We have clear data collected from customers who chose our C-BCBTM-2509 actual tests, the passing rate is 98% percent. So your chance of getting success will be increased greatly by our C-BCBTM-2509 materials.

SAP C-BCBTM-2509 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understanding SAP Signavio and SAP LeanIX Solutions: This section of the exam measures the expertise of Enterprise Architects and focuses on the core concepts of SAP Signavio and SAP LeanIX. It includes understanding how these solutions enhance enterprise architecture management, process intelligence, and business process transformation. Learners explore how SAP Signavio provides visibility into business processes and how SAP LeanIX supports IT landscape transparency, allowing organizations to improve alignment between business goals and IT systems.
Topic 2	<ul style="list-style-type: none">Understanding Business Transformation: This section of the exam evaluates the abilities of Business Transformation Advisors and covers the fundamental principles of business transformation in the digital age. It emphasizes recognizing transformation drivers, defining strategic objectives, and integrating technological innovations into organizational change processes. Candidates are expected to understand how SAP tools and methodologies enable efficient transformation planning, execution, and sustainability across various industries.
Topic 3	<ul style="list-style-type: none">Positioning SAP Business Transformation Management Solutions: This section of the exam measures the skills of SAP Solution Consultants and focuses on understanding how to position SAP Business Transformation Management solutions within diverse enterprise environments. It covers identifying the value proposition of these solutions, aligning them with customer transformation strategies, and demonstrating how they support business agility and operational excellence through data-driven insights and process optimization.
Topic 4	<ul style="list-style-type: none">Understanding WalkMe: This section of the exam evaluates the competencies of Digital Adoption Specialists and covers the role of WalkMe within the SAP ecosystem. It focuses on how WalkMe enhances user experience, drives digital adoption, and simplifies workflows across SAP solutions. Candidates learn how WalkMe guidance and automation tools support end-users in navigating complex SAP applications, ultimately improving productivity, engagement, and system utilization.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q29-Q34):

NEW QUESTION # 29

What unique technology powers WalkMe's AI-first Digital Adoption Platform (DAP), enabling it to understand application context and drive adoption success?

- A. FedRAMP Certified Platform
- B. Library of Pre-Made Content
- C. SAP Ecosystem Integration
- D. DeepUI Technology

Answer: D

Explanation:

DeepUI Technology is the core AI capability within WalkMe's Digital Adoption Platform (DAP). It enables the platform to understand, interpret, and interact with user interfaces dynamically without requiring code-level integration.

"WalkMe's DeepUITM technology leverages AI to recognize and interact with any user interface element, allowing context-aware guidance and automation across applications." Reference:

Within SAP's BTM context, DeepUI allows WalkMe to seamlessly overlay SAP applications, providing real-time assistance and

ensuring users complete digital processes correctly - a core aspect of digital adoption enablement.

"DeepUI powers WalkMe's AI-first approach, enabling contextual understanding of SAP Fiori, S/4HANA, and other applications for consistent adoption experiences." Option B (SAP Ecosystem Integration) describes compatibility, not the underlying AI engine.

Option C (Library of Pre-Made Content) is a feature, not a technology.

Option D (FedRAMP Certified Platform) refers to compliance for U.S. federal systems, not functionality.

Therefore, the verified and accurate answer based on SAP BTM and WalkMe documentation is A: DeepUI Technology.

NEW QUESTION # 30

What does WalkMe Discovery help organizations achieve?

- A. Enhances employee satisfaction scores by 50%
- B. Automates training development processes
- C. Translates all tools into multiple languages automatically
- **D. Identifies underutilized tools and compliance risks**

Answer: D

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM²) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

NEW QUESTION # 31

What benefit does the combined WalkMe-SAP solution offer to enterprises?

- A. Lower software maintenance costs
- B. Enhanced physical supply chain management
- **C. Streamlined user adoption and seamless process integration**
- D. Increased hiring efficiency

Answer: C

Explanation:

The partnership between SAP and WalkMe integrates WalkMe's Digital Adoption Platform (DAP) directly into SAP applications (such as SAP S/4HANA, SAP SuccessFactors, and SAP Ariba) to improve user engagement and digital process execution.

"The combined SAP-WalkMe solution helps organizations streamline user adoption and simplify process integration, ensuring users can easily navigate SAP systems and execute digital workflows correctly." Reference:

This integration provides contextual, real-time assistance to users within SAP interfaces, enabling faster onboarding, fewer errors, and improved productivity - all critical for successful transformation under the SAP Business Transformation Management (BTM) framework.

"WalkMe for SAP reduces complexity by guiding users in real time, supporting end-to-end process integration, and driving adoption across the SAP ecosystem." Incorrect Options:

A: Lower maintenance costs are a secondary effect, not the core benefit.

B: WalkMe is not a hiring solution.

D: It does not manage supply chains directly.

Verified Correct answer: C: Streamlined user adoption and seamless process integration.

NEW QUESTION # 32

What is the primary function of SAP Signavio Process Intelligence?

- A. An ERP system for managing financial transactions.
- B. A collaboration platform for managing business decisions.
- **C. A process mining solution that provides process analytics and insights.**
- D. A cloud-based process modeling tool for documenting workflows.

Answer: C

Explanation:

SAP Signavio Process Intelligence is the process mining and analytics component of the SAP Signavio Business Transformation Suite. It allows organizations to analyze real process data to identify inefficiencies and improvement opportunities.

"SAP Signavio Process Intelligence is a process mining solution that enables customers to analyze and visualize process flows, uncovering performance issues and improvement opportunities." Reference:

It connects to operational systems, extracts event logs, and reconstructs end-to-end business processes to deliver data-driven process insights.

"The solution provides process analytics and actionable insights by comparing actual process execution data against designed models." Incorrect Options:

A: Refers to SAP Signavio Process Manager, not Process Intelligence.

B: SAP Signavio is not an ERP; it integrates with SAP ERP systems for analysis.

C: Collaboration capabilities are provided via SAP Signavio Collaboration Hub, not Process Intelligence.

Therefore, the verified and correct answer based on SAP's official documentation is:

D: A process mining solution that provides process analytics and insights.

NEW QUESTION # 33

What is the primary function of SAP Signavio Process Insights?

- A. It is the single source of truth for business processes within any organization.
- **B. It analyses SAP processes to identify process weaknesses and improvements.**
- C. It is the collaborative process mining solution for experience data analysis.
- D. It performs cloud-based professional process modeling based on best practices content.

Answer: B

Explanation:

SAP Signavio Process Insights is part of the SAP Signavio Business Transformation Suite and focuses on analyzing SAP business processes using live system data. It automatically identifies inefficiencies, bottlenecks, and opportunities for process improvement across SAP ERP and S/4HANA systems.

"SAP Signavio Process Insights analyzes SAP system data to identify process performance issues, weaknesses, and areas for improvement while providing recommendations for optimization." Reference:

It provides actionable process metrics, benchmarks against best practices, and suggestions for transformation initiatives.

"The solution offers automated process analysis and best-practice-based insights to help organizations achieve continuous improvement and business excellence." Incorrect Options:

A: Process mining is a function of SAP Signavio Process Intelligence, not Process Insights.

C: Process modeling is handled by SAP Signavio Process Manager.

D: "Single source of truth" is best represented by SAP Signavio Collaboration Hub.

Verified Correct answer: B: It analyses SAP processes to identify process weaknesses and
