EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q615-Q620):

NEW QUESTION # 615
Which of the following represents the BEST method of ensuring security program alignment to business needs?

- A. Ensure security implementations include business unit testing and functional validation prior to production rollout
- B. Create security consortiums, such as strategic security planning groups, that include business unit participation

- C. Create a comprehensive security awareness program and provide success metrics to business units
- D. Ensure the organization has strong executive-level security representation through clear sponsorship or the creation of a CISO role

Answer: B

NEW QUESTION # 616
An example of professional unethical behavior is:

- A. Sharing copyrighted material with other members of a professional organization where all members have legitimate access to the material
- B. Gaining access to an affiliated employee's work email account as part of an officially sanctioned internal investigation
- C. Copying documents from an employer's server which you assert that you have an intellectual property claim to possess, but the company disputes
- D. Storing client lists and other sensitive corporate internal documents on a removable thumb drive

Answer: C

Explanation:
Why This Is Unethical:
* Removing company documents without authorization, even if intellectual property claims are disputed, violates professional and legal standards.
* Such actions can lead to data breaches and undermine trust.
Why Not Other Options:
* Option A: Gaining email access as part of an official investigation with proper authorization is ethical.
* Option B: Sharing copyrighted material within a professional organization with legitimate access is not unethical.
* Option D: Storing sensitive documents on a removable device can pose risks but is not inherently unethical unless it violates policies or regulations.
EC-Council Alignment:Adhering to professional ethics, as outlined in the CISO framework, ensures actions are compliant with legal and organizational standards.

NEW QUESTION # 617
What is the first thing that needs to be completed in order to create a security program for your organization?

- A. Risk assessment
- B. Business continuity plan
- C. Business continuity plan
- D. Security program budget

Answer: A

NEW QUESTION # 618
Risk is defined as:

- A. Threat times vulnerability divided by control
- B. Asset loss times likelihood of event
- C. Quantitative plus qualitative impact
- D. Advisory plus capability plus vulnerability

Answer: A

NEW QUESTION # 619
What is the MAIN reason for conflicts between Information Technology and Information Security programs?

- A. Technology governance defines technology policies and standards while security governance does not.
- B. Security governance defines technology best practices and Information Technology governance does not.

- C. Technology Governance is focused on process risks whereas Security Governance is focused on business risk.
- D. The effective implementation of security controls can be viewed as an inhibitor to rapid Information Technology implementations.

Answer: D

NEW QUESTION # 620
......
