

Exam GES-C01 Simulator Online & GES-C01 Valid Exam Preparation

P.S. Free & New GES-C01 dumps are available on Google Drive shared by BraindumpStudy: https://drive.google.com/open?id=1H7f6eR6TxS7OLxZSqf_0Divl6VwR0WUf

For candidates who are going to attend the exam, passing the exam is a good wish. GES-C01 exam torrent will help you to pass the exam just one time, and we are pass guaranteed and money back guaranteed if you fail the exam. We promise to refund all of your money if you fail the exam by using the GES-C01 Exam Torrent, or if you have other exam to attend, we can also replace other 2 valid exam dumps for you, at the same time you can get the update version for GES-C01 exam torrent. In addition, you can consult us if you have any questions.

The SnowPro® Specialty: Gen AI Certification Exam (GES-C01) Desktop-based practice Exam is ideal for applicants who don't have access to the internet all the time. You can use this SnowPro® Specialty: Gen AI Certification Exam (GES-C01) simulation software without an active internet connection. This GES-C01 software runs only on Windows computers. Both practice tests of BraindumpStudy i.e. web-based and desktop are customizable, mimic Snowflake GES-C01 real exam scenarios, provide results instantly, and help to overcome mistakes.

GES-C01 Valid Exam Preparation | Braindumps GES-C01 Downloads

Our Snowflake GES-C01 can help you clear exams at first shot. We promise that we provide you with best quality Snowflake GES-C01 original questions and competitive prices. We provide one year studying assist service and one year free updates downloading of SnowPro® Specialty: Gen AI Certification Exam exam questions.

Snowflake SnowPro® Specialty: Gen AI Certification Exam Sample Questions (Q242-Q247):

NEW QUESTION # 242

A data platform architect is evaluating the integration of 'SNOWFLAKE.CORTEX.TRANSLATE' into several automated data pipelines. One pipeline involves real-time translation of messages for a chat application, while another is for batch processing of archived documents. The architect is considering various Snowflake features for orchestration and deployment. Which of the following considerations about 'SNOWFLAKE.CORTEX.TRANSLATE' is accurate?

- A. If 'TRANSLATE' is not natively available in the account's primary Snowflake region, cross-region inference cannot be enabled, thus preventing its use.
- B. When using 'TRANSLATE' within a Snowpark Python User-Defined Function (UDF), the raw text data must be explicitly moved out of Snowflake's network boundary to the underlying LLM service for translation.
- C. To manage potential failures in a production pipeline, 'SNOWFLAKE.CORTEX.TRANSLATE' should be wrapped in 'TRY COMPLETE' for robust error handling, returning NULL on failure instead of an error.
- D. The 'TRANSLATE' function can be seamlessly integrated into a dynamic table's 'SELECT' statement to provide continuous, automated translation with minimal configuration.
- E. The Snowflake managed model used by the 'TRANSLATE' function has a context window of 4,096 tokens, meaning texts

longer than this will be truncated before translation.

Answer: E

Explanation:

Option D is correct. The Snowflake managed model from the 'SUMMARIZE function has a context window of 32,000 tokens, but for TRANSLATE the context window is 4,096 tokens. Input text exceeding this limit would be truncated. Option A is incorrect because Snowflake Cortex functions, including 'TRANSLATE', do not support dynamic tables. Option B is incorrect; when Snowflake Cortex LLM functions (like TRANSLATE) are called on Snowflake data, the data never actually leaves Snowflake's network boundary. Option C is incorrect; cross-region inference can be used if 'TRANSLATE is not natively available in a region. Option E is incorrect because 'TRY_COMPLETE is a specific function that performs the same operation as 'COMPLETE but returns 'NULL' on error. While 'TRY_COMPLETE' handles errors for 'COMPLETE', it is not a general wrapper for any Cortex function like 'TRANSLATE. There is no indication that 'TRANSLATE should be wrapped in 'TRY_COMPLETE for error handling; instead, standard error handling for SQL queries would apply, or if there were a 'TRY_TRANSLATE function (which isn't mentioned). The prompt mentions using 'TRY COMPLETE with a 'COMPLETE like function.

