## Texas Application for Exemption – Educational Organizations

GLENN HEGAR TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

Nonprofit educational organizations should use this application to request exemption from Texas sales tax, hotel occupancy tax and franchise tax, if applicable.

To receive a state tax exemption as an educational organization, a nonprofit educational organization must be devoted solely to systematic instruction (particularly in the commonly accepted arts, sciences and vocations) with a regularly scheduled curriculum, faculty and an enrolled student body or students in attendance at a place where the educational activities are regularly conducted. An educational organization can also qualify if its activities consist solely of public groups, forums, panels, lectures or other similar programs, and the presentations provide instruction in the commonly accepted arts, sciences and vocations. Exemption from federal tax as a 501(c) organization is not required to qualify for exemption from state tax as an educational organization.

Public and private colleges, universities, junior colleges and community colleges from other states and nations do not qualify as educational organizations exempt from Texas hotel occupancy tax.

The exemption for educational organizations is provided for in Sections 151.310, 156.102 and 171.061 of the Texas Tax Code; more detailed information can be found in Comptroller Rules 3.322, 3.161, 3.541 and 3.583.

Some organizations will not qualify for an exemption as an educational organization as that term is defined in Texas' law and rules, even through their activities may be educational in nature. Such an organization might still qualify for exemption from Texas sales tax and franchise tax, if applicable, under certain sections of the Internal Revenue Code (IRC).

Texas tax law provides an exemption from sales tax on goods and services purchased for use by organizations exempt under IRC Section 501(c)(3), (4), (8), (10) or (19). However, exempt organizations are required to collect tax on most of their sales of taxable items. See *Exempt Organizations - Sales and Purchases*, Publication 96-122.

Texas law also provides an exemption from franchise taxes for corporations exempted from the federal income tax under IRC Section 501(c)(2), (3), (4), (5), (6), (7), (8), (10), (16), (19) or (25).

If your organization has been granted federal tax exemption under one of the qualifying sections listed above, your organization will be granted an exemption from Texas sales tax, or sales and franchise tax, on the basis of the Internal Revenue Service (IRS) exemption, as required by state law.

Organizations that qualify for exemption based on the federal tax exemption are not exempt from hotel occupancy tax because the hotel occupancy tax law does not recognize any federal exemptions.

The laws, rules and other information about exemptions are online at [www.Comptroller.Texas.Gov/taxes/exempt/](http://www.Comptroller.Texas.Gov/taxes/exempt/).

You can submit your completed application along with required documentation by mail, fax, or email

Mail: Texas Comptroller of Public Accounts  
Exempt Organizations Section  
P.O. Box 13528  
Austin, Texas 78711

FAX: (512) 475-5862  
Email: [exempt.orgs@cpa.texas.gov](mailto:exempt.orgs@cpa.texas.gov)

We process applications in the order they are received. To establish claimed exemptions, we may require additional information. After review of the material, we will inform the organization in writing if it qualifies for exemption. The Comptroller, or an authorized representative of the Comptroller, may audit the records of an exempt organization at any time during regular business hours to verify the validity of the organization's exempt status.

## Unparalleled AP-207 Test Vce | Amazing Pass Rate For AP-207 Exam | Fantastic AP-207: Energy and Utilities Cloud Accredited Professional

This kind of polished approach is beneficial for a commendable grade in the Energy and Utilities Cloud Accredited Professional (AP-207) exam. While attempting the exam, take heed of the clock ticking, so that you manage the Salesforce AP-207 questions in a time-efficient way. Even if you are completely sure of the correct answer to a question, first eliminate the incorrect ones, so that you may prevent blunders due to human error.

## Salesforce Energy and Utilities Cloud Accredited Professional Sample Questions (Q67-Q72):

### NEW QUESTION # 67

An energy company provides gas, electricity, and warranty services to its customers. When a customer calls for help, the agent needs to see the products and services they have purchased.

Which object does the Energy and Utilities Cloud data model use to store this information?

- A. Account
- B. Contract
- C. Asset
- D. Premise

**Answer: A**

### NEW QUESTION # 68

An energy company wants to show users monthly billed usage information when the user starts the Move Out guided business processes in Energy and Utility Cloud, The usage information is stored in a third-party system with available APIs.

Which three steps must the consultant complete to achieve the required outcome?

Choose 3 answers

- A. Configure integration with Meter Data Management System
- B. Configure Integration Procedure to fetch the data from the third-party system using available APIs.
- C. Configure integration with Customer Information System.
- D. Create a new Move Out process to invoke the Integration Procedure and present the result to the user.
- E. Modify the standard Move Out process to invoke the Integration Procedure and present the result to the user,

**Answer: B,D,E**

### NEW QUESTION # 69

An energy company must include a clause about additional operational costs in contracts that exceed 10 MegaWatts in their DOCX Template. The information about energy volume is already available in the Contract object.

