At the same time, if you fail to pass the exam after you have purchased CSCP training materials, you just need to submit your transcript to our customer service staff and you will receive a full refund.

## APICS Certified Supply Chain Professional Sample Questions (Q231-Q236):

### NEW QUESTION # 231

Which of the following tools is most appropriate for understanding why products fail?

- A. Control chart
- B. Pareto analysis
- C. Run chart
- D. Root cause analysis

**Answer: D**

Explanation:

Understanding why products fail requires identifying the root causes of the failure. The most appropriate tool for this is Root Cause Analysis (RCA):

\* Root Cause Analysis (RCA): RCA is a systematic process for identifying the fundamental causes of problems or failures. It helps

to determine what happened, why it happened, and how to prevent it from happening again.

\* Run Chart and Control Chart: These are used for monitoring process performance over time but do not specifically identify causes of failure.

\* Pareto Analysis: This helps prioritize issues based on their frequency or impact but does not identify the underlying causes.

### **NEW QUESTION # 232**

Which planning system determines when the necessary labor and equipment will have to be available to perform the work?

- A. DRP
- B. MPS
- C. RCCP
- D. MRP
- E. CRP

**Answer: E**

### **NEW QUESTION # 233**

Which of the following approaches would be used to enhance compliance, minimize risks, and connect supply chain activities when exporting products to emerging markets?

- A. Global trade management
- B. Supply chain event management (SCEM)
- C. Logistics network planning
- D. Distribution requirements planning (DRP)

**Answer: A**

Explanation:

To enhance compliance, minimize risks, and connect supply chain activities when exporting products to emerging markets, global trade management (GTM) is the most effective approach. Here's how GTM helps:

\* Compliance: GTM systems ensure that all trade activities comply with international regulations and standards, reducing the risk of legal penalties and delays.

\* Risk Minimization: By automating and standardizing trade processes, GTM minimizes risks associated with errors, delays, and non-compliance.

\* Integration: GTM integrates various supply chain activities, including logistics, customs management, and trade finance, providing a cohesive approach to managing global trade.
