100% Pass 2026 Oracle Perfect Study Guide 1Z0-931-25 Pdf

2026 Latest DumpsFree 1Z0-931-25 PDF Dumps and 1Z0-931-25 Exam Engine Free Share: https://drive.google.com/open?id=1zBT8pQqrQVrxLLV3doxRC48kRfOn6R7R

DumpsFree IT Certification has years of training experience. DumpsFree Oracle 1Z0-931-25 exam training materials is a reliable product. IT elite team continue to provide our candidates with the latest version of the 1Z0-931-25 exam training materials. Our staff made great efforts to ensure that you always get good grades in examinations. To be sure, DumpsFree Oracle 1Z0-931-25 Exam Materials can provide you with the most practical IT certification material.

Our Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) PDF dumps format contains Oracle 1Z0-931-25 questions that are real and updated. You can print these Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) questions if you prefer an off-screen study. Otherwise, you can use this 1Z0-931-25 PDF document from any location via your laptops, tablets, and smartphones. Time restrictions do not halt Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) exam preparation as you can use Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) exam dumps pdf whenever you have free time.

>> Study Guide 1Z0-931-25 Pdf <<

1Z0-931-25 Dumps Collection - 1Z0-931-25 Exam Certification Cost

We assume all the responsibilities that our practice materials may bring. They are a bunch of courteous staff waiting for offering help 24/7. You can definitely contact them when getting any questions related with our 1Z0-931-25 practice materials. If you haplessly fail the exam, we treat it as our responsibility then give you full refund and get other version of practice material for free. That is why we win a great deal of customers around the world. Especially for those time-sensitive and busy candidates, all three versions of 1Z0-931-25 practice materials can be chosen based on your preference. Such as app version, you can learn it using your phone everywhere without the limitation of place or time.

Oracle 1Z0-931-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Managing and Maintaining Autonomous Database: This section of the exam measures the skills of Database Administrators and focuses on the ongoing management and maintenance of Autonomous Database instances. It includes using REST APIs and OCI CLI for automation, configuring access control lists and private endpoints, monitoring performance, setting up notifications, utilizing features like auto-indexing and data safe, handling connectivity through wallets and service handles, and configuring disaster recovery using Data Guard to ensure business continuity.
Topic 2	• Autonomous Database Tools: This section of the exam measures the skills of Data Analysts and covers the tools available within Autonomous Databases for advanced data processing and analytics. It includes Oracle Machine Learning, APEX, and SQL Developer Web for database development, as well as data transformation, business model creation, data insights, and data analysis, allowing analysts to extract valuable insights from large datasets.
Topic 3	• Developing on Autonomous Database: This section of the exam measures the skills of Application Developers and focuses on developing and extending applications using Autonomous Database. It covers using generative AI for natural language queries, Autonomous JSON Database, Oracle Text for document search, location-based analysis with Autonomous Spatial, Autonomous Graph for data relationships, and integration with Object Storage, enabling developers to build intelligent, scalable applications.
Topic 4	• Autonomous Database Shared: This section of the exam measures the skills of Cloud Engineers and focuses on creating and managing shared Autonomous Database instances. It includes provisioning, scaling, and starting or stopping instances, as well as database consolidation with Elastic Resource Pools. It also covers user management, cloning, database migration, monitoring, backup and restore processes, and introduces Data Guard for high availability, ensuring cloud engineers can maintain optimal database performance.
Topic 5	• Data Lake Analytics with Autonomous Database: This section of the exam measures the skills of Big Data Engineers and explores how Autonomous Database can be used for analytics in data lake environments. It includes data ingestion, query optimization, and leveraging cloud-native analytics services, ensuring engineers can efficiently process and analyze large volumes of structured and unstructured data.

Oracle Autonomous Database Cloud 2025 Professional Sample Questions (Q18-Q23):

NEW QUESTION # 18
When cloning from a backup, what is the earliest timestamp of the backup allowed in Autonomous Database?

