Wenn Sie sich zur Adobe AD0-E725 Zertifizierungsprüfung anmelden, sollen Sie sofort gute Lernmaterialien oder Prüfungsunterlagen wählen, um sich gut auf die Prüfung vorzubereiten. Denn die Adobe AD0-E725 Zertifizierungsprüfung ist eine schwierige Prüfung und Sie müssen dafür ausreichende Vorbereitungen haben.

Adobe AD0-E725 Prüfungsplan:

Thema	Einzelheiten
Thema 1	<ul style="list-style-type: none">Section 1: Architecture: This section of the exam measures the skills of Backend Developers and covers the core structural concepts of Adobe Commerce. It involves demonstrating effective cache implementation, understanding key code components like plugins and observers, and managing multi-site configurations on a single instance. The domain also includes explaining the use of Git patches, critical security features, the CRON scheduling system, and how indexing functions within the platform.
Thema 2	<ul style="list-style-type: none">External Integrations: This section of the exam measures the skills of Integration Specialists and focuses on connecting Adobe Commerce with external SaaS services. It encompasses the skills needed to customize data flows, utilize Adobe App Builder for extensibility, and implement Adobe IO events and webhooks to create automated and connected business processes.

Thema 3	<ul style="list-style-type: none"> • Customizations: This section of the exam measures the skills of Solutions Engineers and involves modifying and extending platform functionality. This includes customizing core areas like the product catalog, checkout process, and admin panel, as well as manipulating data entities, customizing APIs, working with message queues, and writing integration tests to ensure code quality and functionality.
Thema 4	<ul style="list-style-type: none"> • Cloud: This section of the exam measures the skills of Cloud Architects and covers the deployment and management of Adobe Commerce on cloud infrastructure. It requires explaining the fundamental cloud architecture, performing setup and configuration tasks, and utilizing the Adobe Commerce Cloud CLI tool to manage the environment effectively.

AD0-E725 Simulationsfragen - AD0-E725 Lernhilfe

Es ist nicht unmöglich, die Adobe AD0-E725 Prüfung leicht zu bestehen. Dieses Gefühl haben schon viele Benutzer der Adobe AD0-E725 Prüfungssoftware von unserer Pass4Test empfunden. Dieses Gefühl können Sie auch empfinden, solange Sie unsere kostenlose Demo probieren. Wir sind verantwortlich für jeder Kunde, der unsere Produkte wählt, und garantieren, dass unsere Kunden immer die neueste Version von Adobe AD0-E725 Prüfungssoftware benutzen.

Adobe Commerce Developer Expert AD0-E725 Prüfungsfragen mit Lösungen (Q25-Q30):

25. Frage

A client reports an issue with indexers that are failing and remain stuck. The client asks a Developer to solve this issue. What recommended solution should the Developer use?

- A. Create a cronjob that runs `bin/magento indexer:reindex` periodically.
- **B. In `app/etc/env.php` `indexer_sync_mode` -> `false` under `indexer` node.**
- C. Run `bin/magento indexer:set-mode realtime <indexer_list>`.

Antwort: B

26. Frage

A customer wants their Adobe Commerce Cloud platform to be upgraded to the latest available official version. They would like to assess the compatibility of their current version compared to the upgraded version. How should the Developer gather this information and compile an upgrade plan for the customer?

- A. Run the Site-Wide Analysis Tool (SWAT) which provides detailed information on the system.
- B. Familiarize themselves with the minimum system requirements of Adobe Commerce.
- **C. Run the command `bin/magento upgrade:compatibilityreport` to export the needed information.**

Antwort: C

Begründung:

Adobe Commerce provides a built-in Upgrade Compatibility Tool (UCT) that allows developers to check for potential code incompatibilities before performing a version upgrade.

The UCT:

- * Analyzes the current codebase against the target upgrade version.
- * Reports on deprecated classes, methods, and APIs that could break during the upgrade.
- * Produces a compatibility report (HTML/CSV/JSON) that can be shared with customers as part of the upgrade plan.

