## Salesforce Certified Platform Identity and Access Management Architect Sample Questions (Q179-Q184):

### NEW QUESTION # 179

Universal Containers (UC) is considering a Customer 360 initiative to gain a single source of the truth for its customer data across disparate systems and services. UC wants to understand the primary benefits of Customer 360 Identity and how it contributes to a successful Customer 360 Truth project.

What are two key benefits of Customer 360 Identity as it relates to Customer 360?

Choose 2 answers

- A. Customer 360 Identity enables an organization to build a single login for each of its customers, giving the organization an understanding of the user's login activity across all its digital properties and applications.
- B. Customer 360 Identity supports multiple brands so you can deliver centralized identity services and correlation of user activity.
- C. Customer 360 Identity not only provides a unified sign up and sign in experience, but also tracks anonymous user activity prior to signing up so organizations can understand user activity before and after the users identify themselves.
- D. Customer 360 Identity automatically integrates with Customer 360 Data Manager and Customer 360 Audiences to

seamlessly populate all user data.

**Answer: A,B**

#### **NEW QUESTION # 180**