How should the administrator proceed to include this condition in the document template to show this clause only when the contract energy volume is higher than 10 MegaWatts?

- A. Create a custom formula in DataRaptor Extract
- B. Create a custom field in the Contract object
- C. Create a custom formula in DataRaptor Load.
- D. Create an Apex Class

**Answer: A**

Explanation:

To include a specific clause in a DOCX template based on the condition that the contract energy volume is higher than 10 MegaWatts, creating a custom formula within a DataRaptor Extract is the appropriate approach. This method allows for dynamic content generation in documents based on data-driven conditions. By utilizing a custom formula in DataRaptor Extract, the administrator can specify that the additional operational costs clause should only appear in the generated document when the contract's energy volume exceeds the defined threshold. Reference = The use of DataRaptor for dynamic document content generation is detailed in the Salesforce Industries CPQ documentation, where it outlines how to use DataRaptor Extracts to manipulate and conditionally display data in templates: [https://help.salesforce.com/articleView?id=industries\\_cpq\\_dataptor.htm&type=5](https://help.salesforce.com/articleView?id=industries_cpq_dataptor.htm&type=5)

### NEW QUESTION # 70

An energy company has implemented Energy and Utilities Cloud in its call center, and they're now considering extending Salesforce for their customer self-service portal.

What value would the Energy and Utilities Cloud Communities license provide compared to standard Salesforce Communities?

- A. Energy and Utilities Cloud includes a self-service portal built on communities that cannot be further modified to make
- **B. Energy and utilities Cloud extends the data model, user interfaces, integrations, and processes used in the call center to the self-service communities' website**
- C. Energy and Utilities Cloud provides the same data model and tools as the call center to build the self-service portal, but the components used in the call center cannot be reused
- D. Energy and utilities Cloud for Communities comes with a set of customizations that would otherwise have to be created through Apex

**Answer: B**

Explanation:  
implementations simple and easy

Explanation:

The Energy and Utilities Cloud Communities license provides significant value by extending the same data model, user interfaces, integrations, and processes used in the call center to the self-service portal built with Salesforce Communities. This ensures a consistent and integrated experience across customer service touchpoints, enabling customers to access personalized services, manage their accounts, and interact with the utility provider through a self-service portal that mirrors the functionality available to call center agents. Reference = Salesforce Energy and Utilities Cloud documentation on community portals and self-service highlights the ability to extend call center capabilities to customer self-service platforms, providing a cohesive and efficient customer experience: <https://www.salesforce.com/products/community-cloud/industries/energy-utilities/>

### NEW QUESTION # 71

An energy company implemented Energy and Utilities Cloud and deployed the Utility Self-Serve Portal. The next phase of the implementation includes a requirement to show a consumption history graph on the Self-Serve Portal. What three things are needed to meet the requirement?

- A. Develop a new graph component to show the usage data, and connect it to the data source using integration procedures.
- **B. Develop or configure integration between Energy and Utilities Cloud and the energy company's customer information system to get the monthly usage information**
- **C. Use a standard graph component available in the Utility Self-Serve Portal Application as a starting point Then, modify the component and connect it to the right data source using integration procedures**
- **D. Develop or configure integration between Energy and Utilities Cloud and the source system that contains the required data**
- E. Ask IT where the most suitable source of data that provides the required usage detail is. Assess the next steps based on the findings.

**Answer: B,C,D**

Explanation:

To display a consumption history graph on the Self-Serve Portal for an energy company that has implemented Salesforce Energy and Utilities Cloud, the following steps are essential: B. Use a standard graph component available within the Utility Self-Serve Portal Application as a starting point. Then, modify this component as necessary and connect it to the appropriate data source using integration procedures. This approach leverages existing resources to efficiently meet the requirement. C. Develop or configure integration between Salesforce Energy and Utilities Cloud and the source system that contains the required data. This integration ensures that the graph component has access to accurate and up-to-date consumption data. D. Develop or configure integration between Salesforce Energy and Utilities Cloud and the energy company's customer information system to obtain monthly usage information. This specific integration provides the detailed consumption data needed for the graph.

These steps collectively enable the display of consumption history in a graphical format, enhancing the user experience on the Self-Serve Portal by providing valuable insights into energy usage. Reference = Salesforce documentation on Energy and Utilities Cloud and development guides for creating and integrating custom components within Salesforce communities offer insights into fulfilling such requirements: <https://developer.salesforce.com/docs>

### NEW QUESTION # 72

.....

Choosing from a wide assortment of practice materials, rather than aiming solely to make a profit from our AP-207 latest material, we are determined to offer help. Quick purchase process, free demos and various versions and high quality AP-207 real questions are all features of our advantageous practice materials. With passing rate up to 98 to 100 percent, you will get through the AP-207 Practice Exam with ease. So they can help you save time and cut down additional time to focus on the AP-207 practice exam review only. And higher chance of desirable salary and managers' recognition, as well as promotion will not be just dreams.