This tool is specifically designed to help developers assess upgrade risks and is the official Adobe Commerce-recommended method for preparing upgrade assessments.

- * Option A (SWAT): The Site-Wide Analysis Tool provides performance, configuration, and health insights, but it does not analyze code compatibility for upgrades.
- * Option B (minimum system requirements): This ensures the environment is technically capable of running the new version but does not provide insights into custom code and extension compatibility.

Official Documentation Extracts:

* "The Upgrade Compatibility Tool helps you identify potential issues in your custom code when upgrading to a new Adobe Commerce release. It scans your codebase and produces a report highlighting possible code changes that may be required."- Adobe Commerce DevDocs: Upgrade Compatibility Tool

* "Run bin/magento upgrade:compatibility:report to generate the upgrade compatibility report. The report provides details about deprecated and removed code, APIs, and incompatibilities."- Adobe Commerce CLI Reference

27. Frage

A client requests changes to their Pro Staging and Production environments. They supply a Developer with different domains for new websites to be created with the goal of expanding operations to multiple countries, doubling the current number of SKUs, and adding more customer groups.

Which two issues should the Developer anticipate based on the requested changes? (Choose two.)

- A. Additional stores can lead to a longer indexing process and slower response times for noncached catalog pages.
- B. Recreate hierarchy navigation for every new website.
- C. Multiple websites may require duplicating custom functionality for each store, which increases code redundancy.
- D. Catalog data expands as the number of websites and stores are increased.

Antwort: A,D

28. Frage

An Adobe Commerce Developer creates a before plugin for the save() method from the Magento\Framework\App\Cache\Proxy class to manipulate with cache identifiers and data before it is saved to the cache storage. An example of the code is shown below:

```
namespace Magento\Framework\App\Cache;
use Magento\Framework\App\Cache\CacheInterface;
use Magento\Framework\ObjectManager\NoninterceptableInterface;
class Proxy implements
CacheInterface,
NoninterceptableInterface
{
...
public function save($data, $identifier, $tags = [], $lifeTime = null)
{
return $this->getCache()->save($data, $identifier, $tags, $lifeTime);
}
...
}
```

Why is the plugin not working as expected?

- A. An around plugin defined for the same function prevents the execution.
- B. The plugin cannot be created for this class.
- C. An after plugin defined for the same function affects the results.

Antwort: B

29. Frage

A Developer needs to replicate a recent issue that occurred in the staging environment so it can be tested locally. The Developer decides to dump the staging database and import it into the local setup.

Which command should the Developer use to do this?

- A. magento-cloud snapshot:db-dump
- B. vendor/bin/ece-tools db-snapshot
- C. vendor/bin/ece-tools db-dump

Antwort: C

Begründung:

The correct way to dump a database from an Adobe Commerce Cloud environment is with the vendor/bin/ece-tools db-dump command.

A (db-snapshot) is not a valid ece-tools command.

B is incorrect: magento-cloud snapshot commands are for managing whole environment snapshots, not direct DB dumps.

C is correct: ece-tools db-dump provides the database export for staging/local replication.

Reference:

Adobe Commerce Cloud DevDocs - ece-tools db-dump

30. Frage

.....

Jeder hat seinen eigenen Lebensplan. Wenn Sie andere Wahle treffen, bekommen Sie sicher etwas Anderes. So ist die Wahl serh wichtig. Die Schulungsunterlagen zur Adobe AD0-E725 Zertifizierungsprüfung von Pass4Test ist eine beste Methode, die den IT-Fachleuten helfen, ihr Ziel zu erreichen. Sie enthalten Prüfungsfragen und Antworten zur Adobe AD0-E725 Zertifizierung. Und sie sind den echten Prüfungen ähnlich. Es ist wirklich die besten Schulungsunterlagen.
