

JN0-481 Test Online - JN0-481 Latest Dump

DOWNLOAD the newest Test4Cram JN0-481 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1FKtBzzLzWxDsQCODeIWnzE7GktUeCfl>

People who want to pass the exam have difficulty in choosing the suitable JN0-481 study materials. They do not know which study materials are suitable for them, and they do not know which the study materials are best. Our company can promise that the JN0-481 Study Materials from our company are best among global market. As is known to us, the JN0-481 study materials from our company are the leading practice materials in this dynamic market.

Test4Cram enjoys the reputation of a reliable study material provider to those professionals who are keen to meet the challenges of industry and work hard to secure their positions in it. If you are preparing for a JN0-481 Certification test, the JN0-481 exam dumps from Test4Cram can prove immensely helpful for you in passing your desired JN0-481 exam.

Free PDF Quiz Juniper - JN0-481 - Data Center, Specialist (JNCIS-DC) High Hit-Rate Test Online

The web-based Juniper JN0-481 practice exam is compatible with all browsers like Chrome, Mozilla Firefox, MS Edge, Internet Explorer, Safari, Opera, and more. Unlike the desktop version, it requires an internet connection. The Data Center, Specialist (JNCIS-DC) (JN0-481) practice exam will ask real Data Center, Specialist (JNCIS-DC) (JN0-481) exam questions.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q45-Q50):

NEW QUESTION # 45

In the Juniper Apstra UI, You are creating a VNI pool for virtual networks.
In this scenario, which VNI range is acceptable?

- A. The valid VNI range is 4096 through 16777214.
- B. The valid VNI range is 2 through 4096.
- C. Any range is acceptable for the VNI pool.
- D. The valid VNI range is 1 through 10000.

Answer: A

Explanation:

In the Juniper Apstra UI, you can create VNI pools for virtual networks that use VXLAN encapsulation in the overlay network. A VNI pool is a resource pool that contains a range of VNIs that can be assigned to the virtual networks. The valid VNI range for a VNI pool is 4096 through 16777214, according to the VXLAN standard. Therefore, the statement B is correct in this scenario. The following three statements are incorrect in this scenario:

Any range is acceptable for the VNI pool. This is not true, because the VNI range has a lower and upper limit defined by the VXLAN standard. The lower limit is 4096, and the upper limit is 16777214. Any VNI outside this range is invalid and cannot be used for VXLAN encapsulation. The valid VNI range is 2 through 4096. This is not true, because the VNI range does not start from 2, but from 4096. The VNIs from 2 to 4095 are reserved and cannot be used for VXLAN encapsulation. The valid VNI range is 1 through 10000. This is not true, because the VNI range does not include 1, which is also reserved and cannot be used for VXLAN encapsulation. The VNI range also does not end at 10000, but at 16777214, which is the maximum possible value for a 24-bit VNI field.

NEW QUESTION # 46

When an agent installation is successful, devices are placed into which state using the Juniper Apstra UI?

- A. IS-ACTIVE
- **B. OOS-QUARANTINED**
- C. IS-MAINT
- D. OOS-READY

Answer: B

Explanation:

When an agent installation is successful, devices are placed into the Out of Service Quarantined (OOS-QUARANTINED) state using the Juniper Apstra UI. This state means that the device is not yet managed by Apstra and has not been assigned to any blueprint. The device configuration at this point is called Pristine Config. To make the device ready for use in a blueprint, you need to acknowledge the device, which changes its state to Out of Service Ready (OOS-READY).

NEW QUESTION # 47

Referring to the exhibit, how many rack types are used in the staged blueprint?

- **A. two**
- B. six
- C. three
- D. seven

Answer: A

Explanation:

Referring to the exhibit, the image shows the Racks table under the Staged menu in the Juniper Apstra UI. The Racks table displays the details of the racks that are used in the blueprint, such as the name, rack type, and date. The rack type is a resource that defines the type and number of leaf devices, access switches, and/or generic systems that are used in rack builds. The image shows seven racks in the table, but only two rack types: BorderLeaf and ServerRack.

NEW QUESTION # 48

You are working with a three-stage IP fabric using EBGp for peering. In this scenario, which two actions are required to implement ECMP? (Choose two.)

- **A. Use the multipath multiple-as BGP parameter.**
- B. Use a load balancing policy applied to the forwarding table as an export policy.
- C. Use a load balancing policy applied to BGP as an import policy.
- **D. Use a load balancing policy applied to BGP as an export policy.**

Answer: A,D

Explanation:

To implement ECMP in IP fabric using EBGp, you need to enable BGP to install multiple equal-cost paths in the routing table and to advertise them to the peers.

NEW QUESTION # 49

In the case of IP Clos data center five-stage fabric design, what are two roles of the super spines? (Choose two.)

- A. Super spines are used to interconnect two different data center pods.
- B. Super spines are used to connect leaf nodes within a data center pod.
- C. Super spines are always connected to an external data center gateway.
- D. Super spines connect to all spine devices within the five-stage architecture.

Answer: A,D

Explanation:

In the case of IP Clos data center five-stage fabric design, the super spines are the devices that provide the highest level of aggregation in the network. They have two main roles:

Super spines are used to interconnect two different data center pods. A pod is a cluster of leaf and spine devices that form a 3-stage Clos topology. A 5-stage Clos topology consists of multiple pods that are connected by the super spines. This allows for scaling the network to support more devices and bandwidth.

Super spines connect to all spine devices within the five-stage architecture. The spine devices are the devices that provide the second level of aggregation in the network. They connect to the leaf devices, which are the devices that provide access to the end hosts. The super spines connect to all the spine devices in the network, regardless of which pod they belong to. This provides any-to-any connectivity between the pods and enables optimal routing and load balancing.

NEW QUESTION # 50

.....

Test4Cram provides numerous extra features to help you succeed on the JN0-481 exam, in addition to the Juniper JN0-481 exam questions in PDF format and online practice test engine. These include 100% real questions and accurate answers, 1 year of free updates, a free demo of the Juniper JN0-481 Exam Questions, a money-back guarantee in the event of failure, and a 20% discount. Test4Cram is the ideal alternative for your JN0-481 test preparation because it combines all of these elements.

JN0-481 Latest Dump: https://www.test4cram.com/JN0-481_real-exam-dumps.html

Every page is carefully arranged by our experts, it has the clear layout of JN0-481 vce pdf training which leads unbelievable ocular experience with high efficiency and high quality, Avail free 24/7 Online Test4Cram Support for JN0-481 Practice Test, The specialized persons in charge check strictly and guarantee the quality of JN0-481 cram PDF before selling, Juniper JN0-481 Test Online We guarantee all dumps materials we sell out are high-quality.

By providing the large span of information technologies and diverse JN0-481 Valid Dumps Questions tourist services, it is a very useful description of the book's subject and precise definition of its scope.

You don't need to be aware of the kind of network JN0-481 Latest Dumps Files hardware the user has, or even of the underlying protocol, Every page is carefully arranged by our experts, it has the clear layout of JN0-481 vce pdf training which leads unbelievable ocular experience with high efficiency and high quality.

JN0-481 Test Online - Pass Guaranteed Quiz First-grade JN0-481 - Data Center, Specialist (JNCIS-DC) Latest Dump

Avail free 24/7 Online Test4Cram Support for JN0-481 Practice Test, The specialized persons in charge check strictly and guarantee the quality of JN0-481 cram PDF before selling.

We guarantee all dumps materials JN0-481 we sell out are high-quality, Agreeable results.
