

CTS-I Exam Price, Latest CTS-I Exam Pattern

Appendix A: CTS-I Exam Content Outline

The AVIXA CTS-I job description as established by the Job Task Analysis is as follows:

A Certified Technology Specialist Installer:

- Installs, configures, and maintains audiovisual solutions.
- Coordinates, communicates, and documents ongoing installation responsibilities and activities.
- Performs system tests, conducts training, and provides project closeout documentation.

A recommended 3-4 years' of audiovisual installation experience accompanies the theoretical and practical competencies.

The CTS-I exam specifications were developed by combining the importance, criticality, and frequency data obtained from the Job Task Analysis study. The resulting data were converted to percentages and the percentages were used to determine the number of questions related to each domain and task that should appear on the multiple-choice CTS-I examination. The test specifications in the table below list how many questions are included in each Domain and Task and the percentage of the test included in each domain. The Job Task Analysis Final Report can be downloaded at www.AVIXA.org/cts/ under "CTS-I Resources."

NOTE: Applicants and stakeholders should download the most up-to-date free edition of the CTS-I Candidate Handbook that may include important policy and procedure updates by going to the AVIXA website at www.AVIXA.org. Date of this version is 11/13/2023. ©2023 AVIXA®

AVIXA CTS-I Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Perform AV Systems Closeout: This domain covers the final steps needed to formally complete an AV project, including demonstrating system performance to the client, providing user training, and finalizing all project documentation such as as-built drawings, punch lists, and programming files.
Topic 2	<ul style="list-style-type: none">• Practice Ongoing Project Responsibilities: This domain focuses on day-to-day project management tasks during the installation phase, such as completing field reports, coordinating with other trades (electrical, construction, IT), and identifying and resolving field-level changes or conflicts that arise on site.
Topic 3	<ul style="list-style-type: none">• Install AV Systems: This is the largest and most heavily weighted domain, covering the complete hands-on installation process — assembling and wiring AV racks, placing and mounting equipment, terminating cables, configuring network and device settings, and finishing with system testing and calibration to ensure proper operation.
Topic 4	<ul style="list-style-type: none">• Conduct Site Rough-In• First-Fix: This domain addresses the initial physical site work, including removing existing equipment or cabling, installing mounting substructures and rigging, and pulling cable through pathways in preparation for the full AV system installation.
