard enough.
- D. To monitor the productivity of the Developers.

Answer: B

Explanation:

The correct answer is B. To present the Scrum Teams with insights and resources that help them improve. According to the Scrum Guide¹, "The role of management in Scrum is to support the Product Owner with insights and information into high-value product and system capabilities." Management also helps the Scrum Team by providing an environment that fosters agility, learning, and collaboration². Management does not directly control or monitor the work of the Developers, nor does it interfere with the self-organization and autonomy of the Scrum Team³. Management's function in Scrum is to enable and empower the Scrum Team to deliver value and continuously improve.

NEW QUESTION # 138

Which outcome is expected as Scrum Teams mature?

- A. There is no need for a time-boxed Sprint, since time-boxes are only for new Scrum Teams.
- B. A Scrum Master is no longer needed since they are a mature team now.
- **C. They will improve their definition of "Done" to include more stringent criteria.**
- D. Sprint Reviews will no longer be needed.
- E. The Sprint Retrospectives will grow to be longer than 4 hours.

Answer: C

Explanation:

According to the Scrum Guide 1, the definition of "Done" is a formal description of the state of the Increment when it meets the quality measures required for the product. The definition guides the Development Team in creating a "Done" Increment. The definition of "Done" is created by the development organization (or Development Team if none is available from the development organization). The definition of "Done" may vary significantly per Scrum Team, depending on the context. One aspect of Scrum Teams inspecting how they work toward their Product Goal is that they improve their definition of "Done" over time.

NEW QUESTION # 139

Who has the final say on the order of the Product Backlog?

- A. The Stakeholders.
- **B. The Product Owner.**
- C. The CEO.
- D. The Scrum Master.
- E. The Development Team.

Answer: B

NEW QUESTION # 140

The Product Owner makes sure the team selects enough from the Product Backlog for a Sprint to satisfy the stakeholders.

- A. True
- **B. False**

Answer: B

Explanation:

The correct answer is B, because the Product Owner does not make sure the team selects enough from the Product Backlog for a Sprint to satisfy the stakeholders. The Scrum Guide states that "the number of items selected from the Product Backlog for the Sprint is solely up to the Development Team. Only the Development Team can assess what it can accomplish over the upcoming Sprint." Therefore, the Development Team is responsible for choosing the scope of work for a Sprint.

NEW QUESTION # 141

Which two of the following are true about the Scrum Master role? (Choose two.)

- A. At the Sprint Review, the Scrum Master identifies what has been "done" and what has not been "done".
- B. The Scrum Master is responsible for updating the Sprint Burndown.
- **C. The Scrum Master teaches the Development Team to keep the Scrum meetings to their time-box.**
- **D. The Scrum Master helps those outside the team interact with the Scrum Team.**
- E. The Scrum Master assigns tasks to Development Team members when they need work.

Answer: C,D

NEW QUESTION # 142

.....
