#### NEW QUESTION # 205

Daily coordination meeting attendance has been declining recently. Those who attend have little to contribute outside of what they are currently working on. The project manager met with the team to remind them of the importance of regular, face-to-face communication. The project team feels the daily coordination meetings are not adding value. What should the project manager do?

- A. Keep the meetings because some find them valuable and assume that those not attending are working steadily and have no blockers.
- B. Work with team members to create a wiki where they can record their current accomplishments.
- C. Change the meeting to the end of the day ensure it lasts only 15 minutes and require all team members to attend.
- D. Reduce the occurrence of meetings because team members regularly communicate with the another and the customer

**Answer: D**

#### NEW QUESTION # 206

During sprint planning the product owner wants the team to prioritize and deliver a number of features which have the highest business value. Due to technical dependencies, the team does not agree with the prioritization.

What should the project leader do?

- A. Encourage the product owner and team to reprioritize the features and select ones which can be delivered without any dependencies
- B. Ensure the team captures the technical dependencies as issues within the backlog and prioritize based on value optimization
- C. Encourage the team to continue with the current plan, do what they can, and carry forward the work not done to the next iteration
- D. Ensure that the required subject matter experts (SMEs) are engaged by the product owner to help with backlog prioritization

**Answer: D**

#### NEW QUESTION # 207

A team member has spent 5 days on a spike and the first set of experiments has not been successful The issue is the development team member has determined a short-term rather than a long-term solution.

What should the project leader do?

- A. Schedule a root-cause analysis with the development team on the main issues with the spike
- B. Stop experimentation and negotiate the short-term solution with the customer.
- C. Assign the spike to another resource to continue research for the long-term solution

- D. Re-establish the spike, encourage experimentation and collaborate with the team

Answer: D
