PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q27-Q32):

NEW QUESTION # 27

Which of the following are key stakeholders in a temporary Project Office?

1. Organization Portfolio Office
2. Business as usual staff
3. Suppliers to the project
4. Project Board members

- A. 2,3,4
- B. 1,2,3
- C. 1,2,4
- D. 1,3,4

Answer: A

Explanation:

The P3O Foundation (2013) manual identifies business as usual staff, suppliers, and Project Board members as key stakeholders in a temporary Project Office. Section 5.3.3 states, "Key stakeholders in a temporary Project Office include business as usual staff affected by the project, suppliers providing resources, and Project Board members overseeing delivery." The Organization Portfolio Office (1) is a strategic entity, not a direct stakeholder in a temporary office. The 2013 edition focuses on operational stakeholders impacting or impacted by the project, making D the correct choice. This ensures effective stakeholder engagement during the project lifecycle.

NEW QUESTION # 28

Which is a purpose of the Consultancy and Performance Management role?

- A. Provides benefits realization support
- B. Identifies, monitors and resolves issues
- C. Assists with budget control
- D. Creates, maintains and distributes good practice

Answer: D

Explanation:

The Consultancy and Performance Management role's purpose includes creating, maintaining, and distributing good practice, as per the P3O Foundation (2013) manual. Section 3.5.5 states, "The Consultancy and Performance Management function is responsible for creating, maintaining, and distributing good practice guidance to enhance PPM maturity across the organization." This differs from budget control (A), benefits realization (C), or issue management (D), which are handled by other roles like the Portfolio Analyst or Programme Office. The 2013 edition underscores this role's focus on standardizing processes, supporting P3O's goal of improving performance through shared knowledge. This ensures consistent application of best practices.

NEW QUESTION # 29

Which is needed when getting the investment for a P3O?

- A. Provision of secretariat services
- B. Independence of assurance services
- C. Defined portfolio of change
- D. Recognition of the need for change

Answer: D

Explanation:

The P3O Foundation (2013) manual indicates that recognition of the need for change is essential for securing P3O investment. Section 4.2.2 states, "Investment in a P3O requires recognition of the need for change to justify the business case and gain senior management support." This differs from assurance independence (A), portfolio definition (B), or secretariat services (C), which are operational aspects. The 2013 edition emphasizes this recognition as the foundation for funding approval, ensuring strategic alignment. This drives organizational commitment to the P3O model.

NEW QUESTION # 30

Which of the following describe how an Organization Portfolio Office helps deliver change?

1. Allows the right resources to be allocated to the right programmes and projects
2. Focuses on identifying changes that align best to strategic objectives
3. Monitors progress of programmes and projects against key organizational objectives
4. Is primarily concerned with implementing the change correctly

- A. 1,2,3
- B. 2,3,4
- C. 1,2,4
- D. 1,3,4

Answer: A

Explanation:

The P3O Foundation (2013) manual describes the Organization Portfolio Office (OPO) as supporting change through resource allocation, strategic alignment, and progress monitoring. Section 5.3.2 states, "The OPO ensures the right resources are allocated, identifies changes aligning with strategic objectives, and monitors progress against organizational goals." However, implementing change correctly (4) is a programme- level task, not the OPO's primary focus. The 2013 edition emphasizes the OPO's strategic oversight role, making A the correct choice. This supports effective change governance and delivery.

NEW QUESTION # 31

What is the MOST appropriate use of project planning software for an organization at P3M3 maturity level 1?

- A. Collaborative
- B. Networking
- C. Individual
- D. Integrated

Answer: C

Explanation:

For an organization at P3M3 maturity level 1, the P3O Foundation (2013) manual suggests the most appropriate use of project planning software is individual, reflecting its basic process capability. Section 6.2.1 notes, "At P3M3 maturity level 1, organizations typically use project planning software on an individual basis due to limited process integration and collaboration maturity." Collaborative (A), integrated (C), and networking (D) uses require higher maturity levels (e.g., 2 or 3), where standardized processes and data sharing are established. The 2013 edition aligns this with the initial stage's focus on basic project management, where tools are used ad hoc by individuals rather than across teams. This approach supports gradual improvement toward more sophisticated usage.