- A. 2 hours
- B. 24 hours
- C. 30 minutes
- D. 1 hour

Answer: A

Explanation:
Cloning from a backup in Autonomous Database has a minimum age requirement:
Correct Answer (A): The earliest timestamp allowed is 2 hours after the backup is created. This ensures data consistency by

allowing time for any in-flight transactions or writes to stabilize in the backup, preventing incomplete or corrupted clones.
Incorrect Options:
B: 24 hours is the default retention period, not the minimum cloning age.
C, D: 1 hour and 30 minutes are too short; they don't meet the 2-hour consistency window.
This policy safeguards clone integrity.

NEW QUESTION # 19
Which three operations are available for a quarterly maintenance update on Autonomous Container Database? (Choose three.)

- A. Patch immediately
- B. Apply a partial patch
- C. Skip patching
- D. Reschedule and patch immediately
- E. Reschedule patching

Answer: C,D,E

Explanation:
Oracle Autonomous Container Database (ACD) provides specific options for managing quarterly maintenance updates to ensure minimal disruption and flexibility. The three correct operations available are:
Reschedule and patch immediately (B): This option allows users to adjust the maintenance window to a more convenient time and apply the patch right away within that rescheduled window. It's useful when the default schedule conflicts with business operations but immediate patching is still desired.
Reschedule patching (C): This option enables users to defer the patching to a later maintenance window that suits their operational needs, providing flexibility without applying the patch immediately.
Skip patching (D): Users can choose to skip a quarterly maintenance update entirely, which is beneficial if the current database version is stable and no immediate updates are required. Oracle allows skipping up to two consecutive quarterly updates for Autonomous Container Databases on dedicated infrastructure.
The incorrect options are:
Patch immediately (A): This is not a standalone option for quarterly updates on ACDs. Patching occurs within scheduled maintenance windows, and immediate patching outside of rescheduling is not supported as a distinct choice.
Apply a partial patch (E): Oracle does not support applying partial patches during quarterly maintenance updates. Updates are delivered as complete bundles to ensure consistency and security.
This aligns with Oracle's maintenance policies for Autonomous Databases on dedicated infrastructure, where control over scheduling and skipping is provided, but partial patching is not an option.

NEW QUESTION # 20
Which two are correct actions to take in order to download the Autonomous Database Credentials? (Choose two.)

- A. Click the compute section of the menu, then choose instance configurations, then download wallet
- B. Click on the Object Storage and find your Autonomous bucket and download the wallet credentials
- C. Click on the Autonomous Database in the menu, click a database name, then choose DB Connection button, then download the wallet
- D. Find the service console for your Autonomous Database, then pick administration, then download the credential wallet

Answer: C,D

Explanation:
Downloading Autonomous Database credentials (client wallet) is necessary for secure connections. The two correct actions are:
Find the service console for your Autonomous Database, then pick administration, then download the credential wallet (B): In the OCI console, navigate to the Autonomous Database service console (e.g., via the "Database" section). Select your ADB instance, go to the "Administration" tab, and click "Download Client Credentials (Wallet)." You'll set a password and download a ZIP file containing files like tnsnames.ora and certificates. This method is straightforward for DBAs managing the instance directly from its service page.
Click on the Autonomous Database in the menu, click a database name, then choose DB Connection button, then download the wallet (D): From the OCI console's main navigation, go to "Autonomous Database," select your database by name, and click the "DB Connection" button on the details page. Then, select "Download Wallet," provide a password, and download the ZIP file. This is a common path for users accessing connectivity details directly from the database overview.
The incorrect options are:

Click the compute section of the menu, then choose instance configurations, then download wallet (A): The "Compute" section is for virtual machines, not databases. Credentials are tied to the ADB service, not compute instances.
Click on the Object Storage and find your Autonomous bucket and download the wallet credentials (C): Object Storage holds user data or backups, not the wallet credentials, which are generated and downloaded from the ADB service interface.
Both B and D provide secure access to the wallet for tools like SQL Developer.