NEW QUESTION # 243

□

- A. □
- B. □
- C. □
- D. □
- E. □

Answer: A,B,D,E

Explanation:

□

NEW QUESTION # 244

A data engineering team is building an automated pipeline within Snowflake to process newly ingested documents. This pipeline needs to classify each document's sentiment (positive, neutral, negative) and summarise its content using Cortex LLM functions, then store the results in a table. The pipeline is orchestrated using Streams and Tasks. Which considerations are paramount for implementing and monitoring this AI-infused data pipeline?

□

- A. Option E
- B. Option D
- C. Option B
- D. Option A
- E. Option C

Answer: C,D,E

Explanation:

□

NEW QUESTION # 245

A marketing analyst wants to quickly gauge the overall sentiment of customer feedback stored in a Snowflake table called CUSTOMER_FEEDBACK, which has a column FEEDBACK_TEXT. They decide to use the SNOWFLAKE_CORTEX.SENTIMENT function to process a review. Consider the following SQL query for a specific review:

□

Which of the following correctly describes the expected output format and interpretation of the sentiment_score for the given input?

- A. The output will be a floating-point number between -1 and 1 (inclusive), where a value of 1 indicates strong positive sentiment and -1 indicates strong negative sentiment.
- B. The output will be a JSON object containing a 'label' field, and values around 0 indicate a neutral sentiment.
- C. The output will be a string like 'Positive' or 'Negative', and a score close to 1 indicates strong positive sentiment.
- D. The output will be an integer between 0 and 100, where higher values denote more positive sentiment.
- E. The output will be a boolean value (TRUE/FALSE) indicating if the sentiment is positive, and 0.5 represents a neutral sentiment.

Answer: A

Explanation:

Option B is correct. The function returns a floating-point number in the range of -1 to 1 (inclusive). A SNOWFLAKE.CORTEX.SENTIMENT score of 1 signifies strong positive sentiment, -1 signifies strong negative sentiment, and values around 0 indicate neutral sentiment. The function does not return a string label, a JSON object, a boolean, or an integer percentage.

NEW QUESTION # 246

A financial institution wants to automate the extraction of key entities (e.g., invoice number, total amount, list of invoice items) from incoming PDF financial statements into a structured JSON format within their Snowflake data pipeline. The extracted data must conform to a specified JSON schema for seamless downstream integration. Which Snowflake Cortex capabilities, when combined, can best achieve this data augmentation and ensure schema adherence in a continuous processing pipeline?

- A. Option E
- B. Option A
- C. Option C
- **D. Option B**
- **E. Option D**

Answer: D,E

Explanation:

NEW QUESTION # 247

.....

We are engaged in IT certification examinations guide torrent many years, most our products are similar with the real test. Normally questions quantity of our Snowflake GES-C01 guide torrent materials are more than the real test. Sometimes candidates may doubt why our questions are more than the real test. Our GES-C01 Guide Torrent materials are not only including a part of real test questions but also a part of practice questions, buyers can master exam key knowledge better.

GES-C01 Valid Exam Preparation: https://www.braindumpstudy.com/GES-C01_braindumps.html

And you can try our GES-C01 study materials by free downloading the demos to know which one is your favorite, Therefore, you can trust on our GES-C01 exam materials for this effective simulation function will eventually improve your efficiency and assist you to succeed in the GES-C01 exam, Snowflake Exam GES-C01 Simulator Online Instead of blindly studying relevant knowledge the exam demands, you can do some valuable questions, Snowflake Exam GES-C01 Simulator Online You can easily understand how you have to prepare.

Scripting the Paint Tools, It is a matter of trial and error until you have a look that conveys the action, And you can try our GES-C01 Study Materials by free downloading the demos to know which one is your favorite.

Pass GES-C01 Exam with Fantastic Exam GES-C01 Simulator Online by BraindumpStudy

Therefore, you can trust on our GES-C01 exam materials for this effective simulation function will eventually improve your efficiency and assist you to succeed in the GES-C01 exam.

Instead of blindly studying relevant knowledge the GES-C01 exam demands, you can do some valuable questions, You can easily understand how you have to prepare, Our company is a professional certification exam Exam GES-C01 Simulator Online materials provider, we have occupied in the field more than ten years, and we have rich experiences.
