

C_AIG_2412 Test Dates - C_AIG_2412 Valid Test Pdf

P.S. Free & New C_AIG_2412 dumps are available on Google Drive shared by PracticeTorrent: <https://drive.google.com/open?id=1XDiMr67I8AJ7ot1r8qkWzVJD46ryWol>

You must improve your skills and knowledge to stay current and competitive. You merely need to obtain the C_AIG_2412 certification exam badge in order to achieve this. You must pass the C_AIG_2412 Exam to accomplish this, which can only be done with thorough exam preparation. Download the C_AIG_2412 exam questions right away for immediate and thorough exam preparation.

SAP C_AIG_2412 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers SAP's Generative AI Hub, which acts as the central layer for designing and managing generative AI solutions. The exam tests knowledge of building, deploying, and connecting AI models to business scenarios through the Hub. Emphasis is placed on leveraging the Hub to streamline workflows and ensure scalable solutions that align with organizational needs.
Topic 2	<ul style="list-style-type: none">Advanced AI Techniques with SAP's Generative AI Hub: This section of the exam measures the skills of Solution Architects and covers advanced techniques available through SAP's Generative AI Hub. Candidates are assessed on their ability to design, optimize, and scale generative AI solutions that go beyond basic implementations. The focus includes applying sophisticated strategies to integrate advanced models, manage performance, and align AI-driven outcomes with complex enterprise goals.
Topic 3	<ul style="list-style-type: none">SAP AI Core: This section of the exam measures the skills of AI Developers and covers the fundamental components of SAP AI Core. Candidates are assessed on their ability to work with the core services that allow machine learning models to be deployed and managed within SAP environments. The focus is on understanding how AI Core fits into SAP's ecosystem and ensures smooth integration with enterprise applications.

Topic 4	<ul style="list-style-type: none"> • Large Language Models (LLMs): This section of the exam measures the skills of AI Developers and covers the practical use of large language models in SAP environments. Candidates are expected to understand how LLMs can be applied to automate tasks, enhance decision-making, and improve user interaction within SAP systems. The exam evaluates knowledge of handling model selection, fine-tuning, and adapting LLMs to specific business cases.

C_AIG_2412 Valid Test Pdf & Pass C_AIG_2412 Rate

After the client pay successfully they could receive the mails about C_AIG_2412 guide questions our system sends by which you can download our test bank and use our study materials in 5-10 minutes. The mail provides the links and after the client click on them the client can log in and gain the C_AIG_2412 Study Materials to learn. The procedures are simple and save clients' time. For the client the time is limited and very important and our product satisfies the client's needs to download and use our C_AIG_2412 practice engine immediately.

SAP Certified Associate - SAP Generative AI Developer Sample Questions (Q45-Q50):

NEW QUESTION # 45

Which of the following must you do before connecting to a dataset in order to train a machine learning model in SAP AI Core?

Note: There are 2 correct answers to this question.

- A. Store the dataset in the SAP HANA Vector Engine.
- B. Provide the storage secret to access the dataset.
- C. Store the dataset in a hyperscaler object store.
- D. Grant access rights to the SAP BTP cockpit.

Answer: B,C

NEW QUESTION # 46

Which neural network architecture is primarily used by LLMs?

- A. Sequential encoder-decoder architecture
- B. Transformer architecture with self-attention mechanisms
- C. Convolutional Neural Networks (CNNs)
- D. Recurrent neural network architecture

Answer: B

NEW QUESTION # 47

Match the components of a Retrieval Augmented Generation architecture to the diagram.

Answer:

Explanation:

Explanation:

A screenshot of a computer Description automatically generated

NEW QUESTION # 48

What is Machine Learning (ML)?

- A. A subset of AI that focuses on enabling computer systems to learn and improve from experience or data.
- B. A technology that equips machines with human-like capabilities such as problem-solving, visual perception, and decision-making.
- C. A form of AI that only focuses on creating new content, including text, images, sound, and videos.
- D. A statistical method for data processing that does not involve any AI techniques.

Answer: B,C,D

NEW QUESTION # 49

What contract type does SAP offer for AI ecosystem partner solutions?

- A. Annual subscription-only contracts
- B. Pay-as-you-go for each partner service
- C. All-in-one contracts, with services that are contracted through SAP
- D. Bring Your Own License (BYOL) for embedded partner solutions

Answer: C

Explanation:

SAP collaborates with a wide ecosystem of partners, including leading general-purpose AI vendors, to provide tailored solutions to its customers. Through the SAP Store, customers have access to numerous partner applications and a variety of tools, allowing them to choose solutions that best fit their requirements.

Contractual Approach:

* All-in-One Contracts:SAP offers all-in-one contracts for AI ecosystem partner solutions, where services are white-labeled and contracted directly through SAP. This approach simplifies the procurement process for customers, as they engage with SAP as the single point of contact for both SAP and partner services.

* Exclusion of Bring Your Own License (BYOL) Model:SAP does not adopt a "bring your own license" model for these embedded partner solutions. Instead, all services are integrated and provided under unified contracts managed by SAP.

Benefits of This Contractual Model:

* Simplified Procurement:Customers benefit from a streamlined purchasing process, dealing with a single contract and point of contact for multiple services.

* Integrated Solutions:The all-in-one contract ensures that partner solutions are seamlessly integrated with SAP's offerings, providing

a cohesive experience.

* Assured Compliance and Support: By contracting through SAP, customers can be confident in the compliance, security, and support standards upheld across all services.

NEW QUESTION # 50