NEW QUESTION # 21
Which two infrastructure types support deployment of Oracle Autonomous Database? (Choose two.)

- A. Shared Exadata Infrastructure
- B. Dedicated Exadata Infrastructure
- C. Oracle Bare Metal Servers
- D. Virtual Machines on Oracle Cloud Infrastructure

Answer: A,B

Explanation:
Oracle Autonomous Database is designed to run on specific infrastructure optimized for its managed capabilities:
Correct Answer (B): Dedicated Exadata Infrastructure provides a fully dedicated Exadata system for a single tenant, offering maximum isolation, performance, and customization (e.g., maintenance scheduling).
Correct Answer (D): Shared Exadata Infrastructure allows multiple Autonomous Database instances to share Exadata resources, providing a cost-effective option for smaller workloads while retaining automation benefits.
Incorrect Options:
A: Virtual Machines (VMs) on OCI are not a supported deployment platform for Autonomous Database. It requires Exadata hardware for its self-managing features, unlike traditional OCI VMs used for manual database setups.
C: Oracle Bare Metal Servers are not used for Autonomous Database; they lack the specialized Exadata architecture needed for its autonomous operations.
These infrastructure types ensure high performance and scalability tailored to Autonomous Database's requirements.

NEW QUESTION # 22
Which statement is FALSE about Data Insights?

- A. Data Insights display information about patterns and anomalies in the data of entities in your Oracle Autonomous Database
- B. Data Insights provides a wide range of graphical data presentation capabilities
- C. Data Insights are automatically generated by various analytic functions built into the database
- D. The results of the Insight analysis appear as a series of bar charts in the Data Insights dashboard

Answer: C

Explanation:
Data Insights is a feature in Autonomous Database that helps users understand their data. The false statement is:
Data Insights are automatically generated by various analytic functions built into the database (C): This is incorrect. Data Insights are not solely the result of automatic execution of built-in analytic functions (e.g., AVG, SUM, or RANK). Instead, they are generated through a combination of user-initiated analysis and Oracle's machine learning-driven capabilities within the Data Insights dashboard (part of Database Actions or OCI console). Users select datasets or tables, and the system applies algorithms to identify patterns (e.g., trends in sales) or anomalies (e.g., outlier transactions), but this process isn't just a passive outcome of pre-existing database functions-it's an active, curated feature requiring configuration. For example, a user might explore a SALES table, and Data Insights highlights a spike in Q4 sales, but this requires user input to define scope, not just automatic function output.
The true statements are:
Data Insights display information about patterns and anomalies in the data of entities in your Oracle Autonomous Database (A): True. The feature visualizes trends (e.g., seasonal sales increases) and outliers (e.g., unexpected data drops) in tables or views, helping users spot significant data behaviors. For instance, it might show a bar chart of monthly revenue with an anomaly flagged for a sudden dip.
Data Insights provides a wide range of graphical data presentation capabilities (B): True. It offers visualizations like bar charts, line graphs, and scatter plots, customizable to represent data insights effectively. E.g., a line graph might track customer sign-ups over time, with options to adjust axes or filters.
The results of the Insight analysis appear as a series of bar charts in the Data Insights dashboard (D): True, partially. While bar charts are a common default (e.g., comparing sales by region), the dashboard supports multiple chart types, but the statement's focus on bar charts aligns with typical output for simple insights.

The misconception in C overlooks the interactive, ML-assisted nature of Data Insights, distinguishing it from passive function-based analytics.

NEW QUESTION # 23

......

DumpsFree is one of the only few platforms offering updated Oracle exam preparatory products for the 1Z0-931-25 at an affordable rate. Our Oracle 1Z0-931-25 exam questions preparation products help you know your weaknesses before the actual Oracle Autonomous Database Cloud 2025 Professional exam. Oracle 1Z0-931-25 Exam Questions preparation materials are affordable for everyone. Moreover, we give you free updates for 365 days. DumpsFree offers reliable, updated Oracle Exam Questions at an affordable price and also gives a 30% discount on all Oracle exam questions.
