Free PDF Palo Alto Networks - Fantastic NetSec-Pro - Palo Alto Networks Network Security Professional Pdf Format

In order to meet the needs of all customers, our company employed a lot of leading experts and professors in the field. These experts and professors have designed our NetSec-Pro exam questions with a high quality for our customers. We can promise that our NetSec-Pro Study Guide will be suitable for all people, including students and workers and so on. You can use our NetSec-Pro

practice materials whichever level you are in right now.

Palo Alto Networks Network Security Professional Sample Questions (Q58-Q63):

NEW QUESTION # 58

Which set of attributes is used by IoT Security to identify and classify appliances on a network when determining Device-ID?

- A. Device model, firmware version, and user credential
- B. IP address, network traffic patterns, and device type
- C. MAC address, device manufacturer, and operating system
- D. Hostname, application usage, and encryption method

Answer: C

Explanation:

IoT Security uses MAC address, device manufacturer, and OS information to identify and classify devices via Device-ID.

"IoT Security uses passive network traffic analysis to fingerprint devices based on the MAC address, manufacturer, and operating system to ensure accurate classification." (Source: IoT Security Device-ID and Classification) These attributes provide a robust, manufacturer-agnostic method to fingerprint IoT devices.

NEW QUESTION # 59

Which offering can be managed in both Panorama and Strata Cloud Manager (SCM)?

- A. VM-Series Next-Generation Firewall (NGFW)
- B. Prisma SD-WAN
- C. Autonomous Digital Experience Manager (ADEM)
- D. SaaS Security

Answer: A

Explanation:

The VM-Series NGFWs are designed to integrate seamlessly with both Panorama and Strata Cloud Manager (SCM), allowing administrators to manage physical and virtual firewall deployments from either interface.

"You can manage VM-Series Next-Generation Firewalls using either Panorama for centralized management of all firewalls or Strata Cloud Manager for cloud-based management, giving flexibility across hybrid environments." (Source: VM-Series Management Options) Unified management flexibility is key for enterprises with hybrid or multi-cloud deployments.

NEW QUESTION # 60

Which two SSH Proxy decryption profile settings should be configured to enhance the company's security posture? (Choose two.)

- A. Block connections that use non-compliant SSH versions.
- B. Allow sessions when decryption resources are unavailable.
- C. Allow sessions with legacy SSH protocol versions.
- D. Block sessions when certificate validation fails.

Answer: A,D

Explanation:

Blocking non-compliant SSH versions and failing certificate validations are fundamental security measures:

Block sessions when certificate validation fails

"The SSH Proxy profile should block sessions that fail certificate validation to ensure that only trusted hosts are allowed." (Source: SSH Proxy Decryption Best Practices) Block connections using non-compliant SSH versions Older SSH versions may have vulnerabilities or lack modern encryption algorithms.

"To enforce stronger security, block SSH sessions that use older or deprecated versions of the SSH protocol that do not comply with your security posture." (Source: SSH Decryption and Best Practices) Together, these measures minimize the risk of MITM attacks and secure SSH traffic.

NEW QUESTION # 61

Which procedure is most effective for maintaining continuity and security during a Prisma Access data plane software upgrade?

- A. Back up configurations, schedule upgrades during off-peak hours, and use a phased approach rather than attempting a network-wide rollout.
- B. Perform the upgrade during peak business hours, quickly address any user-reported issues, and ensure immediate troubleshooting post-rollout.
- C. Disable all security features during the upgrade to prevent conflicts and re-enable them after completion to ensure a smooth rollout process.
- D. Use Strata Cloud Manager (SCM) to perform dynamic upgrades automatically and simultaneously across all locations at once to ensure network-wide uniformity.

Answer: A

Explanation:

The best practice for Prisma Access data plane upgrades involves backing up configurations, scheduling upgrades during off-peak hours, and using a phased approach to minimize disruption and maintain continuity. As per the Palo Alto Networks documentation: "To minimize disruptions, it is recommended to perform Prisma Access upgrades during non-business hours and in a phased manner, starting with less critical sites to validate the process before moving to critical locations. Backup configurations and validate the system's readiness to avoid data loss and maintain service continuity." (Source: Prisma Access Best Practices)

NEW QUESTION # 62

In a service provider environment, what key advantage does implementing virtual systems provide for managing multiple customer environments?

- A. Shared threat prevention policies across all tenants
- B. Logical separation of control and Security policy
- C. Centralized authentication for all customer domains
- D. Unified logging across all virtual systems

Answer: B

Explanation:

Virtual systems provide logical separation in a single physical firewall, allowing different customers (or tenants) to have isolated control and security policies.

"Virtual systems enable service providers to offer logically separated, independent environments on a single firewall. Each virtual system can have its own security policies, interfaces, and administrators." (Source: Virtual Systems) This ensures secure, tenant-specific segmentation within multi-tenant environments.

NEW QUESTION # 63

.....

If you are going to prepare for the NetSec-Pro exam in order to get the related certification and improve yourself, you are bound to be very lucky. Because you meet us, we are willing to bring a piece of good news for you. With the joint efforts of all parties, our company has designed the very convenient and useful NetSec-Pro Study Materials. More importantly, the practices have proven that the study materials from our company have helped a lot of people achieve their goal and get the related certification.
