What's more, part of that Real4dumps API-571 dumps now are free: <https://drive.google.com/open?id=1xAs-3KCVNLORdFCpShDvCu4Z7ca99eAq>

Users of this format don't need to install excessive plugins or software to attempt the Corrosion and Materials Professional (API-571) web-based practice exams. Another format of the Corrosion and Materials Professional (API-571) practice test is the

desktop-based software. This API-571 Exam simulation software needs installation only on Windows computers to operate. The third format of the Real4dumps API API-571 exam dumps is the API-571 Dumps PDF.

The benefit in Obtaining the API-571 Exam Certification

- Advanced Corrosion & Materials Professional Certifications provide opportunities to get a job easily in which they are interested in instead of wasting years and ending without getting any experience.
- Advanced Corrosion & Materials Professional Certification is distinguished among competitors. Advanced Corrosion & Materials Professional certification can give them an edge at that time easily when candidates appear for a job interview employers seek to notify something which differentiates the individual to another.
- Advanced Corrosion & Materials Professional will be confident and stand different from others as their skills are more trained than non-certified professionals.
- Advanced Corrosion & Materials Professional Certification provides practical experience to candidates from all the aspects to be a proficient worker in the organization.

API-571 Flexible Learning Mode, Exam API-571 Topic

With all API-571 practice materials being brisk in the international market, our API-571 practice materials are quite catches with top-ranking quality. But we do not stop the pace of making advancement by following the questions closely according to exam. So our experts make new update as supplementary updates. During your transitional phrase to the ultimate aim, our API-571 practice materials as well as these updates are referential. Those materials can secede you from tremendous materials with least time and quickest pace based on your own drive and practice to win. Those updates will be sent to you accordingly for one year freely.

API Corrosion and Materials API-571 Exam

API Corrosion and Materials API-571 Exam is related to Advanced Corrosion & Materials Professional Certifications. This exam validates the knowledge and skills of corrosion engineers, corrosion processes among specialized inspectors, chemical engineers and other professionals across the entire petrochemical industry. Highly Specialized Inspectors, Corrosion Engineers and Chemical Engineers usually hold or pursue this certification and you can expect the same job role after completion of this certification.

API Corrosion and Materials Professional Sample Questions (Q137-Q142):

NEW QUESTION # 137

The type of organic acids in crude feedstocks that are of most concern for corrosion in crude unit overheads are those:

- A. With naphthenic acids
- B. That condense above the water dew point
- C. With low molecular weight
- D. That are not soluble in naphtha

Answer: B

Explanation:

API RP 571, under Organic Acid Corrosion, highlights:

"Corrosive organic acids in overhead systems are those that condense at temperatures above the water dew point. These acids condense independently of water and can form highly concentrated corrosive films."

"When acids condense first, they aggressively corrode carbon steel prior to any water wash mitigation." (Reference: API RP 571, Section 4.3.3.9 - Organic Acid Corrosion) Hence, option D correctly identifies the most aggressive corrosion scenario.

NEW QUESTION # 138

_____ is a change in the microstructure of certain carbon steels and 0.5Mo steels after long-term operation in the 800(o) F to 1100(o) F range that may cause a loss in strength, ductility and/or creep resistance.

- A. Embrittlement
- B. Sensitization
- C. Graphitization

- D. Carburization

Answer: C

NEW QUESTION # 139

Major factors affecting sulfidation are alloy composition, temperature and _____.

- A. Stress
- B. Concentration of hydrogen
- C. Time
- **D. Concentration of sulfur**

Answer: D

NEW QUESTION # 140

Which of the following is not a critical factor that contributes to a brittle fracture?

- A. Magnitude of the residual stresses
- **B. Maximum operating temperature**
- C. The material's fracture toughness
- D. Stress concentration at a flaw

Answer: B

NEW QUESTION # 141

Carburization can be confirmed by a substantial increase in hardness and a _____ in ductility.

- A. None of the above
- B. Gain
- **C. Loss**
- D. Change

Answer: C

NEW QUESTION # 142
