Top 312-49v11 High Passing Score & Perfect 312-49v11 Real Exam Questions & Fantastic Latest 312-49v11 Mock Test

As the saying goes, an inch of gold is an inch of time. The more efficient the study guide is, the more our candidates will love and benefit from it. It is no exaggeration to say that you can successfully pass your 312-49v11 exams with the help our 312-49v11 learning torrent just for 20 to 30 hours even by your first attempt. And to cater to our customers' different study interests and hobbies, we have multiple choices on the 312-49v11 Exam Materials versions for you to choose: the PDF, the Software and the APP online.

EC-COUNCIL Computer Hacking Forensic Investigator (CHFI-v11) Sample Questions (Q919-Q924):

NEW QUESTION # 919

A forensics investigator needs to copy data from a computer to some type of removable media so he can examine the information at another location. The problem is that the data is around 42GB in size. What type of removable media could the investigator use?

- A. DVD-18
- B. HD-DVD
- C. Blu-Ray dual-layer
- D. Blu-Ray single-layer

Answer: C

NEW QUESTION # 920

You have completed a forensic investigation case. You would like to destroy the data contained in various disks at the forensics lab due to sensitivity of the case. How would you permanently erase the data on the hard disk?

- A. Throw the hard disk into the fire
- B. Format the hard disk multiple times using a low level disk utility
- C. Overwrite the contents of the hard disk with Junk data
- D. Run the powerful magnets over the hard disk

Answer: A,B

Explanation:

To be effective with throwing the hard drive into the fire, the fire would have to be hot enough to melt the platters into molten metal, which requires an industrial furnace. This requires special facilities. Running powerful magnets over the disk, such as degaussing the disk, may destroy the data, but may also be ineffective. In some cases, the degaussing process for tape and disk may render the disk unusable for use again. (of course throwing the drives into a furnace also guarantee that as well). Formatting the disk multiple times with a low level disk utility is the best way to go, and still be able to re-use the disk for later projects. The keys are "multiple" and "low level". A low level format is typically a slow, thorough, format that is a wipe. Multiple ?as opposed to once ?is recommended. There is a theory on "how many times", some schools say at least three times. The problem with this answer is that with newer drives, such as ATA and SCSI, low level formats can destroy the volumes as well, and some BIOS may actually ignore the LLF directives. Overwriting the disk with junk data would perform some form of wipe because the old data is wiped out, but still may be recovered.

Note:

According to some websites:

Physical Methods that will not work to destroy data on a hard drive include: Throwing it in the water (this does not do much) Setting it on fire (the temperature is not going to be high enough at home) Throwing it out of the window. Hard drives can take quite a bit of G force. They are not heavy so the impact of the hard drive on the ground is not likely to destroy the platters. Drive over the hard drive. A car, or even a tank, driving over a hard drive will do nothing, any more than they would driving over a book. Unless the drive is actually flattened, the platters are not going to be destroyed

NEW QUESTION # 921

How will you categorize a cybercrime that took place within a CSP's cloud environment?

- A. Cloud as an Audit
- B. Cloud as a Tool
- C. Cloud as an Object
- D. Cloud as a Subject

Answer: C

NEW QUESTION # 922

Which among the following search warrants allows the first responder to search and seize the victim's computer components such as hardware, software, storage devices, and documentation?

- A. Service Provider Search Warrant
- B. Citizen Informant Search Warrant
- C. John Doe Search Warrant
- D. Electronic Storage Device Search Warrant

Answer: D

NEW QUESTION # 923

While investigating a potential SQL Injection Attack on a Windows-based server, a CHFI has found the following IIS log entry:

"2023-05-14 15:05:02 10.10.10.55 GET /products.php id=ORD-001%27%20or%201=i;-- 80 bob

10.10.10.12 HTTP/1.1

Mozilla/5.0+(X11;+Ubuntu;+Linux+x86_64;+rv:67.0)+Gecko/20100101+Firefox/67.0

http://www.luxurytreats.com/products.php 200 0 0 510"

Based on this log entry, which of the following is a correct assertion?

- A. The attacker tried to manipulate the user login functionality of the website
- **B. The attacker tried to bypass authentication using a Linux machine**
- C. The attacker was unsuccessful, as the HTTP 200 status code indicated
- D. The attacker could execute a stored procedure on the MS SQL server

Answer: B

NEW QUESTION # 924

.....

The latest 312-49v11 dumps collection covers everything you need to overcome the difficulty of real questions and certification exam. Accurate 312-49v11 test answers are tested and verified by our professional experts with the high technical knowledge and rich experience. You may get answers from other vendors, but our 312-49v11 briandumps pdf are the most reliable training materials for your exam preparation.

312-49v11 Real Exam Questions: <https://www.testpassed.com/312-49v11-still-valid-exam.html>

EC-COUNCIL 312-49v11 High Passing Score When you get certificates and high salaries, you can enjoy the high status accompanied by them, Our 312-49v11 Real Exam Questions - Computer Hacking Forensic Investigator (CHFI-v11) free torrent question is available for all of you, These formats are built especially for the students so they don't stop preparing for the Computer Hacking Forensic Investigator (CHFI-v11) (312-49v11) certification, EC-COUNCIL 312-49v11 High Passing Score At the same time you will find that a wonderful aid will shorten your time greatly.

Therefore, the success of a firm was not dependent on what it could sell, 312-49v11 On the right, we have the 'linked_products' table, When you get certificates and high salaries, you can enjoy the high status accompanied by them.
